Wheat, Corn. Cats. CHICAGO GRAIN AND PROVISIONS

Peatures of the Trading and Closing

Prices on Board of Trade. CHICAGO, Fab. 4.—Active buying by shorts caused strength today in the wheat market, the May delivery gaining 14-214c. Corn was up 11-214c. Oats were 15c higher. Provisions were up 12-210c.
Sentiment in the wheat pit was bullian all day and prices advanced nearly 2c from the low mater. all day and prices advanced nearly 2c from the low point. Commission houses were liberal buyers, while shorts covered freely. An improved export demand was one of the chief features to buyers. Duluth reported fairly large saies of Durum wheat for export, and seaboard advices claimed a more brisk inquiry by foreigners. Smaller primary receipts and a decrease of 1,28,000 bushels in the world's visible supply, compared with an increase of 1,216,000 bushels for the corresponding time last year, were additional builtsh influences. The market closed strong. May opened unchanged to %clower at \$55,000 bushels influences. The market closed strong. May opened unchanged to %clower at \$55,000 bushels of the corresponding time last year, were additional builtsh influences. The market closed strong. May opened unchanged to %clower at \$55,000 bushels. Primary receipts were \$75,000 bushels. Alling in the lower Mississippi and southwest. Temperatures are higher in the southern states, central valleys and northwest. They are lower in the southern states, are higher in the southern states, central valleys and northwest. They are lower in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and northwest. They are higher in the southern states, central valleys and no bushels. Primary receipts were 379,000 bughels, against 337,000 bushels on the same day last year. Minneapolls, Duluch and Chicago reported receipts of 335 cars, against 351 last week and 153 a year ago. Corn was strong all day on buying by shorts and bulls. A decreased movement, an improvement in shipping demand and an official forecast of unsettled weather for the corn belt were the chief reasons for the demand. An estimate of only 176 cars as the amount of local receipts for fomorrow was also a factor. The close was strong. May apened unchanged to 56 higher at 50% of 584,635%, advanced to 51% and closed at 61c. Local receipts were 338 cars. The oats market was strong, although trade was in small volume. The upturn was due to good demand by longs and to covering by shorts. Offerings came mainly from holders. May opened 3c higher at 51%c, advanced to 53% and closed at 574c. Local receipts were 138 cars.

Provisions were easy early in the day, because of selling by local packers, but later the market rallied in sympathy with grains. At the close May pork was up its at \$1.20; lard was up 12c at \$1.67%; ribs were 156 cars; oorn, 176 cars; oats, 28 cars; hoga. 59,000 head.

The leading futures ranged as follows:

VALUES ADVANCE AS RESULT

World's Estimates and Higher Liverpool Cables Are the Strive in the Private States and Canada increased 365,000 bushes. The leading decreases reported this week: Chicago private elevators, 245,000 bushes; Ministry Provided Me., 193,000 bushes; Mineapolis wanks private elevators, 110,000 bushes; Mineapolis private elevators, 50,000 bushes. NEW YORK GENERAL MARKET

Quotations of the Day on Various Commodittes.

With all outside markets higher and the bulls working hard for an opaning, values advanced rapidly shortly after the opening. The world's estimates and higher LiverDool cables, estimates and storage on better nables and a decided decrease in the world's anipments. Bull leaders were playling hard for a start and soon had the values running up with ease. May wheat opened at 2½c and closed at 2½c.

Corn was strong from the start off and values were boosted rapidly up on scarcity of offerings and light receipts and strong buying by commission firms. It was a bad market throughout. May corn opened at 5½c.

Oats were slower, but soon felt the effects of the higher wheat and corn market and answered readily to all higher biddins.

May oats opened at 45%c and closed at 5½c.

Frimary wheat receipts were 52,000 bu.

and shipments were 50,000 bu. and shipments of 184,000 bu.

Corn receipts were 14,000 bu. and shipments of 184,000 bu.

Corn receipts were 14,000 bu. and shipments were 50,000 bu. and shipments of 184,000 bu.

Corn receipts were 61,000 bu. of wheat and 4,000 bu. of corn, 60 of oats and wheat and flour equal to 66,000 bu.

WEATHER IN THE GRAIN BELT Rain or Snow Probably Wednesday and Warmer.

OMAHA. Feb. 4, 1908.
A barometric depression overlies the mountain district this morning, with its center over Yellowstone Fark, and unsettled and threatening weather is general throughout the mountains and east to the Mississippi river. Rains and snows are failing in the lower Mississippi and lower Mississippi and lower Mississippi and southwest. Temperatures are higher in the southern states, central valleys and northwest. They are lower in the lake region and east to the Atlantic coast. The weather will continue unsettled, with rain or snow in this vicinity tonight and probably Wednesday, with warmer tonight.

Operations in Wall Street Fall to Point of Stagnation.

BEARS COVER SHORT CONTRACTS

Rock Island Issues Advance on Abandonment of Talk About Receivership-Bonds Are Irregular.

NEW YORK, Feb. t-Operations in stocks fell to the point of stagnation today. There was a light demand during the carly part of the day, centering in a few stocks and coming from only a few brokerage houses, which have been active sellers for the last few days, supposedly on the short side of the market.

The slight effect on prices produced by the developments which were regarded as unfavorable recently prompted the bears to cover their short contracts. There was at the same time a cessation of the acute weakness in special stocks, which have proved disquieting recently, and also of the reports current to explain this weakness and the alleged troublesome features regarding the Hances of the companies. No more was heard of the intended receivership for the Rock Island and the securities of that company enjoyed a substantial recovery. There was not much in the news of the day to afford positive grounds for a rise in prices. The reopening of the repair and car shops of the New York Central and Pennsylvania received much attention, and the heavy decrease shown did not depress the stock, principally because rumors had been in circulation that it would be far more than it proved. The & per cent decline in the net return, compared with December of last year, was sufficiently formidable, especially in view of the large additions to charges on new securities in the interval. The discrepancy is almost wholly due to falling off in gross earnings and the constant increase in operating cost, which has been a feature of railroad finances for a long time roat has been overcome at last falling off in gross earnings and the constant increase in operating cost, which has been a feature of raliroad finances for a long time past, has been overcome at last and a decrease, although a nominal one, effected. On the lines of the Pennsylvania company operated west of Pittsburg this tendency is more marked, quite half the decrease in gross earnings having been offset by the cut in operating expenses. Similar tendencies are looked for in raliroad earnings as a whole in view of the extensive economies put in practice throughout the raliroad world since the slump in traffic. The determination to maintain prices in the steel trade, however, is expected to have some effect on railroad economics owing to the large part played by the consumptive requirements of the raliroads in that trade.

tive requirements of the railroads in that trade.

The suggestion has been made that until the railroads find themselves in funds again by the revival of the demand for securities, a reducing of prices of equipment material would be found ineffective to stimulate demand, and that a reduction, therefore, may be postponed rather than avoided. Statistics of the American Railway association on idle cars in the United States and Canada on January 2 placed the number at 385,315, or 15 per bent of the total equipment. The inference is that some \$,660 locomotives are also idle and that the valuation of property thus earning no revenue may be computed at hundreds no revenue may be computed at hundreds of millions of dollars. Another source of embarrassment to net economies planner, by the railroads is the large cost of more of millions of dollars. Another source of embarrassment to net economies planned by the railroads is the large cost of moving empty cars, which is prompted by the heavy penalties attached to retaining cars of other companies which were put in force at the time of car famines resulting from the crush in traffic.

The falling off in activity of bonds was as marked as in stocks. The tone was irregular. Total sales, par value, \$2,485,090. United States bonds were unchanged on call.
