THE GREAT SPECIAL CLOSING SALE OF BEAUTIFUL BLACK ROUBAIX DRESS VOILES TOMORROW, WEDNESDAY

Of greatest importance in buying materials for a voile dress is to make sure of getting the right quality. Right here, in the selection of materials is where the danger lies. Many stores, in order to get a lower price, are willing that a little of the quality be sacrificed. Some little point in the weight or finish which does not show may be skimped. Not so with ROUBAIX DRESS VOILES. We ask the closest inspection. Bring your friends with you. The greatest of care is used in the selection of the yarn and the manufacture of ROUBAIX VOILES - making them one of the handsomest and most luxurious dress fabrics in the world. Note carefully the reductions for tomorrow, WEDNESDAY, the last day. Roubaix, \$1.15 and \$1.25 quality, which have been great favorites for a low priced voile, during this great sale are in a limited quantity at 79c and 89c yard.

Roubaix, \$1.35 and \$1.45 qualityl, this is an opportunity extraordinary. The quality, finish and texture are simply charming. Make it a point to see these special numbers at 98c and \$1.09 yard.

Roubaix, \$2.50 quality, 46-inch, is best described by one of the many comments we heard during this great sale, "Never saw such beautiful dress goods for the money before in my life." The price remains the same the last day, \$1.49 yard.

When it came to a choice between her four children and the big, black bottle behind the pantry door, Mrs. Dougherty, Forty-third and S streets, South Omaha, allowed her mother-love to triumph over her love for the bottle and she took the pledge before Judge Kennedy of the juvenile court Tuesday morning. Mrs. Dougherty promised the court she would quit drinking and the children were allowed to

The four little ones, ranging in age from months to 4 years, were taken away from the home on complaint of a Catholic priest because of the mother's drinking habits. It was asserted by witnesses she woud send the children out in winter barefooted to get her whisky and beer. She has been in the Good Shepherd's home once for the habit, but went back to drinking as soon as she was released. When the court told her she must either guit drinking or lose her children she gave her solemn promise to quit forever.

Several church officials, who were attracted to the case by the action of Judge Sutton in breaking precedent and fixing the date originally for Monday, have interested themselves in the move to have the supreme court change its mandate making the date Friday, August 30. The original sentence of both O'Hearn and Clarke fixed the date for that Friday was the date of Christ's crucifixion and ought not to be desecrated by the hanging of a murderer and that the condemned man would be in a better condition to meet his Maker on the day following Sunday than on any other day in

Bribery and Corruption General-Educational System Was Valueless-Little Opposition is Now Shown.

WASHINGTON, Aug. 6.-The far eastern mails just arrived contained a pamphlet issued from the Japanese residency general of Corea, entitled "Administrative Reforms in Corea." designed to vindicate the works of the Japanese in the hermit kingdom under the authority conferred by the Japanese-Corea agreement of 1904, whereby Japan was constituted advisor to Corea. The document treats of the financial difficulties that confronted Marquis Ito at the outset owing to the inadequacy of the Corean exchequer to bear the cost of reform. He succeeded in raising a loan from the Japanese industrial bank of 10,000,000 yen, guaranteed by the customs bearing interest at 614 per cent and sold at 90 yen per 100 yen. The money realized was distributed in the reconstruction of roads, in educational system and the establisment of banks and the erection of hospitals. It is said that the Corean roads were totally unfit for horse and carriage travel, so that it became necessary to allot, 1,500,000 yen in laying out four great reads to traverse the regions of best promise and connect the best harbors and railway centers.
