## GRAIN AND PRODUCE MARKET

From Basy Opening it Becomes One of Most Sensational.

BLACK RUST REPORTS FEED BULLS

Prices Go Skyward When Rumors of Disease Spreading in South Dakota Come to the Exchange.

The market opened easy, but developed later into one of the most sensational markets for some time. Reports that the black rust is spreading in South Dakets and that the crop is in a critical condition sent prices skyward.

wheat opened easy, with no feature, and commission house trade was divided, and the crowd inclined to wait, but willing to buil. Prices showed a hardening tendency.

frostly in sympathy with coarser grain.

Later in the morning a strong bull movement developed and wheat advanced rapidly. The September option opened at

Sac and closed at 85%c.

Corn opened strong and higher and advanced several fractions. Cooler weather
and continued reports of damage with a
strong feeling that the growing crop is
not advancing as fast as expected has
placed corn in very strong position. September option opened at 48%c and closed

at 48%c.

Oats strong and prices advanced sen-sationally. Reports of light crops, which are showing even lighter than predicted has started a buying fever and prices are heading for corn prices. September outs opened at 42c and closed at 43%c. There was no cables from Liverpool, on account of holiday. Clearances were 101,000 bushels of corn-and 21,000 bushels of outs, and wheat and flour equal to 221,000 bushels.

equal to 227,000 bushels. board reported 136,000 bushels of wheat Local range of options: Articles. Open. | High. | Low. | Close. | Yea'y.

Wheat Corn Oats Minneapolis

Pentures of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 3.—Onts practically menopolized the attitude of traders in the grain pits today and after being active all day closed strong and 2c higher. Wheat was up 8c, chiefly because of reports of cold weather in the northwest. Corn was 14c higher. Provisions were unchanged to be blefter.

5c higher.

The wheat market opened higher occause of lower prices at Minneapolis. Later camereports of colder weather in the northwest and houses with northwestern connections commenced to buy moderately. The huying increased and finally reports of frost in Minneapole and the Delice of the connections. ing increased and finally reports of frost in Minnesota and the Dakotas caused the market to become strong and active. The market closed firm. September wheat offened \$40% lower at \$15,000-10, sold between 91% and \$25% and closed at \$25%, Clearances of wheat and flour wave equal to \$27,000 bu. Primary receipts over \$2000 bu., as against 1,111,000 on the same day last year. Minneapolis, Dubum and a masser reported receipts of \$51 caus, as audited \$11 last week and \$5 one year ago.

The corn market was active and strong for the greater part of the day, chickly befor the greater part of the day, chicity because of the bulge in oats. Cash corn was strong and there was a good demand for all available supplies. The market closed firm. September corn opened at 54% disconside between 54% and 55% disconside and closed at 54% c. Local receipts were 157 cars, with eight of contract grade.

The oats market was exceedingly active throughout the assistent. The high bulls who

The oats market was exceedingly active throughout the session. The big bulls who have been buying for several days were again in the market and in addition there was frantic buying by shorts who were anxious to cover their lines. The bulls sold at times on the bulges, but falled to weaken the market. Country houses which had sold against expected purchases from producers were heavy buyers, many of them having reported the conclusion that more oats have been sold than can be delivered for September. The principal trading was in September, but the May option also showed much strength. The close was strong. September oats opened %51c higher at \$2.20. Reptember oats opened %51c higher at \$2.20. Provisions were full. At the close September pork was unchanged at \$16.45, ribs were 5c higher at \$8.30 and lard was 21c higher at \$9.20.

Estimated receipts for Monday: Wheat \$27,000 head.

Few Room Traders.

ONLY FEW ISSUES DEALT IN Lower Prices Due Partly to Standard Oil Pines and Unfavorable Bank Statement-Bond Market

Remains Dull.

NEW YORK, Aug. 3.—Today's stock market was wholly inconsequential and was an affair of a few room traders, who exchanged eperations amongst themselves. The net result was next to nothins. Only a few stocks were dealt in at all.

The drop of prices was as much due to inantion as to any active cause, although the Standard Oil fines were disturbed and there may have been some attempt in the first hour to discount an unfavorable bank statement which was Ejectric do ptd indicated by the preliminary estimates. unfavorable bank statement which was indicated by the preliminary estimates. The loan expansion also was moderate, so that the decrease in the surplus was limited to \$1.785.475, bringing that item to \$7.473,400, compared with \$14,122,675 on this date last year. The holiday in London and its continuance over Monday was a factor in the extreme duness of the market, which was unrelieved to the closing, when stagnage conditions pre-

the market, which was unrelieved to the closing, when stagmant conditions prevailed. Total sales of bonds, par value, \$212,000.

The securities market has been unresponsive throughout the week to any favorable development, such as the record net sarnings reported by the United States Steel corporation for the quarter ending June 30 and the increase in the Southern Pacific dividend rate from 5 to 6 per cent. The market was held under restraint by the doubtful factors in the outlook. The instability of the price of copper is rumored as confirmatory. The difficulty of securing money resources for any speculative extension, owing to the expanded credit situation, reinforce the disposition to conservatism. disposition to conservatism.

The bond market remains dull. United States bonds were unchanged on call for the week.

1, 12½c per lb.

CALIFORNIA DRIED FRUITS—Prince 21, 12%c per lb.; No. 25, 19c per lb.; No. 21, 12%c per lb.; CALIFORNIA DRIED FRUITS—Prunes are somewhat unsettled by freer offerings from second hands, who seem desirous of moving supplies of immediate grades. Quattons range from 6c to 9c for Califor is fruit and from 5%c to 8c for Grego. Peaches are slightly easier, with fancy yellows quoted at 18%c. Raisins are firm; three-crown loose Muscatels are quoted at 8c; four-crown, 19c; seeded raisins, 9%201c. FISH—Halibut, IIc; trout, 12c; pickereal, 19c; pike, 14c; pike, fresh frozen, 12c; white-fish, 12c; buffalo, 8c; bullheads, skinned and dressed, 12c; catfish, dressed, 17c; yellow perch, 8c; white perch, 7c; white bass, 15c; black bass, 25c; sunfish, 8c; crapples, 62%c; crapples, large, 15c; bluefins, 16c; herring, 7c; herring, fresh frozen, 9c; Chinook saimon, 16c; eels, 18c; whitefish, frozen, 12 615c; pickerel, fresh frozen, 9c; Spanish mackerel, 19c; native mackereal, 186935c per fish; codfish, fresh frozen, 12c; haddock, fresh frozen, 12c; The receipts for the week show very little change as compared with the previous week or a year ago. The market on the other hand has fluctuated back and forth. The week started out with a good stiff advance, and a still higher market on Tuesday carried prices to the highest point touched since the early part of June. On Wednesday and Thursday there were sharp reactions, which wiped out all of the advance and more too. The improvement in prices today leaves the market just about where it was at the close of last week.

SHEEP—The market was absolutely bare of supplies this morning, there being nothing of any consequence on sale. The receipts for the week show a moderate failing off compared with last week, and a heavy falling off compared with a year ag..

The market for the week has been in a very fair condition. Packers have wanted liberal supplies of both sheep and lambs and prevailing prices have been high throughout the week. The very fact that prices have been so high made the traderather slow on some days, huyers apparently feeling that sheep especially were costing too much money, but still they wanted the stuff and they had to pay the prices.

prices.
Lambs have been extremely scarce all the week, still as high as \$7.50 was paid for the top.
Feeder buyers are beginning to drop in Feeder buyers are beginning to drop in and inquiries from the country as to when feeders can be had are increasing. So far receipts of that kind have been very light, but the few arrivals have met with ready sale and prospects would seem to favor the belief that with increased receipts there will be a good business doing.
Quotations on killers: Good to choice lambs, \$7.00\$\tilde{q}\$.50; fair to good to choice lambs, \$7.00\$\tilde{q}\$.50; fair to good to choice yearling wethers, \$5.00\$\tilde{q}\$.60; good to choice wathers. \$5.1565.40; fair to good weekers.

Sloux City, Ia., Aug. 2.—(Special Telegram.)—CATTLE—Receipts, 200 head. Market Steady: beeves, \$5.0066.75; cows and heifers, \$3.0055.40; stockers and feeders, \$2.40 (24.40; calves and yearlings, \$3.00654.0; stockers (2.2563.00).

HOGS—Receipts, 4,000 head. Market strong, selling at \$5.7566.15; bulk of sales, \$5.5065.20. Carrier only one car of cathe was re-ported in the yards this morning. The re-ceipts on inursuay and Friday were ex-trained light, so that there has been hardly choose cattle here since Wednesday to make a morough test of the market, and total arrivals for the week snow s saming off of aimost 5,000 head, with a universe of aimost 4,000 head, as compared

with a year ago.

Incoment receipts of beef cattle this week are apparently the direct result of the sharp oreas in prices last week and at the Stock in Sight. beginning of the present week and at the beginning of the present week. Since Wednesday, under the influence of the extremely light receipts, prices have firmed up somewhat and are at the close just about steady, with the prices prevailing one week ago. This would apply to corn fed beeves | South Omana | 29 | South Omana | 29 | South Omana | 29 | South Omana | 200 | Kansas City | South Omana | 200 | St. Joseph | 41 | St. Louis | 1,500 | Chicago | 200 | 2,000 | Magazine. and range beer as well.

It will be remembered that the market on cows and newers broke very badiy last Total receipts......2.970 27,497

on cows and nesters broke very badly last week, with a tendency still lower during the first two days of the present week. Since a luesday, the low day, receipts have been very much smaller and prices have rapidly recovered, so at the close the market can generally be quoted logible higher than at the close of fast week.

The heavy oreak in stockers and feeders last week was followed by a large number of buying orders from the country this week, which has resulted in a rapid recovery of values. Good heavy or fleshly feeders did not break so very much last week and hence the advance on that kind this week has not been so marked. On the other hand light cattle on the stocker order, which were quoted fully 50c lower last week have been in exceptionally good demand this week, with the result that at the close a good share of last week's dsclipe has been recovered. Even at the advance it has been impossible for complision men to fill all the orders received from country customers. At the close of stockers and feeders of all kinds.

HOGS—Hogs were unevenly higher this morning. Some of the rough and heavy packers did not show very much improvement, while on the other hand some of the good light and butcher hogs looked 5c higher, making the average market quite a little better than yesterday. The bulk of the content of the content has been recovered and the seed of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not show very much improvement, while on the other hand some of the fough and heavy packers did not heave a content of the fough and heavy packers did not

Others.

The layman's confidence in the infallibility of his physician is somewhat shaken by the frank admission of a writer in the Lancet, Sir William R. Gowers, that he is unable to syncope" is the learned name for ordinary loss of consciousness. That is, it is frank admission of a writer in the Lancet, nary loss of consciousness. That is, it is known that failure of the action of the heart precedes and attends the condition commonly called a faint. But it is obvious that consciousness is not the result of the dirculation of the blood. The direct cause of unconsciousness, according to Sir William, must be "a state of the nerve elements of the brain due to the change in the circulation," and on the subject of causes the writer gives us no more information. He does add, however, some interesting observations on the effects of

In the more gradual failure of ordinary syncope the loss of consciousness is rarely so sudden as to cause a hurtful fall (leading ladies will please take notice); the sufferer is generally enabled to lie down. True fainting is attended by a sense of increasing feebleness, often undue consciousness of the heart's action, some

Minor seizures of epilepsy are sometimes feated by sighing breathing, and frequently a sense of nauses. Dimness or less of Minor seizures of epilepsy are sometimes mistaken for fainting fits. A true faint ometimes results from fright, as does an oplieptic seigure. Leslie's Weckly.

> ALCOHOL FOR MOTOR CARS The Vegetable Fluid is Safer, Cleaner and More Available Than Gasoline.

Alcohol is reproduced in the cycle of the seasons; it is absolutely inexhaustible; it is made out of sunshine and air, and its the soil or the energy of the earth. Gasoreadily inflammable, and that it dissolves water is used the more the fire spreads. This fact for alcohol is of extreme imporrespect, could not endure comparison.

cleaner and its ignition more perfect. Perhaps the greatest advantage possessed by alcohol in a struggle with gasoline rests in the higher compressibility of its vapor; the compression of alcohol vapor may safely be carried to 200 pounds per square fuch, while that of gasoline cannot endure more than eighty pounds without the danger of premature explosion. Next, it re-\$3.75 quires no more skill to operate an alcohol engine than a gasoline engine. Finally, it may be expected that alcohol can always be made in the locality of the demand; it will not require, like gasoline, transporta-

Gasoline, on the other hand, is extraordinarily inflammable, and, what is much worse, it floats on water; in a gasoline fire the more the tance in the question of insurance and in its use for motor boats. Still again, with alcohol the smell of the exhaust is almost perceptible; at any rate, gasoline, in this Another advantage for alcohol lies in the fact that cylinders and valves do not become plugged with residual products, as with gasoline, and that its combustion is

tion through extensive distances. With proper manipulation, any engine

working with gasoline or kerosene can operate, unaltered, with alcohol. It can be operated with alcohol only at about twice the cost of gasoline. This is shown in a recent test of fuel economy, in which three automobiles, running on alcohol, a mixture of kerosene and gasoline, and gasoline, respectively, traveled from Trenton, N. J., to Atlantic City, 106.8 niles. While the alcohol engine ran perfectly at a rate of thirty-five miles an hour, it consumed fourteen and one-half gallons of alcohol at 37 cents a gallon, constituting a total cost of \$5.36% as against the performance of its rival, which consumed seven and one-half gallons of gasoline, at 22 cents, with a total cost of \$1.66. The relation of the two is best shown as the cost per ton mile, which for alcohol works out to \$0.0382, and for gasoline

To Make a Muie Behave.

\$0.01354, about half as much.-Harper's

"I wonder if that truck driver knows of any good reason for hitching that mule with the gray horse?" remarked a Georgian as he saw such a team haited at Chambers street and Broadway. "Let's ask him."
The driver only knew that the team was always driven together by order of the stable boss.
"Well," went on the southerner, "since I was a child I've always seemed to know

I was a child I've always seemed to know that mules will follow a gray horse, or hitch with him, where they won't have any truck with a horse of any other color. I've seen the most unruly mules behave properly when in the company of a gray, but I've never heard of a good reason given for the fact."—New York Sun.
