TIMELY REAL ESTATE GOSSIP

Iowans Are Flocking to Nebraska for Farm Lands.

CANADA PLAN

Teal Estate Man Tells How Dominion Authorities Deal with Problem of Hemoving Snow and Weeds.

Nebraska's population is to grow at the expense of Iowa, according to Omaha dealers in farm lands, while Nebraska is giving up none of its citizens to populate the new lands of the west. branka has new lands sufficient to acmmodate all those who come west look ing for homes," said Thomas Brennan, financial agent for several easiern insurmense amounts of money on Nebrasac "Durings the last weeks of Feb ruary the applications for farm loans have passed all previous records," continued Mr. Brennan. "These applications for loans only signify that the men who rented farms a year ago are getting into a position to buy them this year. It is surprising how many renters are buying farms, some of them paying cash but many taking loans and paying the interest rather than the rent. While Iowa is a good old state, it is a matter of record that many farmers are leaving the lands which they sell to their neighbors for \$100 to \$150 per acre and moving to cheaper lands in the west or sending their sons to larger places. Nebrasan is losing few and I believe that two come to take the place of every one who move.

"We who are looking toward making Omaha a mare beautiful city and a place where people will come to live can take a few lessons from Canada," said Henry F. Daily, who is interested in Canadian 'Agents in Omaha have no way of getting some property owners to pay for improvements, and even in the matter of shoveling the snow from the sidewalks in front of vacant lots we are handleapped. As summer approaches the agents are to face the weed question Patterson says his committee is making weeds are not cut within a given time interest in America if possible. the weed wardens out them and charge the cost to the land just the same as taxes. This method of collecting costs by the members of the Real Estate exfrom the owner for necessary improve-ments would relieve the agents of a lot of grief. When they are given a lot to and ashes, in accordance with the express-Salve; the health department of Omaha is rendered antiseptic by Buckien's Arnica is in what is called the complimentary de-salve; the health department of Omaha is rendered antiseptic by Buckien's Arnica is in what is called the complimentary de-salve; the health department of Omaha is rendered antiseptic by Buckien's Arnica is in what is called the complimentary de-salve; the health department of Omaha is rendered antiseptic by Buckien's Arnica is in what is called the complimentary de-salve; the health department of Omaha is rendered antiseptic by Buckien's Arnica is in what is called the complimentary desell on commission there is no reason sion of Health Officer Connell before the piles, eczems and salt rheum. Flats of various plans will cover the lots and otherwise improved by the new owner Ernest Sweet closed a deal Saturday with J. H. Millard for the lots, which are 200x175 Texas. The Texas lands will be among paying \$30,000 for them. Mr. Sweet will begin the erection of three flat buildings containing four apartments each, at once The buildings will cost \$34,000. Besides the flats which Mr. Sweet will erect himself which dealers declare to be evidence that others to whom he will sell lots will erecsimilar buildings, which will cover the entire lots, with fine pressed brick build ings. As soon as the deal was closed with tie priced city property, though the sale Mr. Millard buyers were ready to take six of high priced lots is not unusual, the of the lots from the new owner, and four of them were sold to out-of-town investors. Involving, as it does, \$20,000 for the lots, \$24,000 for the buildings which Mr. Sweet will erect and at least as much more for residences planned by others who will build men as about \$75,000. This is by far the

Mr. Sweet has just returned from Cuba He did not go there to buy, but would have the lists of trackage property. He has I avested if things had looked good. But selected before the prospective buyer left rooms, to rent for from \$27.50 to \$30 per true that wallpaper does not make the

Insurance Companies Enjoin Missouri Officials from Barring Them Out of State.

KANSAS CITY, Feb. 28.-Judge Slover in he circuit court here today issued a temporary injunction restraining the Missouri state officials from ousting from this state the Prudential Life Insurance company of New York, the Metropolitan of New York and the Equitable Life Assurance society The state officials had previously notified

would be ousted from doing further business in Missourt because they paid some excess of that amount, which is in violation of the law passed by the last legisla-

BLEAK WINTER IS FOILED

of Bonfires.

GOOD TASTE IN WALL PAPER

Denler Declares Proper Selection of Wall Trimmings is as Important in House as Good Clothes Are to Man.

Though bleak winter was considerably n evidence and made itself felt every day with a temperature which was below the temperature at which mortar can be suc essfully laid, the busy home bullders were not entirely deterred from their labors With so much work on hand they felt they ould not afford to lie idle merely because the thermometer was in a state of hyper porean frigity. The forces of winter wer foiled, as the melodramatist would say, and he hero was no other than fire. At : number of places where building is it progress, where the excavation had been sunk through the thick crust of frozen ground or where the carpenters had done all they could, pending further operations of the masons, mortar was made and brick and stone laid when the thermometer was far below the freezing point. Fires were this year, the deal is considered by realty kept going all night heating sand and by the time the masons went to work in the morning the mortar was ready, as hot as mush fresh from the put.

"People have yet to learn the art of wallpaper decoration," said a dealer who supseen compelled to refer such prospective he returned to Omaha and bought \$20,000 piles many Omaha homes. "The wallworth of city property. The flats which he | paper is the outward and visible sign of hand, with the result that the search has will build are being designed by himself, the interior of the house. It is what been long and thresome for some of the They will be the result of searching several clothes are to a man. It is true that American cities, and contain five and six 'clothes do not make the man' and no less month, with all the conveniences of the \$60 house. But as a human paragon may look like a reprobate if dressed in poor clothes, The deal involves the extension of Dewey so a house of the finest construction, with avenue, and Mr. Sweet will pave the ther-oughfare through his property. firm foundations, best of walls and finest carpentry will look like a dowdy, cheap thing if attention is not given and proper Real Estate exchange within the next two OBJECT TO STATE'S ACTION taste exercised in the selection of wallpaper and the placing of the proper paper in the proper rooms.

"North rooms are sometimes papered with white, green or blue shades of paper which are colors suited only to light and warm rooms. The north rooms, yellow, pink, red, the warm colors, are best, and for a room with plenty of natural light blues and greens should be selected. Green, however, must be used with care. In vegetation the sun's rays are a necessity for making chloryl, the substance that gives grass its green color. But in wallthese companies that on March 1 they paper the sun speedily extracts the green color and fades the paper.

"Nowadays, and right here in Omaha, beautiful and nearly exclusive designs of paper can be secured at a price which puts them in the reach of every home owner. Here, for example, is a design which will give individuality to any room and reflect see, which fit into each other. Here is a white background covered with a trellis-

work. The trelliswork is bare, but in the Mortar Laid in Cold Weather by Heat usually put close to windows and doors or

fireplaces. "Stripes running perpendicularly to the floor in the paper give the room a higher appearance, while the ceiling design run down a foot or two along the walls tends to

nake a high ceiling appear lower."

On Twentieth street just north of Cass rtreet, where five handsome flats are being erected, great progress was made, the foundations being run up, the first floor aid, and windows and doors set. The flats will be in the latest style, high class. n every respect. The front will be of the ron-colored vitrifled pressed brick, a brick hat wears, has a solid and dignified apsearance, a color that does not hurt the yes and does not show dirt.

W. R. McFarland of George & Co. has eccived his plans for the new home which ie is about to build in Kountze Place on othrop street, between Nineteenth and I'wentieth streets. The house is to be on

with vines and grapes. The two fit to the gable type, with a broad slant and gether and the grape-loaded trellis is slanting toward the street. In each end will be colonial windows and in the roof itself two dormer windows. In front will be a broad porch supported by massive pillars. The whole will be built of frame.

Hastings & Heyden are having plans

drawn for a brick flat, to be built this spring on Twenty-sixth avenue, just north of St. Mary's avenue. The flat is to be of the St. Louis type, but is to be a still more radical step in the diretion taken by that type of apartment house structure. The St. Louis flat has a porch in front downstairs only. The flat to be built by Hastings & Heyden will have a porch both on the first and the second floors. The porch will be of ample depth and will extend across the enof dark brown.

Those people who associate "brown stone and costs.

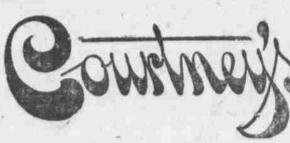

Y 180 MIL 180

the colonial style, having eight rooms and | fronts" with their ideas of elegance in complimentary design the trellis is loaded a fine reception hall. The roof will be of homes can now be accommodated by the cement men. Brown stone as well as common stone is now being made. The secret is merely to mix roasted exide of iron with the sand and cement and the brown color is produced so faithfully that it is "just as good" as the real Vermont quarry article. The proportion to be used is six pounds of the oxide to 100 pounds of cement-sand mixture.

> DORA HAS NEW JOB AS BOSS Buffum is Forelady of Washing and Ironing at Police Station.

Dora Buffum strode before the police judge Saturday morning with a smile on her ebony courterance. She cheerfully admitted that she had been drunk. Dora, tire front of the flat. The interior will be while in her cups, had taken possession of built and finished in the best style, every- a room at Fifteenth street and Capitol thing being of hardwood finish. The front avenue and offered to hold it against all will be of light gray brick with a trimming comers. She will be manager of washing and ironing in the police matron's department until she has served out a fine of \$1
