To Persons Driving Vehicles

At this season of the year street car tracks are apt to be very slippery owing to atmospheric conditions, and it is impossible, therefore, to stop a car as promptly as ordinarily.

REMEMBER that a street car is confined to the track and that the Motorman cannot turn out or stop his car instantly when "cut off" by a vehicle.

Do not rely upon the motorman to save you from the consequences of your own carelessness—he may not be able to do so.
