

SCHOOL AND COLLEGE WORK

Restoration of Corporal Punishment in New York Schools.

HIGHER EDUCATION FOR WOMEN

Smith's President Pleads for Less Exact Entrance Requirements

Activities of Various Colleges.

The question of restoring corporal punishment in the public schools of Greater New York has been put up to the Board of Education by a favorable report of a committee of the board.

During the greater part of the last year New York teachers have been discussing the advisability of applying the rod or ruler to refractory pupils.

This committee is of the opinion that corporal punishment should be permitted in our schools in extreme cases only under strict regulations, and that it should be administered by the principal with the written consent of the parents or else by a parent in the presence of the principal.

Where parents refuse to give their consent or refuse to sign a statement in the presence of the principal we believe that the principal should at once report such child to the city superintendent for suspension, and when suspended the child should be sent to a truant school or a school for incorrigibles.

This committee believes that the knowledge on the part of the pupils that there is punishment provided for persistent disorderly conduct will to a great degree prevent the necessity for its use.

This committee also recommends that the board of superintendents be requested to recommend to the Board of Education a revision of the course of study in ethics so as to place more emphasis on the respect due from children to parents, teachers and others in authority.

The framing of suitable rules and regulations for the administering of corporal punishment is to be left to the committee on bylaws and legislation and the committee on elementary schools jointly.

The special committee which was appointed last September comprised Nathan S. Jones, Dr. Dennis J. McDonald and George A. Vandenhoff.

The present requirements induce hurried and superficial work in preparation, they protract unduly the period of pupilage and they have made a higher education more expensive and thereby less accessible except to the wealthier classes.

As most of the able men come from the poorer classes, it would be both a public and a private calamity if it should become harder for poor boys and girls of ability to gain the mental culture they desire.

The present requirements induce hurried and superficial work in preparation, they protract unduly the period of pupilage and they have made a higher education more expensive and thereby less accessible except to the wealthier classes.

THE PREVAILING REQUIREMENTS OF NEW ENGLAND COLLEGES, WHICH HAVE SINCE BEEN FULFILLED.

The Lillian Louise Terrell memorial organ in Herick chapel is about ready for use.

The organ recital at its dedication will probably be given about February 18 or 19.

Miss Sheldon, formerly principal of the school of music, who has been largely instrumental in securing the organ for the college, will be the principal performer at this recital.

At the recent annual meeting of the Omaha Creche the report of the president, Mrs. T. L. Kimball, and the treasurer, Mrs. Arthur D. Brandeis, were submitted for the year, 1907.

The report of the treasurer shows a substantial balance on the right side of the ledger for the year and both reports indicate the Creche to be on a most substantial and encouraging basis and that it is constantly growing in usefulness.

Mrs. Kimball, in her report as president, says: "A happy New Year to you all, my dear friends, give you merely a summary of what I received from the excellent monthly reports of our secretary, Mrs. McKeon."

Our expenses for the Creche are twice what they were a few years ago and the number of children, under the same, but this is not surprising, in view of the fact that labor and the necessities of life have increased.

PLACE ON CIVIC FEDERATION

Victor Rosewater Appointed a Member of the Advisory Council.

Acting on Principle

Acting on Principle

An invitation to serve as a member of the advisory council of the National Civic Federation has been accepted by Victor Rosewater of The Bee.

The invitation comes from Hon. Seth Lee, the new president of the federation, who was also president of Columbia university when Mr. Rosewater graduated from that institution.

He explains the purpose of the advisory council to be "to affiliate with the federation a body of representative men in different parts of the country, who may be called upon to aid in its work."

Omega Oil

SORE THROAT—When a child complains of sore throat, rub the throat at once with Omega Oil. Then put more of the Oil on flannel, and bind around the throat. It won't burn or blister the skin.

Don't Try Uncertain Recipes. It is entirely unnecessary to experiment with this, and all the other recipes. Why waste time, money and nerves when you can get from your grocer, for 10 cents, a package of "DR-PIE" Preparation—Lemon, Chocolate or Vanilla—of making pies that are so good that when you eat one piece you will want another. The way to please the men-folks is to give them good pie.

Food for Nerves. Weak and nervous men who find their power to do work and to resist fatigue as a result of overwork, or of any other cause, should take the GRAPE NEURINE FOOD PILLS. They will make you eat and sleep and be a man again.
