### NEW BONDS OR CUT PAVING

Redeem Part of Issue and Vote Others at Special Election.

### ONLY WAY, SAYS CITY ENGINEER

Unless This is Done He Asserts Paving Will Come to a Standstill—\$25,000 Available for Bond Redemption.

Twenty-five thousand dollars is today available for taking up of sewer or paving bonds due May 1, 1936, thereby allowing the voting of additional bonds in that amount and making it possible to continue paving work as planned by the city council. The books of the city comptroller show this amount.

The city charter limits the indebtedness of the city to \$2,500,000, apportioned to the several funds. This limitation was reached on sewer and paving, or intersection, bonds by the voting of the \$250,000 issue at the last election. According to the charter no more bonds for these funds can be voted until the debt in these funds is reduced below the limitations set. Two sets of bonds mature next May, and unless a portion of these can be taken up and a new issue voted at a special election, paving work this year will come practically to a standstill. In the opinion of Andrew Rosewater, city engineer.

The bonds which will mature in May, are twenty-year \$100,000 sewer and twenty-year \$100,000 paving. In the sinking fund today there is the sum of \$250,000, so which can be added the amount of \$250,000 being collected, making a total of \$500,000 in the fund. Last year the interest on all bonds was \$28,885, this year the interest will be practically \$10,000 larger, in the opinion of City Comptroller Lebeck, or \$28,885 to be paid on interest. This amount must be subtracted from the sinking fund together with \$25,000 city hall bonds which the city has been ordered to pay, leaving the balance of practically \$250,000 which is all that is today available for the possible taking up of sewer or intersection bonds.

Some of the funds for the last year have not been closed as yet, but upon the payment of all obligations on these funds the
