If your office should burn tonight

Did you ever stop to think what would happen if your office should burn tonight? You would, probably, be out of business for weeks if not months and the loss of your papers and records would be inestimable. The only safe insurance is to have an office in a fire-proof building like

THE BEE BUILDING

This building is not only thoroughly fire-proof, but the fire hazard is less than in any other building in Omaha. It contains no combustible stocks of goods and there is no building within 200 feet that is not likewise fire-proof. Don't wait until spring to move, or you may have no selection of offices from which to choose. We have three or four vacant which are particularly desirable. For office space apply to
