Great Commercial Interests Said to Oppose Trouble—Actual Positions of Orientals Not Apparent.

CALCUTTA, Aug. 3.—(Special.)—Fear of the uprising of the natives—the dread specter of the yellow peril, which constantly haunts the ears of the English residents in India, continues to grow daily, it might almost be said hourly—the Madras government is showing considerable energy in dealing with the disorders stirred up by incendiary orators. As a result of the visit of Begun Chandra Pal to Rajahmundry the students in the college there became most refractory. They appeared in school with "Bande Mataram" lockets and when told by Mark Hunter, the principal, to remove them, they left college in a body and subsequently refused to apologize for their conduct. One of the teachers was even assaulted. The presidency magistrates are moving not only against the orators, but against the native newspapers which have long appeared for instance, immunity. The Calcutta police, however, have just issued No. 7 Santal Ram Ghose street and No. 21 Cornwallis street on a search warrant granted by the chief magistrate for questioning them to see any document, paper or article connected with the printing of a periodical called "Bande Mataram." At the former place the police made a discovery. This was that the paper called Jugantar was being printed at this place. On questioning the printer the police learned that the paper had been published from the office for the last month. As there was no declaration, as required by section 5 of the press act, 1882, the forms and sheets of the printed matter were seized. In the course of the search the police found the Swadeshi journal, Navaasakti of Mogran, Jan Gudi of Barisal fame, was also printed here. The police took possession of the documents connected with the printing of this sheet. In the matter of "The Sonar Bangla" the authorities seized the proof sheets, printers bill, press file, etc.

Notice served on newspapers. Commenting on the raid, the Statesman says with regard to the Bande Mataram, whose exceptionally sensational posters had excited much comment:

"Notice has been served upon the proprietors, editor, manager, and printer to the effect that the proceedings would be adopted against them under Section 124, and other sections dealing with seditious publications unless they moderated their tone. Although they had been expecting this action for a considerable time past its actual advent caused a great deal of comment in the newspapers. The most curious conference was held with the directors, the paper being the property of a limited company, after which the manager interviewed the legal advisers of the company in connection with the notice. In the course of a conversation with a member of the staff of the "Bande Mataram" it was stated that other newspapers had been treated in a similar fashion. Further inquiries proved that no action has as yet been taken by the police, but a notice warning under the signature of Mr. Ghai, the chief secretary of the government of Bengal has been served not only on the "Bande Mataram," "Sandhya," "Mitro Bahadur" and "Jugantar." The notice of warning says that the language used by these papers is a direct incentive to violence and lawlessness and that they must express themselves differently or they will be prosecuted. A slightly less offensive tone has been noticeable recently.

Englishmen are pleased. Commenting upon the subject "The Englishman" says:

"It is something to learn that the Bengal government is at last moving in the matter of the seditious news sheets that have done so much mischief, though disapproval will be felt that the blow, which has been delivered is not of a more crushing nature. The most serious papers have been left alone, and it is a question whether the impression may not grow that the government does not feel itself strong enough to deal with those who have most flagrantly and impudently defied the law."

The following may be taken as samples of the literature that is constantly being distributed through the medium of these papers:

"Many wish to know how many firearms have been collected. It is not very difficult to collect arms. A bomb is being prepared of a kind which will revolutionize the modern style of warfare. This bomb is also very cheap and all can carry it about in their hands or pockets.

"People are soundly threatening a Feringhi whenever they are seen across the sea. And here whenever a Feringhi is seen the boys throw brick bats at him as they get the opportunity. And thrashing the European soldier is continuing. To what pass have they come?"

The great commercial interests of India, however, appear to be opposing the agitation—that is if one may dare to venture a guess as to the workings of the Oriental mind. At Allahabad, for instance a meeting of Hindus has passed the following resolutions:

"That we, the zamindars, bankers and merchants of the city and district of Allahabad assembled in this general meeting presided over by Raja Dutt Pershad Singh Bahadur of Mirzanod unanimously respect and condemn the agitation most unbecomingly and rashly stirred up in the provinces of Punjab and Bengal—an agitation which has been the cause of some little anxiety and trouble to our benign government."

Protest of a Native. There is pathos under the quaint letter of Mathu Sudan Saka, a native trader in the Daral district, who, having found the Bengal press closed against his complaints, turns to the English papers and protests as follows:

"We have been selling Manchester cloth for a long time in the town of Barisal and in the big markets of the district. When in 1868 the Swadeshi movement began the

Movements of Ocean Steamships. Table with columns for port, arrived, sailed.

DOES NOT KNOW THE PROGRAM

W. D. Hayward uncertain whether he will take charge of Northwest Strike.

SALT LAKE CITY, Aug. 3.—W. D. Hayward, secretary-treasurer of the Western Federation of Miners, when asked by the Associated Press today as to the truth of reports that he was going to take a hand in the strike now on in the Hibbing and Eveleth (Minn.) range district, said that he had not yet been commissioned to do so, but that he was going back to his desk in Denver and would be subject to any orders for the good of the Western Federation of Miners.

COPPER MOUNTAIN TO BE BORED

Colorado Capitalists Will Build Big Tunnel in Wyoming.

SHOSHONI, Wyo., Aug. 3.—(Special.)—A project is now on foot which, if successfully carried out, will accomplish much for the development of the mining resources of Wyoming. Colorado capitalists, whose names are not yet divulged, are about to drive a big drainage and working tunnel through the Copper Mountain range.

This will not necessitate such an enormous outlay of time or money as might be supposed, as from the head of Dry creek, at which place it is proposed to start the tunnel, through to the head of West Bridge creek, is considerably less than two miles.

A depth of about 3,000 feet will be attained at the deepest point, some of the most promising mines in the district will be drained and an economical method of running some of the largest Copper mountain ore bodies will be assured.

NEED OF FRANCO-RUSSIAN PACT

Recent Events Regarded as Series of Diplomatic Blunders.

FRANCE SHOULD KEEP FRIENDLY

England, Some Declare, Will at Last Be Forced to Side with Russia as Against Oriental Races.

ST. PETERSBURG, Aug. 3.—(Special.)—What of the Franco-Russian alliance? Stands it where it did? These are the interesting questions which are being asked in political circles since the discussion of the possibilities of war between England's ally and Russia's foe—Japan.

The matter of the Franco-Russian alliance has been pushed prominently forward by an article in the Novoye Vremya, amounting to no more than a French article, but not proportionately as strong as it was, Russia would do well to seek another ally. This may seem like a queer criticism from a Muscovite, when the recent war with Japan and its grim consequences are borne in mind. But there is a particular paper happens to be of moderate quality and it is as much in favor of the Franco-Russian alliance as ever. But it frankly admits that there have been errors, and in a city where frankness is not to be expected in the newspaper or out of the newspapers—a city like St. Petersburg—this very frankness is not regarded with satisfaction—at least, not in official circles.

Many Diplomatic Blunders. From these various newspaper and official sources one gathers the following regarding the status of the Franco-Russian alliance: First of all, the attitude of M. Combes and his friends was as little French as could be conceived. The Russian rebuff began. Russia asked nothing of France, and yet it was brutally told it had nothing to expect from it, and when Count Witte returned from Portsmouth, N. H., after the peace conference he spoke his mind as that of many of his fellow countrymen, saying, however, blunder after blunder had followed.

Whereupon M. Bompard was made last year to give advice to M. Lavoisky which could not be taken, whether the French ambassador undertook strange missions of economic control which was wounding the Russian pride, or whether the French, whether certain wishes expressed at St. Petersburg as to the "modalities" of Franco-Russian relations received no satisfaction; whether the French war office reduced to a minimum the military communication that is indispensable between allies, the Russians have derived the impression that they were being neglected.

And though it is true that the Cross of St. Francis, which was the Cross of St. Francis, was practically at an end, M. Loubet had had the excellent idea, promptly approved by the czar, of attaching a French officer to his person, but M. Fallieres did not carry it out, so Germany's adorns in Russia simply accentuated their campaign against France. It is true that the Cross of St. Andrew has lately been conferred on M. Fallieres, but on the other hand the point is made that when coolness exists it is not to be dispelled with decorations.

Copies of the Paris Temps, which have been received here assert that the Novoye Vremya's criticism of the French army was the most unjust, and that the army on its side must still be reckoned as a force and a power. Talks about French loans to Russia are most unreasonable, and the Temps concludes by declaring that the alliance is as necessary to them both as ever, and that it is the fault of man and not things if it does not work well.

Meanwhile there is undoubtedly a feeling throughout the civilized world that after all Russia was of decided value in Asiatic politics, as a sort of great national policeman, and that, brutal though its methods may have been at times, they were the only methods which were capable of holding the technical in check. It has been noted in Corea and the revelation that Japan is disposed to dethrone the reigning family in the Hermit kingdom, and then move first on Manchuria and next on China, and that sooner or later there must be a conflict between the white races and the yellow, with Japan leading the yellow and Russia, by the sheer force of position, leading the white, or at least destined to bear the burden of the attacks of the yellow—all of these things, it is argued here, show that the Franco-Russian alliance is not only a political necessity but that the other nations of the world will be forced to aid Russia in this rough, rude game of survival of the fittest of the nations of earth, and even England, the ancient foe of Russia, it is argued, will be forced to break the Anglo-Japanese alliance and line-up on the side of Russia, or else its Indian possessions, where uprisings are already threatened, will be caught and ruined by the forward movement of the yellow race.

MOTORS CRASH, FIVE KILLED. Car in Criterion Auto Race Collides with Touring Car Near Bordeaux.

BORDEAUX, France, Aug. 3.—Five men were killed and two others mortally wounded in an automobile accident today. One of the cars was competing in the Criterion cup race. It collided, while running at full speed, with a touring car. Among the men killed are the editors of two newspapers. The racing car left Paris this morning. It is said the dust over the road prevented the drivers from seeing the other car.

COLONIAL SCANDAL IN SIGHT

Additional Confidential Information Likely to Be Divulged in Germany.

BERLIN, Aug. 3.—(Special.)—Colonial affairs in Germany really are the order of the day. Not only has the kind been widely discussed in years as the trial of Dr. Peters, General Von Liebert, the Colonial Hotspur, even went so far as to declare in open court at Munich that the findings of the disciplinary tribunal, which two years ago dismissed Dr. Peters from the colonial service was a disgrace to the German people. The fact that Dr. Peters won a libel suit in which the defendant simply repeated the charges brought against him is in flagrant contradiction to the finding of the disciplinary court. As one of the results of the long drawn out litigation growing out of the entire situation at Munich it is threatened that additional confidential documents, which were laid before a very private committee of the cabinet, will be published, so that a very private scandal is in sight.

Oil Company Official's Opinion of Judge Landis' Decision.

SAYS APPEAL WILL BE TAKEN

Amount Fifty Times as Much as Value of Oil Carried.

MAKES CLAIM OF INNOCENCE

Vice President Moffitt Says Finding is Unjust to All Shippers.

PRESIDENT DECLINES TO TALK

At Oyster Bay it is Announced that Mr. Roosevelt Has No Comment to Make on Action of Court.

NEW YORK, Aug. 3.—President James A. Moffitt of the Standard Oil company of Indiana made the following statement today in reference to the judgment by Judge Landis pronounced in Chicago:

The court having pronounced its judgment in the case of the United States against the Standard Oil company of Indiana, the Standard Oil company is not in a position to comment upon the action of the court.

The facts in this case are simple and easily understood. The Standard Oil company of Indiana was convicted of receiving rebates from the Chicago & Alton in the amount of \$29,240,000. The Standard Oil company of Indiana was fined \$29,240,000. The Standard Oil company of Indiana is not in a position to comment upon the action of the court.

NO CLUE TO MANY MURDERS

New York Police Completely Baffled by Crimes Committed in That City.

NEW YORK, Aug. 3.—The remarkable series of crimes in this city in which women and children are the objects of attack, and in which no signs of abating, being yesterday two such attacks, are reported to the police and today one additional case has been brought to public notice, that of a young East side girl, who was attacked by a miscreant while passing through the hallway of the house that held her own home.

Scarcely an arrest of importance has been made and the police confess themselves baffled. Detectives who have studied the different cases differ as to the probable perpetrators. Some incline to the belief that the assaults are the work of one man who has the mad animal instinct of the London and Berlin "Kipper." Others combat this theory and point to the widely separated points at which the crimes occurred and the different methods with which final murder was accomplished. No one can explain, however, why there should be such an epidemic of fiendish crime in this city at this time—a crime the city is generally free from.

The list of victims who have met death in this wave of crime will reach five, three young girls and two women. A score or more have been attacked.

FLOGGING FOR WIFE BEATER. Alderman at Hazleton, Pa., Takes Law Into Own Hands, Woman Applauding.

HAZLETON, Pa., Aug. 3.—Louis Sambolla, accused of wife beating, was publicly flogged by Alderman D. A. McKelvey, before whom he had been brought for a hearing. After the testimony had been given, Alderman McKelvey seized the man by the collar, dragged him to the street, pulled the coat from his back and then handcuffed him to a post.

The crowd cheered his intention and a man took off his belt and gave it to McKelvey. The alderman is young and strong and the flogging was vigorous. After a few strokes Sambolla fell to his knees, crying for mercy, but McKelvey kept it up until he felt that the prisoner had enough. All this time the flogging the wife stood by and seemed to enjoy it.

YUKON FIELDS STILL RICH. Canadian Experts Report that Much Gold Remains in Alaskan Gravel.

OTTAWA, Aug. 3.—The Canadian government has had an examination made of the gold-producing districts of the Yukon to see what amount of gold was still to be obtained from gravel banks hill sides and placer workings. The examination was made by four experts sent a season sampling, surveying, boring and measuring the gravels. They estimate that there is still almost \$4,000,000 gold to be taken from gravels, which has already yielded \$14,000,000. To cover what is still scattered through the soil, advanced methods will have to be used.

BRAKEMEN LEAVE THEIR RUNS. Trainmen on Colorado & Southern Railroad Demand Increase in Wages.

DENVER, Colo., Aug. 3.—In consequence of the failure of the negotiations for an adjustment of the differences between the striking Denver switchmen, who demanded an increase of 2 cents an hour in their wages, the Colorado & Southern railway, Grand Master P. H. Morrissey of the Brotherhood of Railway Trainmen called out all the trainmen on the road who are members of the brotherhood at noon today. These include about 600 brakemen and a few conductors.

VERY CLOSE IN MISSISSIPPI. Williams Leads Governor Vandaman for Senator by Two Thousand Votes.

JACKSON, Miss., Aug. 3.—With one county to hear, John Sharp Williams leads in the race for United States senator by less than 2,000 votes. This county is Jeff Davis, which will break about even. The three candidates leading for governor are Noel, Scott and Brewer. Indications are that the race will be between Noel and Scott.

Extent of the Violation. The court held that the law is violated every time any property is so transported, as the legal rate was established by the railroad company on a car lot basis. The unlawful carrying of the property was effected on that basis. As the defendant claimed that the representations by the Alton road had misled it into the sincere belief that the Alton 6-cent rate had been filed with the Interstate Commerce commission, the court held that as
