**To Persons Driving Vehicles**

At this season of the year street car tracks are apt to be very slippery owing to atmospheric conditions, and it is impossible, therefore, to stop a car as promptly as ordinarily.

REMEMBER that a street car is confined to the track and that the Motorman cannot turn out or stop his car instantly when "cut off" by a vehicle.

Do not rely upon the motorman to save you from the consequences of your own carelessness—he may not be able to do so.

**Gold, Silver & Nickel Plating**  
ALSO BRASS AND BRONZE

The Electro Plating Process is the only one now in vogue that has stood the test. It is used by all the successful plating plants in the country. It has a scientific significance which makes it the only practical method. We replate anything made of metal, from tea spoons to a safety deposit vault.

Louis Slavin, the proprietor, is an expert electro plater, and all work goes through his hands.

There has been no change of management or location.
