trong box can stand Council Bluffs is to be well advertised with pictures of its most important industrial plants, parks and other cauty spots in the annual report of the ity officials about to be published. This method of advertising was suggested by the executive committee of the Commercial minell sitting as a committee of the whole. Those present from the Commercial club were President E. H. Merriam and Members J. G. Wadsworth, Dr. H. B. Jennings, T. G. Green, C. A. Beno, P. C. DeVol and

R. H. Bloomer of the executive committee. After thoroughly discussing the matter the committee on printing and supplies of the city council was instructed to obtain an estimate of the cost of including the advertising matter in the annual report and submit same at a meeting of the two bodies to be held next Tuesday evening in the rooms of the Commercial club.

The question of resurfacing Broadway and Main street by either relaying the present granite blocks or repaving with Galesburg vitrified block on a concrete base was also informally discussed. The consensus of opinion of the executive committee of the Commercial club was that some such move ought to be madet. It was finally decided to have a committee from the two bodies wait upon the abutting property ewners on the two thoroughfares to ascertain their wishes in the matter and also to see if property owners in the territory immediately adjacent to the two streets would bear a portion of the cost of the ashes, no oder, no danger. DOUBT DEATH OF HANLEY

Police Insist He Has Been Seen on the Streets of the City.

BROTHER STARTS INVESTIGATION

Had Life Insurance and Wife Has Been Appointed Administrator for Purpose of Collecting the Same.

After a thorough investigation by the povinced that Chisum Hanley of Helens, Ark., company, 23 South Main street. who was reported to have been drowned while bathing in the Missouri river some distance north of the street railway company's bridge on the afternoon of July 10, did not meet death in the river, but that he is alive and well today. Major Richmond has information which he says is from a reliable source, to the effect that Hanley and his wife were seen together on the streets of that city at late as Wewnesday of this week.

The investigation resulted from a letter received by the police department from Hanley's brother, who resides in Helena, Ark. The brother doubted the story of the drowning and his letter gave his reasons for so doing. The brother asked the police to send him full particulars of the alleged drowning and ascertain, if possible, if anybody was present at the time of the accident besides Frank McKnight, brother-inlaw of Chisum Hanley, er whether Mc Knight alone was present. The brother's letter intimated that if there had been a drowning he feared it was the result of foul play.

Relatives Not Agitated.

The evening of the day on which Hanley was said to have been drowned his brother in-law, Frank McKnight, and Hanley's wife Jack Convey, who was arrested at the request of the authorities in Omala, where he is wanted on a charge of the fit, has refused to go across the river without requisition papers. Fending the securing of the necessary papers, Convey was yesterday sentenced by Judge Snyder to the police station and reported the Robert Rude, the alleged holdup artist, buggy cutside while McKnight went into the explained his connection with the case and was promptly discharged. The report made to the police late Wednesday night that Mr. Jensen, who had accompanied a young woman friend to her home on Ridge street, had been waylaid and attacked while on his way to catch a car for Omaha was greatly exaggerated. The hearing before Judge. The guides and interpreters took her wherever her desire led her and with a taste for travel and adventure she visited many places not usually in the tourists' itinerary. She believes most thoroughly in the advantages of being unincumbered liberty to go where she willed, stay as long as she desired and had no disagreeable experiences anywhere. Her guides took her where they assured her no white person every kind of conveyance from the continental railway cars, the Japanese rickishas, something of interest to tell of each of the thirty-five countries visited and has a large collection of choice pictures, coins, stamps and souvenirs of different kinds. Besides Japan and Corea, she spent several months in India, Burmah, Ceylon, Persia, Egypt was into the interior of Corea.
