Haven't you noticed that this is now the first question asked in buying or renting? It is because it has come to be recognized as most important. A cottage, house, mansion, flat, office, or store which is Steam or Hot-Water heated with

will, as a rule, bring 10 per cent to 15 per cent higher rental, or if property is offered for sale the owners get back their full cost, as these outfits do not depreciate from use. IDEAL Boilers and AMERICAN Radiators will last as long as the building shall stand, and never need repairs.

All fire surfaces of IDEAL Boilers are at such pitch or angle that they are practically self-cleaning. Note that a deposit of % inch of soct, requires 50% more fuel than when

High winds cannot arrest nor chilling frost offset their ample flow of warmth. The health of the occupants is protected; and every nook and corner of the building is made comfortable for dwellers or workers.

You can burn cheapest soft coal or screenings, gas-house coke, wood, natural gas, or oil-any cheapest fuel-and produce more heat at less cost than by any other method. No other feature of a building saves so much—or equals it as a safe investment.

Prices in January, February, and March usually rule the lowest of the year. In these dull winter months you get the best workmanship-the quickest, most skillful fitters! Put your property in right heating condition-ready for best living, renting, or selling.

All parts are fitted at the shops and are therefore quickly put into OLD buildings, farm or city-in mid-winter-without disturbing occupants. Write us, describing kind of building you wish to heat. DEATH OF CHARLES W. PIERCE One of Otoe County's Earliest Pioneers Passes Away-Funeral

Today.

NEBRASKA CITY, Feb. 11 .- (Special,)-County Surveyor Charles W. Pierce, the ploneer in this portion of the country, died Sunday morning at his rooms in the B. & M. house. He had been in poor health, gradually growing weaker, and a few weeks ago was attacked with bronchial troubles, which developed into what to called "old folk's pneumonia," which was the cause of his death.

The funeral was held this afternoon from the residence of his sister-in-law, Mrs. Richard Shannon, and the pallbearers were from among the county officials.

The history of Mr. Pierce is inseparably connected with that of Nebraska City-one cannot be written without the other. Mr. Pierce was born in New York City, February 21, 1828, where he attended the public schools and at the age of 15 commenced the study of civil engineering. In 1849 he went to Dubuque, Ia., and engaged with a party of surveyors, and later wen to Kanesville, now Council Bluffs, and in 1550-1-2 was in charge of a ferryboat at Bellevue, Neb. In 1852 he located at Sidney. Ia., and in 1854 he came to Nebraska, being employed to plat the city of Nebraska City. Charles W. Coles came with him and was the first merchant here. In July, 1854, a postoffice was established here and Mr. Pierce appointed postmaster. At that time thre was no mail service here and the residents would hire a man to go to Sidney and get the mail once or twice a week. In 1855 Mr. Pierce resigned as the survey by the government, a posttion he held until 1856. He was United States surveyor for seven years. In 1854 he took the census of the northern half of the territory, and during the second session of the territorial legislature he was sergeant-at-arms of the council. He served many terms as county surveyor of Otoe county and was city engineer at the time of his death. He was married to Miss. Tally, but she died in 1855, and he never married again. March 27, 1855, he was admitted to the practice of law in the territory but he never followed that profession. He was a man of wonderful memory, and could give facts and figures concerning the early days in a manner that was sur-

GAGE COUNTY FARMERS MEET Large Attendance at Institute and Good Program.

BEATRICE, Neb., Feb. 11,-(Special.)-The Gage County Farmers' institute opened for a session of two days at the courthouse vesterday morning, the attendance being quite large. The meeting was called to order by A. H. Kidd, and after a piano duet by Ruth Nickell and Loie Moore, J. L. Rhodes spoke from his practical experience on "Modern Conveniences in the Farm House." He gave the farmers some ound, sensible advice and instruction. "Cream Production" was ex-Governor

Poynter's subject. He argued for intensive farming, instead of extensive. The dairy is too often run as a side issue of the farm, and is neglected. Farmers must learn that it pays to give cows the attention that will produce butter fat. An excellent free lunch was served at noon. The subject of pork production was handled by N. E. Leonard at the afternoon session, and in the evening Prof. Card gave a talk upon the farm home. In the absence of Governor Sheldon, J. J. Ryder, deputy commissioner of statistics of the state, gave an interesting address upon the work of the bureau in which he is directly interested.
