

FRANKLIN

How Much Motor-ing?

For How Much Money?

Type D Touring Car, \$2,850. That's the Question.

No heavy motor car justifies its running expense. The light-weight Franklins give you equal or better service for less money. They have all the power you can use; and it is always at the rear wheels. They are handsome, roomy, absolutely strong; more comfortable than any steel-frame motor car. They get the most out of the fuel; cut your tire bills in half, and—having no water system to freeze—are ready for business every day in the year.

Will Exhibit All Models at the Automobile Show. GUY L. SMITH, 310 S. 19th St., Omaha, Nebraska.

Omaha Automobile Show

FAST PACE SET BY BOWLERS

Bicyclists High in Commercial League Pennant Race.

With but one week to go and a few postponed games yet to be played the teams in the Commercial league are hustling under the wire at a whirlwind pace. The Bicycle team has held the lead all the way and has the pennant won by a wide margin. Second place lies between the Clarks and Byrne-Hammers, who have been changing places with great regularity of late. Fourth place is safely in possession of the Falstaffs, while fifth place is awaiting for the Gold Tops and Postoffice to decide who wants it the most. The five remaining teams will probably finish about as they now stand.

Some good individual work was done last week, Enell getting a three-game total of 77, Dudley 62, Keet 61 and Rompke 67.

A two-man event will in all probability be pulled off after the regular schedule is finished.

Standing of the teams in the Commercial league for the week ended March 13.

Played	Won	Lost	Pct.	Pins.
Omaha Bicycles	72	28	.714	65,299
W. G. Clarks	72	30	.706	65,309

Reed	164	Bengton	163
Greisdorf	163	Shuler	162
G. O. Francisco	162	Changstrom	161

Schedule for the coming week:

Sunday—Metz Bros. vs. Benos.

Tuesday—Gate Citys vs. Storr Blues.

Thursday—Metz Bros. vs. Indians.

Friday—Onimods vs. Omahas.

NEW SNARL IN THE GOLF RULES

Royal and American Golf Club is Responsible This Time.

NEW YORK, March 14.—When the rules committee of the Royal and Ancient Golf club of St. Andrews contradicts itself there can be little surprise over the state of uncertainty at present existing among the golfers in this country regarding the rules. In 1905 Alan L. Reid, captain of the Chicago Golf club, wrote to Captain Burn of the Scottish rules committee, asking if a four-ball match could compete in a medal play competition. Following is a letter mailed to Captain Burn, which explains itself:

In 1905 I placed before your honorable committee the following inquiry and requested a decision thereon: Under definite rule 1 (a) may a four-ball match compete in a medal play competition?

Your decision was "No." Since the receipt of your valued decision our club members have been governed entirely thereby. We are now confronted by a decision of your committee, recently published, which has placed us in somewhat of a quandary, leaving us uncertain just what is the proper play regarding the form of competition above mentioned.

The decision referred to is as follows: Query—In a club competition three members played a four-ball match. The cards were correctly marked. One of these members won the competition and was disqualified by the committee because it has never been the custom to permit three balls to be played in a competition. The member was a member of the club, and there is no local rule on the subject. The committee based their decision on the facts (a) that they have always disqualified competitors under similar circumstances; (b) that there is difficulty in obtaining a scorer. Was it right to disqualify the winner?

Answer—As there is no rule on the subject the players cannot be disqualified. The practice of playing three-ball matches in stroke competition, is undesirable on account of the delay involved.

As three-ball and four-ball matches are governed by the same rules, and the decisions above quoted appear to be diametrically opposite to each other, I beg to request that your committee will inform me, at your convenience, which of these two decisions should govern our competitors.

KELLER EAGER FOR A MATCH

Next Bit of a Briton Would Like to Fight Someone.

NEW YORK, March 14.—Sammy Keller is a smart bit of a Briton who has been in the country for the last ten months and has attracted a great deal of attention by the cleverness and gameness he has displayed. Sammy is a Londoner, having been born in the great city twenty-one years ago. He has been engaged in boxing about three years, and is willing to meet any man in the game at 120 pounds.

Keller has a long list of victories in England to his credit, but he has not been on them for his standing in this country. He has performed here in a manner to win the good opinion of the Queensberry experts. He has won six-round bouts from such good little men as Babe Cullen, Jimmy Moran, Phil McGovern, Willie Jones and Griff Jones, and has given a good account of himself every time he has started. Keller furnishes additional proof of the superiority of the little men in England over the big fellows. The heavier boxers in that country seem to be absolutely useless, being devoid of knowledge of the science of boxing, activity or gameness.

But the little Britons are decidedly up-to-date in all particulars. From Billy Plimmer and Pedlar Palmer to Owen Moran, Joe Bowker and Jim Driscoll, the little chaps are all of the first rank, and able to hold their own with any in the world. It is a mystery why the big fellows do not learn something about the game, but it is a fact that Charley Mitchell is the only heavy-weight of class that England possessed since the days of Jim Meade.

O.S.S. A HARMLESS VEGETABLE REMEDY CURES BLOOD POISON

Not only its proven ability to cure, but its absolute safety as a remedy has made S. S. S. the most generally used of all medicines for the treatment of Contagious Blood Poison. Unlike the strong mineral medicines, which cover up the outward signs and shut the disease up in the system, there to carry on its deadly work upon the delicate and vital organs, S. S. S. strikes directly at the source, and by purifying the blood of the last mite of virus, completely and satisfactorily cures the trouble.

Contagious Blood Poison is a most insidious and destructive disease. Its virus entering the healthiest circulation will soon change the blood to a poison-steeped and infectious fluid, which stamps its pollution on every part of the body. The mouth and throat ulcerate, the hair begins to come out, copper-colored spots appear on the skin, the glands in the groin swell, and as the blood becomes more thoroughly impregnated with the poison, sores and ulcers break out on the flesh and the bones become diseased. So in a case where the virus has been allowed to run unchecked in the blood, the patient finds himself diseased from head to foot with this loathsome disorder.

S. S. S. is made entirely of roots and herbs of the forests and fields. It does not contain a particle of mercury or potash or any other harmful mineral to injure the delicate parts of the system, impair the digestion, corrode and irritate the lining of the stomach, or in any other way injure the health. It is Nature's blood purifier, harmless in its action and certain in its good results. S. S. S. removes the poison from the circulation, enriches the blood, and safely and permanently cures Contagious Blood Poison. It builds up and strengthens the system by its fine tonic effects and leaves the patient not only cured of the disease, but also in possession of glowing, robust health. If you are suffering with Contagious Blood Poison, S. S. S. is your most certain reliance; an honest medicine, and because of its vegetable purity, a safe remedy for persons of any age or condition. We have a special home treatment book which explains fully the different stages of the disease, and suggestions that will be helpful to you in the treatment of your case. We will be glad to send this book free of charge, and our physicians will also give you any special medical advice or direction free, if you will write us. S. S. S. for sale at all drug stores.

S. S. S. CURED HIM.

I first knew of my Blood Poison six years ago, and I was treated for two years by blood specialists, who treated me with no good results, so I gave them up and started to use S. S. S. When I commenced its use I was covered with sores and eruptions and was very weak and run-down. Today I am myself again and my skin as clear as a baby's. I know it made a positive cure for me of Blood Poison in the very worst form, and I am making it my business to have my friends use it as I did, and already two of them are having wonderful results in the way of a cure. They are troubled with the same disease I had, and I know it will do for them what it did for me. I am today a living testimonial of the efficacy of S. S. S. in cases of advanced Blood Poison.

Hoping you will keep up your good work I will close wishing you success.

Yours truly,
HARRY BARRETT,
424 West North Ave., Chicago, Ill.

GAME WITH WABASH CERTAIN

(Continued from Page One.)

King Cole, coach of the Cornhusker team, represented Nebraska at the Ann Arbor meeting and presented the offer of the Cornhusker management. He says Nebraska's chances of getting the game are very good and he believes it can be landed if nothing new develops. Coach Cole is a pupil of "Hurry-Up" Yost, coach of the Wolverines, and it is expected he will be able to do a great deal in arranging for Nebraska to meet Michigan on the gridiron next fall. The two schools have played only one game during the history of the game at Nebraska. They met in Ann Arbor in November, 1905, and Nebraska was badly defeated by the score of 36 to 6. In the first half of this contest the Cornhuskers held the Wolverines to a nothing to nothing score and outplayed them. Several times they worked the ball down to the ten-yard line of their opponents, but were prevented from scoring by fumbles. In the second half the Wolverines braced and ran over the Cornhuskers. If a Michigan-Nebraska game is arranged for this fall it will be played in Nebraska, at either Lincoln or Omaha.

At the university this week will be centered in two events. Saturday evening the Nebraska girls' basketball team will meet the five representing Minnesota university in a game at the armory. The contest is expected to be close, with the chances for victory favoring the Cornhusker girls. The last time the two teams met the Nebraska girls won the game. On the same day the girls play basketball Nebraska will have a track team entered in the handicap meet at Kansas City. Dr. Clapp, coach of the Cornhuskers, will watch this meet closely to get a line on the strength of the Missouri valley athletes.

ONE SIZE FOR AUTO PARTS

(Continued from Page One.)

been attained and the standard of thermal efficiency of the motor maintained.

Most Economical for Commercial Use. E. R. Hewitt, who has been experimenting with alcohol for commercial purposes, gave some interesting data on the results of his work. Mr. Hewitt adapted an engine to the use of alcohol for a five-ton truck. On gasoline with a full load four and a half miles on a gallon of gasoline could be had. On using the motor without readjustment only over two miles per gallon of alcohol could be gotten, but on raising the compression from seventy-five to 150 pounds he was able to get over five miles to the gallon of alcohol. He pointed out that it was necessary in this case to place the carburetor as near the engine as possible in order that the mixture would be sent into the cylinder not less than seventy-two degrees. In cold weather he was able to overcome the loss in the vaporization by surrounding the in-take pipes with the water jackets, which kept an even temperature for the vapor un-discharged into the cylinder. It was the consensus of opinion that for commercial work alcohol in the near future would be the most economical fuel to be used.

An interesting lecture on the use of pyrometers for indicating and recording the heat temperature in treating steels was delivered by W. H. Bristol and Charles Engelhart.

Election of Officers.

The session closed with the annual election of officers. This resulted in a unanimous re-election of the present incumbents, which were: A. L. Riker, Locomobile company, chairman; Coker F. Clarkson, secretary; Henry Souther, metallurgist, with H. E. Coffin, Thomas Detroit company, chairman of the test committee.

Those present were: John A. Baumgardner, Autocar; A. H. Manross, Corbin; H. P. Maxim, Electric Vehicle; J. H. Becker, Elmcor; John Wilkinson, Franklin; Charles Lohr, Haynes; E. R. Hewitt, Hewitt; H. G. Farr, Knox; E. F. Russell, Locomobile; Charles R. Grouter, Matheson; V. N. Gunderson, Northern; George B. Dunham, Olds; Allen Loomis, Packard; L. H. Kittredge, Peerless; David Ferguson, Pierce; Robert Jardine, Royal; Alden Sampson, Second Sampson; E. T. Birdsall, Selden; Henry Jess, Stearns; John G. Utz, F. P. Nebraska, Thomas; F. D. Howe, Waltham; C. D. Smith, Winton; Henry Souther, metallurgist; A. L. Riker, chairman; Coker F. Clarkson, secretary.
