GRAIN AND PRODUCE MAKKET

Few Traders Have Bullish Opinion of Present Situation.

CASH GRAIN IS WELL TAKEN

Strong Peeling Enlate that Bears Are Overselling Themselves, as Bendy Advance Scems to Show.

There are few traders who have a bullish opinion on the present grain situation. The premiums for cash grain show that it is being well taken and our side of the literal movement in the northwest marketing is very light. There is some strong festing, however, that the bears are over selling themselves, which is evidenced by the ready advances made occasionally. Wheat opened soft and dropped off easily, owing to weak cables and a general selling fever at the start. Later toward the close some good support came out and the market toned up considerably and closed in a good, strong position. May wheat opened at 30½c and closed at 50½c.

Corn was easy and quite nervous at the opening. Demand was light and there was a general define to sell. It loss remained fairly steady and advanced slightly toward the close.

May corn opened at 50½c and closed at

may corn opened at 50% and closed at Oats were more active and prices were advanced early on heavy bids and persistent buying. Demand war good and some good traing was it omplehed. May cats opened at 49% and losed at 51c. at 49%c and losed at Sic.

Frankry with receipts were \$20,000 bushels and ship ents were \$1,500 bushels and shipments of 21,000 bushels.

Corn receipts were \$15,000 bushels and shipments were \$15,000 bushels and shipments were \$15,000 bushels, against receipts last year of \$55,000 bushels and shipments of \$20,000 bushels, against receipts last year of \$355,000 bushels and shipments of \$20,000 bushels.

Clearances were \$25,000 bushels of corn.

955 bushels of caus and wheat and flour equal to \$55,000 bushels.

Liverpool closed "\$5d lower on wheat, and \$4d lower on corn. Liverpool closed 4.5d lower on wheat, and 4d lower on corn.

Beaboard reported 180,000 bushels of wheat and 77,000 bushels of corn taken for export.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing CHICAGO, Dec. 5.—A rally in the stock list and an improved demand for wheat by exporters caused as advance of more than 50 in the price of wheat on the local exchange today. At the close the May delivery shawed a net gain of 1601c. Corn was up 1604c. Oats were 160 higher, and provisions 1601750 higher.

The wheat market opened weak on general seiling by pit traders, who were bearishly influenced by a decline of more than id at Liverpool and by the bank suspension at Kansas City. For the first hour the market received little support, but toward the middle of the session an active demand developed, especially from shorts, which resulted in an advance of 1802466 from the low point of the day. The sharp ralls is stocks, a revival of export demands and a diapatch from Duiuth predicting a demand of 1800c, 2000 bushels in the amount, of wheat in store there for the week were the principal factors that inspired the de-Prices on Board of Trade.

and a dispatch from Duluth predicting a decrease of 3,000,000 bushels in the amount of wheat in store there for the week wore the principal factors that inspired the demand. The market closed strong at almost the highest point. May opened 3,00 to 54,000 tower, at \$1,000,1000, sold off to 55,000 bushels of the corresponding day a year ago. Minneapolis, compared with \$31,000 bushels for the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of \$30 cars, against a holiday last week and become over the slump in wheat. Later, however, a strong tone developed and sill of the early loss was recovered. The advance in wheat and fall silvely demand for the cash grain were the chief strengthening influences. The close was firm, May opened a shade to 500% lower, at 550,000,000,000. The close was at 500. Local receipts were 160 cars, with 5 cars of contract grade.

Oats displayed moderate weakness at the start, in sympathy with wheat and corr, but offerings were not large. Following the rally in wheat shorts became active bidders and there was also free buying by a leading bull. This resulted in an advance of more than 1c from the bottom. MORE MONEY FOR SPECULATION

Essing of Currency Stringency is Marked by Campaign for Rise-Investors Turn from Bonds to Stocks.

NEW YORK, Dec. 5.—Transactions opened at the Stock exchange today in face of the rather formidable intelligence of the closing of the leading bank of Kansas City. The effect of this news on stocks did not much outlast the first hours operations. The manner in which the market accepted the news made a fresh impression on the bear party of its resisting power and of the definite passing of the extreme prostration of demand for securities.

The action of the bond market for over a week past has given clear warning of this change in the investment situation. Mortgage securities have been freely absorbed for widely differing accounts, including an important and substantial foreign demand. It is on this fundamental basis that financial opinion has been agreed in looking for the first reliable index of the turn in the situation for the better. With the freer movement of credits, resulting from the mending of the banking situation, a speculative party has found means to take advantage of the improving conditions by large operations in the market. They have had the advantage becamber closed. Sign. May, Gold.

SHEEF-There was a very fair run of sheep this morning, thirty-six cars being reported in. Of this number seven dars were rangers and the balance was made up of fed stuff. The market as a whole was slow and the morning was well advanced before anything like a clearance was effected. As to prices sheep and yearlings were generally quoted as steady to a little easter. It will be remembered that yesterday's market was quoted a little higher in spots. Today they took off about what they put on yesterday, making the market practically steady with Toesday. The 14.30 ewes of yesterday brought \$4.5 today, which was also Tuesday's price.

Price.
Fat lambs were slow sale and the market was right at 15c lower than yesterday. Sellers were very slow to make any concession, which made it late before a clearance was effected.
There was a fair demand for a few feeder lambs of good quality and a nice bunch of rangers brought \$5.65.
Quotations on good to choice fed sheep and lambs: Lambs, \$5.7566.00; yearling welforts, \$4.7656.00; wethers, \$4.5064.65; ewes, \$1.5064.50; common lambs, \$1.0064.50; yearlings, \$4.0064.50; wethers, \$4.0064.50; yearlings, \$2.7632.25; common ewes, \$1.2062.25.

Foreign Financial.

LONDON. Dec. 5.—Money was in quiet demand on the market today and discounts were firmer on the rise in the price of bar gold and the expectation of a shipment of gold to America the end of the week. Although speculators were disappointed that the discount rate of the Bank of England was not changed, conservative opin, on considers the retention of the I per cent rate to be necessary, in view of the uncertain situation in New York and the revival of the American demand for gold. On the Stock exchange concols hardened after early hesitation, and this with a good investment demand for home rails, created a firm tone in British shares at the close, Americans were firmly supported in the forenoon above parity. The bears covered on the final strength of Wall street yesterday, while reports that leading interests intended coming to the assistance of the market helped the improvement. The bank failure in Karsas City caused a sharp setback, especially in Union Pacific, Southern Parific and Missouri, Karsas & Texas. The market closed weak. Poreigners benefited carly on Paris support, but closed easier. BERLIN, Bec. L.—Prices on the Bourse today were higher. All American shares made advances.

PARIS Dec. S.—Trading on the Bourse today was heavy, after having shown firmness in the early hours.

LABORERS FLOCK TO EUROPE

Foreign Railroad Hands Spend Winter Across the Ocean.

PITY ON THIS LOT IS WASTED

Two Thousand or These Sons of Totl in Two Monthe Have Left for Homes that Lay Over the Sea.

If your heart is sympathetic you have probably often looked at the tolling growds of foreign laborers along the raffroads and have pitied them for their dull, prosaic lives. If your heart is thankful you have probably given thanks that you are more fortunate than they. But stop a moment. Can you afford to spend the winter n Europe? Can you afford the luxury of a long journey by rail to New York, a voyage over the broad Atlantic and a cruise through the sunny Mediterranean? That is what those poor tollers whom you

pity can and do afford. This year saw such an exodus of them from Omaha as has never been seen before. It is esti-mated that more than 2,000 of the foreignors left Omaha in the last two months for "We carried 800 of them," said a city

passenger and ticket agent. "Some of them had their tickets bought through to he home port, while others had bought only as far as New York, preferring to rebook there.

Button to Distinguish Them.

Many of them could not tell their own imes, but such usually had friends bound or the same port who were taking care of hem. We have an especially fine system of taking care of the emigrant from the time he leaves Omaha until he la safe on the ship going out of New York. Here is this button, which we give to each person who buys a ticket. You see it is bright red, about the size of a dollar and has the name of M. B. Goldberger on it. The emigrants are instructed to pin this button on their coats just before they get to New York. When they arrive there Mr. Goldberger or one of his men meets them and takes them to one of the two hotels which he owns. There they are cared for at an extremely low rate. There they meet agents for the steamship companies and there they find guides to conduct them to the steamships just before salling time,

"After they get over there they can visit with all their old friends, parade around like the bloated aristocrats they are in that country and show off generally. Some of them visit their wives. It is too expensive, they say, to bring them to this country, so they go back and visit them every few years,"

Five Hundred More,

"We took about 500 of the emigrants east," said another city passenger agent. They were mostly Austrians and Italians. Wool Market.

BOSTON, Dec. 5.—WOOL—The duliness of the local wool market is still maintained, although the alow movement to the mills is apparently due to curtailments. Manufacturers, however, have been in the city localing desirable supplies and a revival is anticipated after the first of the year. Prices for good staple lerritory, Oregon and similar supplies, fine delaine and half-blood fleece remain quite firm, while clothing wools continue steady. There have been some sales of Ohio, fine delaine and half-blood in order lots and sample lots of clothing grades are moving. In territory wool small lots have been transferred at prices which show no material change over last week. Pulled wool is very duli and there is no demand for Australian cross-breds, although there is a fair supply of grades running from so to 4s on the market. The prices of the leading western wools are as fellows: Kentucky, Indiana and Missouri—Three-eighths blood, \$2555c, quarter blood, 2565c; soured values, Texas fine, twelve months, \$2550c; fair, field, \$2550c.
