BIG FIRE LOSS IN TAMPA

Three Hundred and Eight Buildings Destroyed, Damage \$600,000.

FIFTY-FIVE ACRES BURNED OVER

Fire is Fanned by Strong Wind and Work of Department in Badly Hindered by Weak Water Pressure.

TAMPA, Fla., March 2-The entire extreme northern section of this city was destroyed by fire, which broke out in a boarding house yesterday and raged uninterruptedly for three or four hours. The area burned covered fifty-five acres or eighteen and one-half city blocks and 380 buildings were destroyed, with a total loss estimated at \$600,000, and one woman is dead from excitement.

The burned section included four large and one small factory and numerous restaurants, saloons and boarding houses and over 200 dwellings occupied by cigarmakers. The factories burned were:

M. Stachelberg & Co., loss \$100,000; M. Perez & Co., loss \$60,000; Gonzales, Fisher & Co., loss \$49,000; Esberg, Gunst & Co., branch of Stachelberg, loss \$40,000; Fernandez & Co., loss \$20,000.

All factories carried large stocks of to bacco and cigars. The area swept by fire embraced all that portion of the city between Twelfth and Michigan avenue and Sixteenth and Twentieth streets. It originated in the boarding house of Antonio Diag. 1714 Twelfth avenue, and, fanned by a strong wind, spread fan-shaped, defying the efforts of the fire department, which was crippled by a very weak water pressure. Occupants of over 200 dwelling houses, 1,250 thrown into a panic, rushed out, attempting to save but little of their belongings. A Cuban woman dropped dead from the shock.

Flames Spread Rapidly.

Fire Chief Savage was overcome by heat and smoke early in the fire, but recovered Citisens volunteered assistance to of the flames was so rapid that little ef- catcher, and Williams, 'pitcher. buildings, other than factories, destroyed were the hotels and cafes of Perez & Castro on the team. and Maximo Caras, six saloons, twelve restaurants and ten boarding houses. The car barns of the Tampa Electric company, containing twenty cars, was endangered, and owing to the destruction to the trolley wires cars could not be moved. The fire finally burned itself out at the extreme northeastern section of the city.

Fully half the people rendered homeless were out of work and their shelter became an immediate problem. St. Joseph's convent was opened to them by the Jesuit fathers and many hundreds went there, while others were accommodated in homes throughout the city. Besides these, thou-

throughout the city. Besides these, thousands of men will be out of work on account of the burning of factories.

The insurance is estimated at not more than half the loss.

The state milita was placed on guard tonight in the burned district to pravent depredations.

Seven Hundred Cars Burned.

NEW YORK, March I.—Two fires that brought out all the fire apparatus in the upper section of the city and raged in lively fashion from midnight until dawn today, burned down the car barns of the New York City Railway company on Second avenue, Harlem, and the paint factory of George W. Grote & Co., only a few blocks distant. There were 750 surface cars burned in the destruction of the barns and

AUTREY SIGNS FOR FIRST

Chicken Will Hold Down Initial Sack for Champions.

PLAYERS REPORT TWENTY-THIRD

Pa Will Open the Senson with Strong Lineup and Go Along with Paster Clip Than Last Year.

Chick Autrey has come to terms with Pa Rourke and will play first base for the Champions this summer. He will start soon on his pilgrimage to Omaha. The walver of all the big league teams was secured by Cincinnati and Pa dickered with Cinci until he moured the chicken for the Omaha team. He has now agreed with Autrey on terms and will switch him from the outfield to first base. Autrey has been making a big hit at first on the San Diego team this winter and is expected to set the eague on fire with his work at first for

The Omaha players are to report it Omaha March 23, for the league season opens April 15, and on April 3 the White Sex will arrive from California for a couple of games. Captain Franck is expected as one of the first arrivals and will take complete charge of the team, not only during practice, but during the season. Pa Rourks has full confidence in the ability of his captain, for it was Captain Franck who piloted the Champions to the fing last year Pa giving up his position on the bench and devoting his time in looking after the well fare of the spectators.

Pa hopes to start the season with strong team, relying on Austin, Franck Graham and Autrey as his infield and King, Belden and Welch at the outfield He hopes to strengthen up his pitching staff from the numerous southpaws he has signed, some of whom he is sure will de liver the goods. Several trades are on the verge of consummation and should they be pulled off according to schedule the fans will see some new faces on the Omahi team at the very outset, players of sufficient ability for the fans to enthuse over

With Other Teams. The Des Moines team will need a new outfielder, a second baseman and a catcher. Andreas being secured by Ducky Holmes for the Sloux City team. It is the announced purpose of the new owner, J. F. Higgins, to infuse some new blood into the former champions, the need of new blood

being recognized. Sandow Mertes is announced as the new manager of the Denver team and the owners say they will try to get some of the 'wood' out of the team, the preponderance of that material in last year's team not being looked upon as a necessity.

Manager Patterson of last year's Oskaoosa of the lowa league will manage the Pueblo team and he hopes to get a better start than did Manager Drill last year. Through the efforts of Frank Selee he has a splendid layout of youngsters with which to start the season. The team under Drill last fall was playing about the best ball in the league, but the poor start had left them so in the rut that they could not recuperate.

Ducky Holmes has been weeding out and trading around until on paper he has one of the best teams in the league at Sioux City. He has Andreas for second and a couple of strongely touted youngsters from the Southern league. Slattery goes to the coast and Hart and Noblit to the Southern league. Weed will be played in the outfield. Of the old team he has but Weed the bard working firemen, but the spread and Granville of the dufield, Sheehan, fectual work could be done. Among the the other men have been retained, but will have to make good before given a position

Guy Green, owner of the Lincoln team, is making few anouncements of what he proposes to do, but it is thought he will have some real contenders together when the cry of "play ball" is heard next month.

Hoppe-Demarest Match. CHICAGO, March 2.—W. Hoppe, chailenger for the 18.1 and 18.2 balk line titles, and Calvin Demarest, national amateur billard champion, will tonight begin an 1.300-point handleap match game here. The contest is attracting considerable attention in this city. Demarest will play the 14.2 style employed in all the amateur crampionship tournaments against Hoppe's 18.1, the latter having arranged the match as a pionship tournaments against Hopes a lot the latter having arranged the match as a preparatory one to an engagement with Schaefer, the champion at the harder stylof balk line game.

Of last year's point winners there are in addition to the captain, Koch and Paber. Greubel and Edwards are also trying for places on the team, and it is probable that Oscar Osthoff, the Milwaukee strong man, who has worn the colors of the Milwaukee Athletic club in a number of contests, will try for a place.

Indoor Base Ball.

Interest in Indoor base ball has again been resuscitated and a class league has been organized, the games being played in the evenings. All of the various classes have entered teams and the games After all is said and done it looks as if Clark Griffith had formed a combination for his Highlanders that will be hard to beat. Chance and Stahl can play first. Niles and Conroy second, Elberfield, Conroy and Ball short; Moriarity, Conroy, Niles, Stahl, Bell, Hemphill and Keeler can all play in the outfield. With batteries to accompany this combine it will be an effective one.

Will begin next week. The various captains selected are: E. A. Palmer, E. H. Whittaker, O. Lupinski, C. B. Paulus, David Gardner, J. K. Matheson and A. D. Whitmore.

Although the number of men that are out for the 'varsity crew is small, Coach Ten Eyek is nevertheless pleased with the work done thus far and expects that will begin next week. The various cap-

the work done thus far and expects that a number will report this week. There are only fifteen men working at the pres-ent time, but many of the 'varsity men have not reported as yet. Captain Wilder is the most experienced oarsman in the candidates, having rowed on the 'varsity four in 1905 and on the eight since that ever been collected, although it was not was a substitute last year.

Some of the Eligibles.

Of the freshmen crew, which won the championship on the Hudson last spring Sumnicht, Kerr, Hickox, Iakisch, Trane and Kaiser are all working regularly on the machines. Dreutzer, who rowed in the Annapolis boat a couple of years ago, will be eligible to row this year. There are about forty candidates for the freshmen boat and Coach Ten Eyck is pleased with the showing that they have made thus far, They are considerably heavier than last year's men, according to figures taken by the coach.

While no official entries have been re ceived for the intercollegiate relay race to be held here March 14, it was unofficially announced that Indiana. Chicago and Illinois would have quartets in the event, These, together with the Badger team, will make practically all the teams that the symnasium can accommodate in the event. Dr. Hutchins, who has taken hold of the track men until the opening of the outdoor season, will hold a tryout Tuesday night to pick the men who will run for the Badgers, Juergens, Steinfert and Byron are doing the best work thus far.

Interest in the intersorority race is at tracting considerable attention for the reason that rival sororities have selected Merrian, the University of Chicago star, who has been attending the short course here, and Meyer, the former Badger runner, who has completed his four years of athletics. These two have met several times and Merrian has also nosed the Badger out of first place.

NEW YORK, March I.—Two fires that brought out all the fire apparatus in the upper section of the city and raged in lively fashion from midnight until dawn today, burned down the car barns of the New York City Railway company on Second avenue, Harlem, and the paint factory of George W. Grote & Co., only a few blocks distant. There were 740 surface cars burned in the destruction of the barns and the loss to the company is estimated at \$2,500,000.  The loss on the paint factory is given as \$125,000. It was the railway people's second serious fire within a year, the former blaze having destroyed the Madison avenue car barns.  The car barns took up the block bounded by First and Second avenues and Ninety-sixth and Ninety-seventh streets, and though torrents of water were poured on the blazing building the fire did not subside until it had levelled the three floors to the ground. The fire started in a paint shop on the second floor.  During the progress of the fire the police ordered scores of families living opposite the barns to leave the tenements. While the apparatus was at the car barn fire two alarms were turned in for a spectacular fire in the paint factory of George W. Grote & Co., occupying a four-story building on One Hundred and Second street. The paints and oils blazed furiously and within a short time the building was in ruins.		that salary. The enormous atmospheric pressure which accompanied it demolished a hotel at the mouth of the Loelschenthal tunnel, killing thirteen persons and injuring fifteen others. The occupants of the hotel, numbering thirty, were surprised while seated at the table by sinister rumblings. Almost immediately two children rushed into the dining room and screamed, "An avalanche, an avalanche!"  There was a rush to escape, but the building, which was of temporary nature, collapsed without warning. Both of the children were killed along with many of those they had sought to save. Among the others was an American engineer named Mervard, who was installing American machinery to be used for tunnelling.
