**WAR ON THE LOAN SHARKS**  
 Business Men Anxious to See Them Put Out of Business.

**PARASITES ON THE PEOPLE**  
 E. E. Brande Advocates United Action and Law by Next Legislature to Stop These Unlawful Outrages.

The salary loan shark, like some of his brethren in chateaux, is a parasite. He produces nothing unless it be trouble for those with whom he deals. He lives on and multiplies the misfortunes of others. He accomplishes no good. His business is outside of the law and should be either entirely suppressed or put under legal control with the business of the pawnbroker, and a complete record of his daily transactions be open and subject to police inspection.

This is an extract from a letter addressed to The Bee by E. E. Brande, manager of the National Lead Company, 1415-17 Dodge street, reference to the outrages perpetrated upon unfortunate persons who happen to get into their clutches by the loan sharks or body snatchers of Omaha. The letter reflects the determined sentiment that has crystallized against this class of individuals since The Bee took up the case of Mrs. A. H. Hoffman, the washerwoman, who paid "interest" of \$5.00 on a loan of \$1.00 without touching a cent of the money. Some of the most prominent business men of the city, in addition to Mr. Brande, have signified a determination to put entirely out of business these individuals.

The head of one of the big stores has proffered his assistance in putting an end to the illegal operations of these so-called "body snatchers." An executive official of one of the railroads has expressed a willingness to help.

**Start Strong Movement.**  
 Mr. Brande says:  
 OMAHA, Feb. 25.—To the Editor of The Bee: The experience of a poor washerwoman with a check book that has just been made public in the columns of The Bee through the good work of the National Lead Company, has been sufficient to start a strong movement toward the suppression of the loan sharks who prey upon the weak and ignorant. This classed loan business is bad enough, but, in my opinion, it does not carry with it the stigma of a crime of outlawry. This classed loan business is bad enough, but, in my opinion, it does not carry with it the stigma of a crime of outlawry. **The General Demand**  
 of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price 75 cents per bottle.

**LINCOLN WILL HAVE TO BEG**  
 Salt Creek Must Ask Aid of Omaha or Suffer.

**NEEDS HELP OF LOCAL SHIPPERS**  
 Without Commission May Order Distance Tariff, Cutting Lincoln Out of the North Platte Territory.

After fighting Omaha in numerous suits involving alleged petty advantages before the Interstate Commerce commission, the Lincoln Commercial club and wholesale interests of the capital city, will be compelled to ask aid of the Omaha shippers to prevent the commission from ordering a distance tariff, which would bar Lincoln from North Platte territory and cut the differentials which Lincoln has enjoyed in the South Platte territory.

The railroad commission has called a hearing for March 24 to consider what plan of rate making is best for the interests of the state. It is claimed that the state as a whole will reap much benefit from the promulgation of a schedule of flat rate, maximum and minimum distance tariffs, similar to those in effect in Iowa.

While such distance tariffs will hurt Omaha to some extent, railroad officials and shippers say that the net gain to Lincoln of the map as a wholesale center.

It is not known yet what the Omaha Commercial club will do. Commissioner J. M. Guild is noncommittal. The transportation committee of the Grain Exchange met Tuesday, but Chairman E. B. Bruce and the others would not discuss the action which the Grain exchange will take. The prediction is made that the Omaha shippers will oppose a distance tariff, unless the carriers are allowed to make a schedule of rates to jobbing and distributing centers, lower than the schedule of rates obtaining between nonjobbing and nondistributing centers.

**Lincoln Now Has Best of It.**  
 At present Lincoln shippers have a distinct advantage of a differential of 5 cents on first-class and 4 cents on fourth-class merchandise to points on the Northwestern, Black Hills line. The rate will hinge on the distance from Lincoln to Fremont and the distance from Omaha to Fremont, when the distance tariff is effective. According to the Iowa tariff the rate from Omaha to Fremont will be 18 1/2 cents on first class and 16 cents on fourth class merchandise. The rate from Lincoln to Fremont will be 13 cents on first class and 10 cents on fourth class merchandise. Rates will be in favor of Omaha to all stations on the Black Hills line.

Another instance where Lincoln will lose unless the shippers of the capital city secure the assistance of Omaha, is shown in the case of Central City, which under the distance tariff would be the point which would govern almost all the rates north of the river. As Lincoln now has a rate to Central City some 4 or 5 cents lower than the rate in Omaha, under the distance tariff it will be cut down to something like 2 cents. In the south Platte territory on the Burlington, Lincoln has a rate of 5 cents on first class and 4 cents on fourth class, better than Omaha. The distance tariff will cut down the differential a cent or two and leave Lincoln in worse condition than it is at present, with its limited business.

Business men are much agitated over the call of the railroad commission, which is the most sweeping proposition ever attempted by a state railroad commission. The hearing will embrace everything from a discussion of the advisability of promulgating the distance tariff to a correction of minimum weights and the readjustment and correction of classification in the state.

**VERDICT FOR THE WIDOW**  
 Four Hundred Dollars Awarded Mrs. August Erickson for Death of Husband.

Finding that August Erickson, a South Omaha watchman, came to his death by accidental means, a jury in county court Wednesday returned a verdict for \$400 in favor of his widow, Mrs. Josephine Erickson, and against the Continental Casualty company. Erickson's death was shrouded with mystery. He was found lying on the floor of a warehouse with a bump on the back of his head on the morning of July 4. Mrs. Erickson sued the defendant company on a policy which provided she should get \$400 in case of her husband's death by accident.

The company fought the suit, asserting death was not due to accident, but to chronic gastritis and hepatitis, arterial sclerosis, chronic endo-carditis with vegetation of the valves, splenic degeneration, endarteritis, cystic degeneration of the kidneys, urethral obstruction and compensatory hypertrophy of the right kidney. The doctors who testified disassembled as to whether death was due to accident or the list of diseases the insurance company said he had, but the jury found it was by accident and awarded Mrs. Erickson the amount of the policy.

**Nearly all our little ills come through inactive bowels. Those days that you lose because you don't feel right—Cascarets will save them all.**

In the old days, physic was dreadful—calomel, castor oil, salts or cathartics.

And they were worse than they seemed, for they irritated the stomach and bowels.

They acted much as pepper acts in the nostrils. They flooded the bowels with fluids.

But those fluids were digestive juices. And a waste today means a lack tomorrow.

You secured relief, but you were actually worse off than without it.

It's different with Cascarets.

Their effect is the same as that of laxative foods, or of exercise. They stimulate the bowels to natural action.

No griping, no irritation. They act as a bowel tonic.

The old way, too, was to take large doses of physic. People waited until the bowels were clogged.

The new way is to take one Cascaret when you need it. Carry the box in your pocket or purse.

Ward off the troubles instantly.

The modern plan is to keep at your best. The old way wasted too many good hours.

Cascarets are sandy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and
