Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Feb. 10.—Sharp declines in wheat prices at the principal foreign grain centers and a siump in stocks had a weakening effect today on the local wheat market, the May delivery closing at a net loss of %4.5c. Corn was a shade lower. Oats were down %c. Provisions closed 55.7% to 10c lower.

The wheat market opened weak on quite general profit-taking, which was based on cellines in European markets and on the beagist character of the weekly statistics. World's slipments were more than 500,000 bushels in excess of what had been estimated, and the amount on passage increased \$312,000 bushels. There was a mild raily during the first hour, due to coverraily during the first hour due to coverned about the midme ... day and sen-

raily during the first how due to covering by shorts, but the market agan weakened about the midue of the year of the measure of the midue of the session. The heavy tone of the New York stock market had a depressing influence late in the day. The close was weak. May opened how to lower at 95½0 90½c, advanced to 97½c and then declined to 95½c, ob bushels. The visible supply increased 435,000 bushels. Primary receipts were 645,000 bushels, compared with 659,000 bushels the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of £1 cars, against 63 cars last week and 431 a year ago.

Corn prices advanced about to early in the day, because of active covering by shorts, who were actuated by a forecast of unsettled weather and by reports of damage by drought in the corn crop in Argentine. The market, however, lost all of the gain in the last half of the session and closed easy. The break in wheat, the poor shipping demand and predictions of a more liberal movement were the weakening influences. May opened ½6½c lower at 61½c61½ to 61½c. Local receipts were 356 cars, with one car of contract grade.

Oats were weak almost all day on selling by cash houses. Demand for cash oats was very slack, and numerous reports indicated an increase in the movement. May opened ½6½c lower at 51½c61½ to 51½c. The close was at 55½c. Local receipts were 153 cars.

Provisions were weak under considerable selling pressure from local packers early in the day, because of snormous receipts of live hogs. The run in Chicago reached tha record-breaking figures of \$0,000 head. Prices made some recovery during the last half of the sesion, owing to buying by shorts, but the market closed easy. The final quotations on May pork were 7½c610c lower at \$11.95. Lard was down 5674c at \$5.505.

The estimated receipts for tomorrow are: Wheat, 28 cars; corn, 305 cars; oats, 22

pression of hostile influences on the side of politics was heightened by the official recommendations for greater rigor in the collection of stock transfer and franchise taxes in New York. Declining railroad earnings brought into question further dividend disbursement.

The shrinkage in profits also adds to the importance of the large financing which presses upon many corporations for settlement. The Journal of Commerce presents an exhaustive analysis of such needs to be met between now and July 1, which shows refunding to be provided for nealy \$80,000,000 of short time notes, for upwards of \$72,000,000 maturing bond issues and for \$7,000,000 of installments payable on accruing stock subscriptions. This is exclusive of the \$50,000,000 of New York City bonds to be sold on Friday of this week which would present a total of \$280,000,000.

The principal sufferers in the day's losses were stocks which have been favorite mediums for a previous speculation for a rise. Some of the day's declines outside of these will be found moderate. Bonds were weak. Total saies, par value, \$2,000,000. United States 2s registered advanced 1/2 per cent on call.

were comparatively small and largely for this reason prices were fairly well sustained. In fact on all desirable fleshy steers as well as the best yearlings, the tone to the market was somewhat better than toward the close of last week. The volume of business was rather small, but the tone to the market was unquestionably stronger.

Hoppisch Saturday.

Herrisand while they took the good heavy grades readily they could hardly be induced to look at the thin, light and under weight loads and these sold lower than for several weeks. Tops today brought \$1.25, as against \$1.40 on Saturday, and the bulk of the trading was at \$4.00 pt.15, as against \$1.00 pt.15. business was rather small, but the tone to the market was unquestionably strenger.
