Weak Cables Are Counteracted by Other Better Influences.

BULLISH NEWS ONE ELEMENT

Commission Houses Buy and Longs Take Profits on the Balance, Which Gives Support.

OMAHA, Dec. 19, 1930.

Cables came some better on the balance from the northwest, and buying by commission houses and longs who have taken profits on the balance gave the market the necessary support, and values were well sustained and worked some higher.

Wheat started steady, but weaker cables, but good demand and heavy commission house buying induced by reports of better country receipts and the poor quality of milling wheat received from the northwest soon had prices working up.

May corn closed at 50c and closed at 51c. Oats were steady and firm and shows a good independent strength, backed by light offerings and reports throughout, low and limited of soft hard damaged shipping returns. Demand for cash corn, as well as futures, is good.
