Forty-seven applicants for teachers' certificates are taking the examination. Of fils number thirty are taking their first examination. At the The October examination, which was taken by forty-three applicants for certificates, only six failed, but Superintendent Jackson sald yesterday that he did not expect to issue as large a percentage of certificates this time, owing to the fact that such a large proportion of those taking the examination are doing so for the first time. He said he expected, however, to be able to supply as a result of this examination all the schools in the county now without teachers. A large number of second grade certificates will expire July f. mary election to be held Monday, February 16. The petitions will be open to public it in a day or so, when Mr. McAn ney will probably make some public anconnectment of the fact. Should protests be filed against any of the petitions, Mr. Mc. Anency stated he would make a recanvass f such as might be objected to. He said that he did not, however, anticipate any

hing of the kind. Voting at the primary election, it is an teipated, will be a tedious affair, and if a eavy vote is cast it is doubtful if the ate comers will be able to cast their ballots. The booths will be open from 8 a. m to ? p. m., but as the names of the ward councilmen, the precinct committeemed and the delegates to the city convention have all to be written in on the ballot by the erable time. The law provides, however, that "stickers" of convenient size, bearing the names of the councilmen, committeemen and delegates may be used. This will save time, providing, of course, that the men whose names are on the stickers are such as the voter wishes to ballot for.

Republicans and democrats in each precinct will vote at the same booth, and there will be but one set of judges and clerks at each booth. This naturally will make the work of counting the votes exceedingly tedious, and it is doubtful if the result of the primary election will be known before the next morning.

The reply of Mr. Byers to Mr. Mayne follows:

DES MOINES, Ia., Jan. 28.—Rev. Charles Mayne, Council Bluffs, Ia.—My Dear Sir; I am in receipt of your esteemed favor of the 3th instant referring to the law enforcement meeting at Council Bluffs a week ago Sunday night and the so-called apology of the Rev. Mr. McClure.

Replying, I have to say that I was not at all surprised in the position taken by one or two of your prominent local politicians, but I was very much surprised at the stand taken by Rev. Mr. McClure. I however, do not wish to add anything to his burden by offering any criticism. I think I know just what he has to contend with and he has my sympathy; but the good brother should remember that it is impossible to win this contest for good government without arousing the opposition and wrath of the beneficiaries of bad government, and it is just as appropriate and proper to condemn from the pulpit the respectable law breaker and the derelict public official as it is to condemn and denounce the man who is running an illegal saleon, a gambling house, or a brothel.

I am sure that no fair-minded man or woman who was present at that meeting believes that I had any other motive or desire than to promote the welfare of the citizens of that city and to assist in being able to bring about cleaper and better things; at any rate, the real good that will some to your city because of the closing of the gambling houses. Every word I said with respect to them was justified by the record, and if I was called upon to deliver another address in Council Bluffs. I would repeat all I said in this connection. d if I was called upon address in Council Bluffs to deliver another I would reneat all I said in this connection.

As you will remember. I mentioned Governor Cummins' name just once and then only in connection with the question of law enforcement and no man or newspaper that has the slightest regard for decent and

has the slightest regard for decent and courageous treatment would charge that his name was mentioned for any political purpose. In many of my meetings, ministers who have intreduced me have said a great deal more for him, and I have never heard the slightest intimation from any source that it was done for political reasons. In yiew of the fact that Dr. McClure's so-called apology has been given wide publicable in the property of the publication, to vourself and to me to have your letter published, and for that purpose I have given it to the press.
