The sentimental effect of the prominent stocks which led the advance was considerable, owing to the large speculative following always found in those stocks, and the inclination of operators in other stocks to act in accordance with the movement of the leaders. Thus, with St. Paul, Union Pacific, the two Hill stocks and Reading moving strongly upwards, the buils had a formidable influence enlisted on their side. New York Mining Stocks.

NEW YORK, Feb. 14.—Closing quotations in mining stocks were:

LONDON, Peb. 14—Money continued in good demand today. The professional traders are holding off for a time. The prices of British shares showed little change today. Foreigners were inclined to drop. Copper shares were easy, with the metal, and Grand Trunk declined on realigations, although the dividend reached expectations. American shares were off color. The early trading reflected the easy Wall street close of yesterday, and in spite of the good dividend announcements sellers predominated during the greater part of the session. Later they sold Atchison. Topeka & Banta Fe, but supported Thien Pacific and Southern Pacific, and after moderate fluctuations the market closed irregular. PARIS. Feb. 14.—Prices on the Bourse to-day opened heavy, but strengthened at the close.

OMAHA, Feb. 14.—Bank clearings for today were 11,462,255.21 and for the corre-spending date last year 11,616,961.25.

As compared with the close of inst week today were all of 10015c higher, and the general tone to the market at the close is healthy and strong.

Not ever twestly loads of cows and helfers were included among the fresh arrivals, and it did not take dealers long to get down to business and clean them up at prices that were fully sleady with yesterday, and in some cases a shade stronger. The demand has been broad all week and the butlet betief than for some time back, indicating that buyers are after a cheap class of beeves. The common and canning grades have met with more favor of late, but the most of the 10015c advance has been on the fair to pretty good strift. Yeal and feeders today, largely for the reason that there was nothing of any consequence on sale. The demand has exceeded the supply all week and prices show an advance of fully 15025c, as compared with a week ago. The volume of business for the week has been small, but a good clearance has been made.
