-Helping the blacksmith-

Electric blowers make work in the blacksmith shop a pleasure instead of drudgery. Besides this, they save nine-tenths of the time used by the old method. The electric blower is designed to operate on any lighting circuit and will furnish a blast while the workmen is doing something else. In an ordinary shop, the cost would not exceed over one cent per hour.

Your chance to get a desirable small room

We have at this time three particularly desirable small offices, one 8x15 feet, which rents for \$10.00; another, 12x15, renting for \$12.00 on the sixth floor; another slightly larger office, with a vault, on the fourth floor, 14x18, which rents for \$18.00 per month. There are many advantages of having an office in

THE BEE BUILDING

No building in Omaha is so well known, or so widely advertised, as this building. Every one, who has ever been in Omaha, knows where it is. If you have an office in The Bee Building, you know that you are in good company, because undesirable tenants are not accepted. The elevator service and the janitor service are, at least, just a little better than you will find in any other building. For office space apply to

Room 105 R. W. BAKER, Supt. Bee Building.

ENAMEL FILLINGS Just Like the TOOTH

A durable substitute for gold or silver that does not show. If your teeth are missing we can fill the space without plates or bridge-work by our Alveolar System of Dentistry. Loose teeth made solid.

A GOOD TIME

May be expected if you purchase one of our clocks. We sell only the reliable kind—a good Mantel Clock \$6, \$8, \$6.75, \$8.00 and \$9.00—fully warranted. Spend a few minutes in our store. Look for name.
