MORE LIFE TOWARD THE CLOSE

Some Good Exchanges Are Made-Wheat is Lower on Weak Cables and Indications of Heavy World Shipments.

OMAHA, Jan. 11, 1908.

Grain market shows no jump and values work lower on tack of support from the built side. Some good exchanges were made and more life was shown toward the

made and more life was shown toward the close.

Wheat opened lower on weak cables and indications of heavy world's shipments. Support was lacking at the start and a considerable break was experienced, which was recovered near the close by some ininteresting buying.

Corn opened dull and lacked snap. Selling depressed prices easily and there was little or no feature to the lower market. Oats opened rather firm on good buying. Near the close elevator people started to sell and caused slight break.

Primary wheat receipts were 521,000 bushels and shipments were 421,000 bushels, against receipts last year of 556,000 bushels, and shipments of 182,000 bushels, and shipments of 389,000 bushels, against receipts last year of 500,000 bushels and shipments of 389,000 bushels and shipments of 389,000 bushels and shipments of 383,000 bushels.

Clearances were 123,073 bushels of corn; 5,785 bushels of oats; and wheat and shour equal to 375,835 bushels.

Liverpool closed 14674d lower on wheat and unchanged on corn.
Seaboard reported 400,000 bushels of wheat and 36,000 bushels of corn taken for export.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Jan. 11.—Expectation of in-creased world's shipments was chiefly re-sponsible for a bearish wheat market to-day. The May option at the close was off \$c. Corn closed \$c lower. Oats were down \$c. Provisions showed losses of from

cown %c. Provisions showed losses of from 2%c to 7%c.
Opening dull, the wheat market showed a tendency to sag in the absence of speculative interest. The selling movement that resulted in lower figures was due to an estimate for a foreign crop journal that the world's shipments for the week would show a large increase. A decline at Liverpool of %cf%c was reflected in the opening here, May being %aff%c lower at \$1.05%0 here, May being %aff%c lower at \$1.05%0 here. May being %aff%c lower at \$1.05%0 here. May being %aff%c lower at \$1.05%0 here. May sold up to \$1.05% but upon resumption of liquidation broke to \$1.05%0 lower at \$1.05% and lower resumption of liquidation broke to \$1.05%0 lowered with \$56,000 for the corresponding day a year ago. Clearances of wheat and flour were equal to 62,000 bu. Minneapolis, Duluth and Chicago reported receipts of 300 cars, as against 207 last week and 324 a year ago.

Sign cars, as against 207 last week and 324 a year ago.

Corn opened steady on smaller country offerings, but broke sharply under the influence of liberal local receipts. Selling pressure was not great at the lower level, however, country advices of weather unfavorable to the marketing of the crop acting in a measure as a check to the bear pressure. May opened 14694c lower at 604960%c, sold at 60%c, but closed weak like above the bottom at 60c. Local receipts were 412 cars, with none of contract grade. Trade in oats was extremely dull and was confined almost to operations by pit traders. There was more or less selling pressure in sympathy with other grains and the tone was heavy. May opened a shade higher at 64%c and sold between that figure and 53%657%c, where it closed. Local receipts were 125 cars.

Provisions were fairly steady, a smaller run of hogs than anticipated offsetting free offerings by packing interests. The close showed a net loss for May pork of 7%c at \$13.37%. Lard was down 2%c at \$3.05. Ribs closed 2%c lower at \$7.22%.

Estimated receipts for Monday: Wheat, 39 cars; corn, 67 cars; oats, 231 cars; hogs, 68.00) head.

WEATHER IN THE GRAIN BELT

Sunday, with No Important Change in Temperature.

OMAHA, Jan. 11, 1907.

The trough of low pressure that extended north and south over the central valleys Friday morning has developed into a well defined storm area that now overlies the lower Missisatppi valley and middle Gulf states. This disturbance is attended by general rains throughout the lower valleys and southern states. The pressure continues high over the west and has increased rapidly over the upper valleys, causing a very decided fall in temperature everywhere from the Mississippi river west to the mountains. The weather is warmer east of the river, and temperatures are rising in the west and northwest. Fair weather will continue in this vicinity tonight and Sunday with no important changes in temperature.
