LAND PROBLEM IN POLAND
Passage of Expropriation Bill Rouses German Land Owners.
SOCIALISTS GROWING EXULTANT
Principle Endorsed May Eventually Mean Reprisals Upon Aristocrats of Empire—New Grouping of Lords.
BERLIN, Feb. 28.—Few legislative measures of recent years have excited such deep interest among the people as the Polish expropriation bill, the principle of which was ratified in the Prussian House of Lords yesterday, nor has any measure produced such sharp antagonism in the highest circles of German society.
The measure now returns to the chamber, which is expected to accept the slight changes made by the House of Lords without encountering serious difficulty.
It was noticed yesterday in the House of Lords as a striking circumstance that a number of persons having the closest relations with Emperor William voted against the government. These included Duke Ernest Gunther Schleswig-Holstein, the emperor's brother-in-law; Prince zu Puerastenberg, who holds one of the highest positions in the emperor's household; the duke of Trachenberg; Prince Hatzfeldt, chief of the royal cellars; Herr von Wedel-Piesdorf, who was at one time minister of the royal house; Admiral von Hollmann, ex-minister of marine; Count Thiele-Winkler, one of his majesty's favorites among

the great industrial magnates of Germany, and General Count Haeseler, who has been the recipient of many marks of special favor from the emperor.
Members Desert Crown.
The votes yesterday showed irregular groupings. The strength of the opposition was with the great aristocratic land holders, who rejected the principle of expropriation because it might prove a dangerous precedent later should the socialists come to power. One of the great landlords even expressed apprehension lest the radicals, if they ever secured the upper hand, would use the present bill as a warrant for dispossessing the German owners of large estates.
Conservative speakers yesterday taunted the government with passing a measure that can give utterance only to aristocrats, inasmuch as it is based on the socialistic principle of the supremacy of the state over the rights of private property.
It was remarked also that the speeches of the ministry were uttered in a tame and apologetic tone. Chancellor von Buelow's address was especially regarded as unusually flat. He failed to hold the attention of the house and throughout the four day he wore an expression of seriousness, evidently sharing the current opinion that the government would lose the measure. After the vote, however, his whole demeanor changed and his face beamed with undisguised delight.

golden wedding at his home in this city yesterday evening in the presence of about eighty invited guests, all intimate friends and fellow-pioneers of the venerable couple. The guests were entertained at supper, and later in the evening were served coffee and cake. A fine serenade was given by the First Regiment band. During the evening addresses were made reminiscent of old times by Judge Paul Anderson, who pioneered with the Ebsons, first in emigrating from Denmark forty years ago, and later in Howard county, and by Hon. F. M. Hannibal of Dannebrog and T. Hornmanson of Kearney. Rev. J. Chr. Pedersen, the pastor of the honored couple, who acted as toastmaster, closed with the pretty tribute to their charter.

because of illness, causing continuance until the next term.
Schmeltzer is charged with being the father of the infant child of his 14-year-old niece, Gladys Sampson. Schmeltzer is an old resident of the county and close to 80 years of age.
The case of the state against Bob Siedler, who is charged with giving intoxicating liquor to Mike Levell at Clark's, was dismissed on the motion of the county attorney, and the case against M. W. Gregory, who was charged with adultery, was continued over to the next term of court.
During the session of court A. F. Baird and W. H. Critch acted as bailiffs. There being a vacancy on the Board of Insanity Dr. Earl E. Boyd was appointed to fill it.

S.S.S. RIDS THE SYSTEM OF CATARRH Even in its early stages Catarrh is a most distressing ailment, caused by the stuffy feeling in the head, ringing noises in the ears, watery eyes, difficult breathing, continual "hawking and spitting," etc., but when the blood becomes thoroughly saturated with the impurities which produce the disease it becomes a serious and often dangerous disorder. Then the bronchial tubes are attacked, the bladder and kidneys diseased, and often the lungs become affected by the constant passage of impure blood through them and Catarrh terminates in Consumption. The impurities and poisons in the blood which produce Catarrh can never be removed through the use of sprays, inhalations, washes, etc. Such treatment cannot reach the real cause, and their use alone should never be depended on to cure the disease. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter. It goes down and attacks the disease at its head, in the circulation, and removes every trace of the impurity that is causing the trouble. Then as rich, purified blood is carried to all parts of the system the symptoms gradually leave, the health is improved, and S. S. S. makes a permanent cure of the trouble. Special book on Catarrh and any medical advice desired sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
