STRONG SALES IN DOMESTIC MARTS

Cables and Congested Wheat Centers Give Strength to All Markets and Point to Still

Grain prices continued to work higher with an increasing demand from foreign markets and strong buying at all domestic

taken and had little effect on the closing of prices.

Corn was queer, effected by the bearish government report. Selling was scattered, with the crowd generally, bearish and working for a set back. However, the market responds readily to all buying and shows strength with values some lower.

The oats market was pretty dull with offerings very light and no particular interest developed to incited any strong bidding.

Primary wheat receipts were 534 000 bush. bidding.

Primary wheat receipts were 534,000 bushels and shipments were 187,000 bushels, against receipts last year of 000,000 bushels, against receipts last year of 000,000 bushels and shipment of 217,000 bushels.

HOGS—Most of the hogs sold inside the range of \$1.30\text{74} 35, with a top at \$1.40. This means that today's market was—"dy with yesterday opening, a good 10- nigher than yesterday's average market and fully like or more higher than yesterday's close. While the trade was not active, buyers and sellers being a little slow in getting started, still everything changed hands by 10 o'clock in the morning.

The receipts of hogs this week have shown a falling off as compared with a year ago, but still the run has been very fair. The market has been extremely wild, fluctuating back and forth with great rapidity. On Monday it was a little fower than the close of the previous week. Thesday it was like higher, during the next three days all this advance was lost, the hegs selling on Friday just about where they did on Monday. Today's advance leaves the markst 76c higher than it was at the close of last week. As noted before in these columns it has been a very unsatisfactory market to operate on, prices sillding up and down without any apparent cause and so unexpectedly as to give maither buyers nor sellers a chance to protect themselves.

Representative saids: Representative sales:

SHEEP-There were no fresh receipts of sheep today. The total arrivals for the week show a very heavy falling off as compared with last week and a year ago. In fact, the receipts this week have been a little more than half what they were during the corresponding week last December. Btill the supply has been sufficient to meet the requirements of the trada. The demand for killers is never very good just before the holiday season, being limited largely to the better grades of both

hushess doing during the helicay person and there is no reason for expecting any exception to the general role this senson. In consequence both buyers and sellers are not expecting very much business until the coming of the new year.
