

GRAIN AND PRODUCE MARKET

Trade is Extremely Light and So is the Demand.

REPORTS OF RUST IN NORTHWEST

General Indications From Wheat Threshing Are That Crop Will Not Exceed Three-Quarters of Last One.

OMAHA, July 27, 1907.

Trade was extremely light with little demand for grain... Reports from the northwest and general indications so far from wheat threshing returns are at best not more than three-quarters of last year's crop.

The wheat market rallied some with no west prospecting and more rust reports from the northwest.

September wheat opened at 83 1/2 and closed at 85 1/2.

There was a lower on reports of rusted grain in the southwest and rust reports throughout the corn belt.

There was little buying on resting orders on some selling. There was a further advance in the market and the demand was increased at 1/4 and closed at 47 1/2.

On the produce exchange today the market was steady. Receipts from the northwest and general indications so far from wheat threshing returns are at best not more than three-quarters of last year's crop.

NEW YORK STOCKS AND BONDS

Sluggishness of Harriman Pacific a Restraint on Market.

BANK STATEMENT NOT LIKED

Growth in Deposits Offset by Heavy Loan Expansion—Net Changes Small and Close is Irregular.

NEW YORK, July 27.—The sluggishness of the Harriman Pacific, which has been in evidence ever since the intended dividend rate on Southern Pacific was made definitely known, was a continuing restraint on the stock market today.

The complex of the bank statement was not liked, the growth in deposits from the bank in excess of last year's growth was not liked, and the conclusion was strengthened that next week will see a renewed outpour of gold to France.

The demand of the bank of France is not to be considered as a policy of accumulation of gold, but as a policy of expansion of credit.

The complex of the bank statement was not liked, the growth in deposits from the bank in excess of last year's growth was not liked, and the conclusion was strengthened that next week will see a renewed outpour of gold to France.
