Does the mortgage worry you?

What's the use of trying to own a farm where land is so high if you have got to have a mortgage hanging over your head to worry you and to keep you poor paying the interest on it?

Why not sell out and go to the Southwest where you can own a big farm without a mortgage? Good rich land is so cheap in the Southwest that you can buy a farm without having to mortgage it. This land is rapidly increasing in value - so much so, that in a few short years it will command as high a price as your present highpriced mortgaged farm and you will own it all without a cent of debt

You can buy a good farm in the Southwest at a small fraction of the cost of land in your state. On this land you can grow 30 bushels of wheat, 50 bushels of corn or 90 bushels of oats to the acre. You will have good markets and will get top-notch prices for all you raise. You will have good schools and churches, a healthful climate, and you will prosper.

Now is the time to move to the Southwest - a year later it The low rate excursions via the Rock Island-Frisco Lines on the first and third Tuesdays of each month, offer you an opportunity to see the Southwest at very little cost. Take this opportunity to get away from the cold for a few days, and enjoy the delightful weather the Southwestern farmer is having.

Let me send you some interesting literature about the Southwest, to read these long evenings. Our books about Missouri, Kansas, Arkansas, and Okiahoma are full of photographs and reliable information—the very information a man thinking of settling in one of these atates ought to have.
