

EPIDEMIC CATARRH IS CALLED GRIP

A World-Wide Scourge Which Sweeps Over the Land Nearly Every Year.

Who can withstand the dreadful hand of grip that periodically clutches thousands in its remorseless grasp?

Can any one hide from its terror?

Can any one afford to ignore its consequences?

A remedy to allay its ferocity during its attack.

A remedy to mitigate damages to the system.

Can anything more be done?

Is not Peruna, the renowned catarrh medicine, such a remedy?

Many thousands of people think so.

Read What Victims of the Grip Say.

After Effects of Grip.
Mr. K. E. Eveld, Company "B," 1st Michigan, V. L., 39 Hermitage St., Grand Rapids, Mich., writes:
"I felt with advancing years that my vigor failed me and fear of poisoning my system with noxious medicines prevented my taking anything for it, until, noting the effect Peruna had on several of my comrades, I made up my mind it would be good for me.
"I suffered for years from effects of the la grippe, which seemed to settle in my stomach and kidneys.
"Five bottles of Peruna made a new man of me. I wish that I had known of Peruna years ago and then it would have saved me much suffering."

Bad Case of Grip.
Mrs. Genety Gates, East Lake, Ala., writes: "I had a bad case of la grippe. I tried several kinds of medicine, but could get no relief.
"I tried Peruna and it cured me. I can safely say that it is a fine medicine. I have used it in our family often and find it to be good."
Systemic Catarrh Follows Grip.
Mrs. Jennie W. Cecil, Big Cabin, Indian Territory, formerly housekeeper for Indiana Reform School for Boys, writes: "Six years ago I had la grippe, which was followed by systemic catarrh. The only thing I used was Peruna and Manalin, and have been in better health the last three years than for years before.
"I give Peruna all the credit for my good health."

JAIL REPAIRS COME HIGH

Thirteen Thousand Dollars Estimate of Architect for Remodeling.

URE STARTS FIRE WITH TRAINOR

Tells Him He Doesn't Know Anything, but the Meeting Adjourns Without Blood Being Shed.

Plans of the county commissioners to remodel the three floors of the county jail in order to provide more room and better sanitation were given a jolt at the meeting Saturday, when John Latimer, architect, submitted his plans and estimates showing the work would cost about \$13,700. The board had expected to expend about \$5,000 on the job and when the members learned the estimate other plans involving a considerably smaller expense were started.
Sheriff Brasley was present and he, in common with the commissioners, expressed the opinion \$13,000 was more than should be spent on the present jail structure. He suggested that seven new cells be placed in the rooms formerly occupied by the jailer on the second floor and that the other plans be abandoned.
The board agreed to adjourn and instructed the architect to draw new plans. A resolution was passed extending the date of opening bids from January 22 to early in February. Bids will be asked on both sets of plans and the board will then decide what to do. It was the sentiment

THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Cost Nothing To Try. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gasses and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless ingredients in tablet form or rather in the form of large pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels and to clear the complexion and purify the breath, throat and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Entire Coiffure of Puffs Spanish Side Ornaments of Silver and Gold Are to Be Worn with It.

With the entire puff coiffure, which is one of the recent innovations, the Spanish side ornaments of silver or gold flowers are wonderfully attractive. Little semi-wreaths of silver filigree with larger blossoms at the sides are much favored by young women. When the hair is dressed low clusters of these flowers back of the ears are vastly becoming. Rich knots of velvet and bows embroidered in new pearls, tiny brilliants, colored beads, gold or silver are worn to harmonize with the color of the costume.

Often a single velvet flower is preferred to elaborate decoration when the color of the gown is repeated in the velvet petals. The broken wreath and the spray of artificial flowers or foliage is still much to the taste.
