GREENE REPORTS SALARIES

Attorney for One Express Company Makes the Showing Demanded.

STATE FREIGHT CLASSIFICATION

Former Congressman Strode Believes Taft Should Be Nominated and Governor and Senator Brown Sent to Convention.

(From a Staff Correspondent.) Lincoln, Jan. 2.—(Special Telegram.)
-Salary earnings of the chief officials of at least one express company were made known to the railroad commission this morning through Attorney Charles J. Greene, representing the United States Express company. Mr. Greene made a supplementary report to the board, in which he included information demanded that had been hithertoo withheld, concerning the extent of the company's business. In this the company is represented as being willing, privately, to lay information of salarles of its officers before the board, but it disikes to make this a matter of record. Mr. Freene showed the members of the board a letter in which the information was given that the president of the company draws \$25,000 a year, the secretary \$20,000 and the the newspapers to enlarge on all such detalls and make mountains out of molehills, the board was informed, the whole matter would have been reported long before.

Commissioner Clarke today asked Attorney Greene, who is representing the express companies, what his understanding is of the meaning of the word "merchandise" in the act. One member of the railroad commission holds it does not cover the payment of the established rates of the all merchandise transported, but only 40 per cent of it. Mr. Greene says so far as he knows the companies all consider the term to apply to everything transported by them for charge. This is the opinion held of insurance, according to the Western s Commissioners Winnett and Clarke.

Argument in Sibley Law Case. Greene argued a motion before the supreme court this afternoon to be permitted to withdraw his answer to the petition of the attorney general for an injunction to compel a compliance with the Sibley law and to permit him to file a demurrer. The court overruled the motion, but informed the attorney that if he would strike certain parts of his answer the same would be considered as a plea in abatement. Attorney General Thompson and Hallack Rose for the state argued against the Greene motion and asked that a referee be appointed to take testimony. On this motion the court handed down no order. Both sides were ordered to file briefs by the next sitting of the court and be ready to submit the case by that time so the court can settle the matter by the second mitting in February. The attorney general made his application for an injunction July 5 last, since which time numerous motions have been passed on by the court, but no injunction has been issued yet.

To Consider Rate Classification. The State Railway commission has taken up the matter of making a classification of freight rates for Nebraska and discussed it for several hours, with the result that when the commercial clubs of the state hold their annual meeting they will be invited to express themselves. A large number of people want the commission to put in a strictly distance tariff rate, while others desire the commission to keep the present system, but to make changes in the interest of the shippers. It has been GENERGIZES THE WHOLE BODY and to change that system now would be has been built up under the present system 40 disrupt the entire commercial business of the state. Evidence will be asked of ercial clubs to be used by the board in determining what plan to follow.

Calls Halt on Searle. The bonding company in which Auditor Searle is financially interested will be unable to do any more business with the state as a party to the contract. This was decided by the depository band board, composed of Governor Sheldon, Secretary of State Junkin and Atorney General Thompson. The board decided inasmuch as the constitution prohibited any state officer from having any interest in any contract We make it in our office, and is with the state it would be illegal to accept perfectly harmless and can be taken guaranty bonds issued by this company. Another reason for the action of the board not, come in and let us examine them laws were passed in 1965 at a time when Mr. Searle was in office and by which laws he as a member of the company would pects to conclude its session by night. cost will be. We guarantee all our profit. This violates another section of the constitution. The company has been writing honds for a large number of state

depositories. Representative Marshall Harrison of Otoe county called at the state house this afternoon to pay his respects to Governor Sheldon. Representative Harrison has been mentioned frequently as a candidate for congress from this district, but up to this time he has not decided to permit his friends to use his name as a candidate.

NEBRASKA CITY, Jan. 22 -- (Special.)-The Nebraska Volunteer Firemen's association is in session in this city. There are some 400 delegates present. The sasoclation was called to order last evening by Vice President Mortenson, owing to the absence of President Hyder, who is in California. The address of welcome was made by Mayor John W. Steinhart and was responded to by Mr. Mortenson. After the usual routine business of the evening, such as hearing reports and the appointing of committees, had been disposed of, the visiting firemen were taken to the city hali where a lunch was served.

This morning the committee on credentials made their report, after which the convention settled down to business and the reports of the various officers were heard and disposed of. The delegates were assembled in front of the court house at noon and had their pictures taken. This afternoon they were guests at the Institute for the Blind. They were shown over that institution, after which in the chapel a students. The entire afternoon was spent in that institution, and the delegates for the first time learned how apt the students were in music, art, writing and things in general. Superintendent Morey devoted the entire afternoon to the entertainment of the visitors.

This evening a short business session was held and the convention adjourned to attend a dance given for their benefit at Eagle hall by the members of that order. The city is gaily decorated and the stores are profusely covered with gay colors and signs of welcome to the visitors. NEWS IN THE ARMY CIRCLES Captain Johnson Goes to Fort Robin-

son-General Morton Recovers from Grip. Captain Carter P. Johnson of the Second United States cavalry stopped in Omaha on his way to Fort Robinson. He has been specially delegated by the War department to keep in touch with the Ute Indians now largely employed in failroad work at Rapid City. Their families as a rule re-main at Thunder Buttes, where one squadron of the Second cavalry is stationed to keep friendly watch over them. Captain Johnson has had virtual charge of the Indians since their migration from Utah, and enjoys their confidence to a large extent. For this reason he has been stationed at Fort Robinson to be in close touch with them in the event of further dis-

satisfaction existing between them and

the Indian departments.

The recent arrival of 125 recruits for the Fourth cavalry at Fort Meade and the constant arrival of recruits for the infantry and artillery branches of the service at the posts of the Department of the Missouri is taken as a distinct revival in the general recruiting service. These recruits come from the rendezvous at Jefferson Barracks, Fort Slocum, New Yorks and Columbus (Ohio) Barracks. The recruits as a rule are of a high order of young men representing about 33 per cent of acceptances of the applicants presenting themselves for enlistment. The skeleton regi-ments are rapidly being recruited to their maximum limit, the enlistments naturally increasing during the fall and winter

months. Brigadier General Charles Morton has sufficiently recovered from his recent illness of grip to be able to resume his regular duties as commander of the De partment of the Missouri

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain.

No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and

good natured. Our book "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to Bradfield Regulator Co. Atlanta, Ga.

Electricity for the Grocer and Butcher.

With electricity in the store, the proprietor is enabled to operate the coffee grinder and meat chopper with small motors, where, heretofore, this laborious service had to be performed by hand.

A fourth h.-p. motor granulates one pound coffee per minute. A one-half h.-p. motor chops 200 pounds of beef per hour.
