

# THE WORLD'S BEST SCHOOLS AND COLLEGES

## St. Mary's The Dame Indiana

### College and Academy For Young Ladies

TWO HOURS FROM CHICAGO  
One Mile from University of Notre Dame

St. Mary's, which on Sept. 10 begins its 53rd year of usefulness, is today one of the best equipped schools in the country, and enjoys an international reputation for giving the best possible mental, moral and physical training to its students. Its location is ideal. If we could bring the thousands of parents who wish to give their daughters the best possible education to the beautiful grounds occupied by St. Mary's, on an eminence overlooking the picturesque St. Joseph River, in the highest and healthiest part of the state; show them the fine, large, airy and safe buildings in the midst of an inspiring scenery, and make them acquainted with our educational methods, they could hardly wish a more ideal spot and finer surroundings or better educational advantages than St. Mary's is offering to all anxious to give their daughters an education that aims at an harmonious moral and intellectual equipment for a life of usefulness.

**Educational Advantages.**  
The aim of St. Mary's is to combine the advantages of old methods tried and proven, with the best that modern thought upon education suggests—the training of the heart as well as the mind—the forming of women who will grace society with their accomplishments as well as honor it with their virtues. With what success this college accomplishes its purpose is in a measure indicated by the erection of new buildings made necessary by the ever-increasing number of students.

**Classical, Literary and Scientific Courses leading to Degrees.**  
Academic Course prepares for College. Certificates recognized by leading universities.

**Main Department for children under 13 years.**  
Conservatory of Music has a national reputation. Harmony, Counterpoint, Composition, and History taught in regular course. Voice culture under the best modern methods.

**Art Course, black and white, water colors, china and oil painting.**  
Physical Culture—A fine gymnasium for physical culture. Annual exhibition of indoor athletics. Amateur theatricals, artistic dancing. Outdoor athletics—archery, tennis, skating, long walks, rowing upon artificial lakes, etc.

**Domestic Science—A thorough and complete course in domestic science.**  
The Buildings—General and department libraries; splendid physical, chemical, botanical, biological and geological laboratories; dark room for photography; two halls for gymnasium with apparatus; infirmary for those needing rest; dormitories and private rooms; sanitary plumbing; general and private lavatories.

**The Buildings—General and department libraries; splendid physical, chemical, botanical, biological and geological laboratories; dark room for photography; two halls for gymnasium with apparatus; infirmary for those needing rest; dormitories and private rooms; sanitary plumbing; general and private lavatories.**

**Parents who have also boys to educate and wish to give them the great advantages of Notre Dame University will be interested to learn that St. Mary's is only one mile west of the University, which enables brothers to visit their sisters.**

**Moderate Cost—The costs are very MODERATE compared with the great advantages of Notre Dame University. St. Mary's, although a Catholic institution, welcomes to its advantages pupils of every denomination.**

Parents are earnestly invited to a personal inspection of the institution and its ideal location and to an examination of its educational methods. Those who cannot do it, or wish to learn details before calling, will be cheerfully supplied with a complete illustrated catalog and further information by addressing

### THE DIRECTRESS,

Box 116  
Conducted by the Sisters of the Holy Cross. School year begins September 10, 1907.

ST. ANGELAS HALL GYMNASIUM

ON THE LAKE

### START CLIMBING

Hundreds of opportunities await those who are willing to grasp them. The demand for climbing men and women who can do things far above the ordinary, is growing rapidly. It is a profitable and pleasant occupation. Thousands of successful graduates will tell you that so.

#### Western Normal College

It is the place to do it, cheaply and thoroughly. Some of the courses are: Normal, (Teachers' Certificate), Scientific, Literary, Classical, French, Spanish, Business, Short-hand, Typing, Book-binding, Music, School, and Summer School. Enter any time! Send for prospectus. Write to the President, J. H. HUBBARD, Box 127, Kansas, Mo.

### American Conservatory

The Leading School of Music and Dramatic Art. TWENTY-SECOND SEASON. Seventy eminent instructors. Unsurpassed course of study. Teachers' Training, Instrumental, Diplomas and Teacher's Certificates. *Unsurpassed Free Advantages.* Thirty free and one hundred partial scholarships awarded annually to talented students. Limited means. Fall term begins September 9, 1907. Catalogue mailed free.

JOHN J. HATTSTADT, President.

### OMAHA STAMMERS' INSTITUTE

Stammering or other Speech Defects cured. Medical references and information about the school furnished upon application.

RANGE BUILDING, OMAHA, NEB.

### The Miss Wolcott School

DENVER, COLORADO  
College Preparatory for Girls  
Special Advantages in Music

### Chicago Conservatory

Established 1850. Walter Perkins, President. Oldest and best school for thorough teaching of MUSIC AND DRAMATIC ART. The school is famous for its high standards of artistic excellence—opera only best and most complete. The school is equipped in every essential respect of Music and Dramatic Art. Located in the best building in Chicago. Second Floor, Auditorium Building, Chicago, Ill.

### Illustrated Music School, 1611 Farnam

Music by Mail  
Less than 10c  
Eight different courses. Investigate them at the store of the Perfield Piano Co., Omaha.

### WILSON COLLEGE FOR WOMEN

In the beautiful Cumberland Valley, Ohio. President, Mrs. A. C. Wilson. Courses in Music, Art, Literature, Science, etc. A most excellent faculty. Campus to acre; 10 buildings; 100 acres; 1000 students. Dr. Frost, 12 College Ave., Chambersburg, Pa.

### Hanson Military Academy

For boys and young men. Good instruction in all branches of the military service. We are patronized by the very best families. A. E. HANSEN, President, FULTON, ILL.

### TODD SEMINARY FOR BOYS

An ideal school for young men. Beautifully situated in the "hill country" of Illinois. One hour from Chicago. 60th year. Send for our prospectus.

ROBERT HILL, Fria, Woodstock, Ill.

### TRADE CONDITIONS IN OMAHA

#### Local Jobbing Concerns Open Houses in Salt Lake City.

#### SHOWS REMARKABLE GROWTH

Increased Orders Reported from the Northwest Since the Great Trade Expansion into that Very Rich Territory.

Omaha's importance as a jobbing market is shown by the recent establishment of branch houses in the west by some of the local concerns. M. E. Smith & Co. have just opened a house at Salt Lake City and a short time ago the Midland Glass and Fetal company opened a branch at the same point.

Most of the houses report increased orders from the northwest since the great trade excursion of the Omaha Commercial club into that territory. Business is being secured from towns which never before patronized Omaha.

Local shoe manufacturing and jobbers report sales as good in all their territory as they were in August of last year and in many localities much better. Manufacturers are deliberate in making contracts for supplies, buying only for immediate needs, and waiting to see if leather will let down. There has been little change in the leather market lately, though hides are on a high plane.

Now new quotations of any moment were made in hardware last week. The call for builders' hardware continued unabated, on account of the general building activity in the west, and it is a matter of constant worry to the jobbers to get goods from the factories that they may make their shipments promptly. On account of the phenomenal high price of raw tin and the heavy call for the manufactured goods, the tin plate market is particularly strong. All kinds of staple hardware are in demand. Only in some special lines can a near advance in price be expected, for all lines are on a high plane.

Early in the week another advance was announced on white goods of 10 to 15 cent a yard. Linens are higher in price than they have been for several seasons. Knit goods are in strong position, many mills are making no effort to push sales and others find they are unable to fill orders already taken. The supply of goods of all kinds turned out by the eastern manufacturers is inadequate to the demand, and many mills are sold up for months in advance. Prices seem to be based on the condition of stocks and the demand for the goods, and seem not to be affected by movement of the cotton market.

The local houses are busy shipping out goods to fill fall orders. Buyers have been on the market in large numbers and have placed liberal orders for fall and spring. The demand for shirts and working clothes is such as to tax the local factories to the limit, and the factory forces have been largely increased. Collections are reported almost.

In sugar a peculiar situation is presented.

Despite the advancing market on raws, the price of refined sugar is lower proportionately than it has been for years. Stocks are also lower than a year ago, and it is a puzzle why the price should continue low. The demand for sugar for the late fruit has not been what was anticipated and the consumption of sugar for preserving has been much less through the whole season than for many years. This is undoubtedly what keeps sugar on a low level. The price is expected to advance in the fall, but it will be 20 to 30 points at one jump.

All grades of roasted Brazil coffee, both in package and in bulk, are 1 to 1 1/2c lower than a year ago.

The Brazilian situation is causing uneasiness in the coffee market. Some large eastern interests look to the present crop of 2,000,000 bags to force the price down and demoralize the markets of the world, and point out the possibility of another bumper production next year. On the other hand, there are heavy interests who say that Brazil's announced policy of carrying its immense coffee holdings for a year, at least, will keep prices up. There is uneasiness over the report that European bankers have refused to take up the new \$15,000,000 loan of the Brazilian government on account of the heavy stocks which the syndicate is carrying. This is denied in some quarters and affirmed in others. Altogether, the outlook is somewhat misty just now.

Evaporated raspberries are higher than they have been for some time. The interest in the dried fruit market is centered in the apple crop. The decision on sulphur has a heavy stamp which the syndicate is carrying. This is denied in some quarters and affirmed in others. Altogether, the outlook is somewhat misty just now.

More shipments of new Chinese and Japan teas have reached this country, and there is no change in prices. An advance of considerable proportions is expected.

A report has been sent out that 40 per cent of the rice crop in western Louisiana and eastern Texas has been destroyed by worms. Whether or not this is a "fake to build" the market has not yet been ascertained by local jobbers. The movement in rice has been very slow and prices are so low they may be expected to continue so for a time.

There is nothing new to report on the salmon situation. It is the same old story, a light pack. Such reports are always common about this time of year, whether or not it is actually true there is a light pack, and the result is a stiffening up of prices. The jobbers advise their customers to be careful in buying salmon and to refuse to believe all they hear about the pack. The jobbers themselves do not know the true situation as yet.

It is reported that the pack of late Maryland tomatoes will be better than was expected. The spot demand for tomatoes is small and the interests centers in futures. There is strength in the corn market.

Patates, Oils and Glass.

There has been little change in the list price of oil situation, with the market strong and prices well maintained. There is also a firm tone in the turpentine market, and buying during the week has been along liberal lines. The glass situation remains unchanged. Prices in the western district remain the same as they have been during the summer months.

There has been increased activity in the drug market. Merchants are placing liberal

orders for fall and winter supplies and for sundries. As to prices, opium has during the week shown a similar perturbation to market and quotations. Quinine still remains at lowest price quoted in years on a basis of 10 cents a pound in 100 pound lots. Harlem oil has slightly increased in price, and vanilla beans have increased, owing to the demand for the oil of the pure food laws have become effective. Collections are good.

Notre Dame University One Mile West.

Parents who have also boys to educate and wish to give them the great advantages of Notre Dame University will be interested to learn that St. Mary's is only one mile west of the University, which enables brothers to visit their sisters.

Moderate Cost—The costs are very MODERATE compared with the great advantages of Notre Dame University. St. Mary's, although a Catholic institution, welcomes to its advantages pupils of every denomination.

Parents are earnestly invited to a personal inspection of the institution and its ideal location and to an examination of its educational methods. Those who cannot do it, or wish to learn details before calling, will be cheerfully supplied with a complete illustrated catalog and further information by addressing

and Mr. Elmsner had no right to have it read in the council meeting.

I fully agree with Mr. Rosewater wherein he states that "the charter specifically provides that the council must approve the report of the city engineer and this gives it full power to act in the premises."

There is nothing in the enclosed letter to indicate that I wish the council to pay the bill or reject it so that I can enforce its collection in court.

If the curb, as I claim, has been completed according to specifications, and is now in a perfect condition and satisfactory to the city engineer, and the council then rejects it, I have no other recourse but to collect by law.

And Mr. Elmsner told my foreman on Tuesday afternoon, while looking over the work, that he could not see anything wrong with it and thought that I should have my pay, and then that same evening he made a motion that the work be not accepted until an investigation was made and that there were a hundred places that needed repairs. After learning these facts, together with his statement to my foreman that I should write the council, I sent him the above letter.

If the council, upon investigation, finds any defects with the curb or myself that I have not found I shall make them good at once.

E. D. VAN COURT.

A Knack on the Uniform.

OMAHA, Aug. 9.—To the Editor of The Bee: The Humane society is a very useful institution and deserves all the credit for the good work it accomplishes. It saves many a dog, cat or horse from abuse and cruelty. And how about the human being? I think a little attention ought to be given humanity to save it from torture, suffering and inhuman treatment. If the humane society would go after the street railroad officials for our fire and police commissioners and their families are compelling the policemen, conductors and motormen to wear the heavy uniform coats in these sweltering, scorching, hot days. A great service would be rendered to the sufferers, and I am sure an everlasting gratitude from the public servants. To look out for the dog, cat and other dumb animals is all right, but a little attention to the human would certainly not be out of place for our humane society if the respective officials do not think of it themselves.

DR. E. HOLOVITCHNER.

Beauty Hints.

When combing the hair take hold of the ends and shake thoroughly with talcum powder; then shake well. This removes the oil and leaves the hair in a fine condition. Don't use the comb on the hair immediately after washing it, for the process ab-

sorbs too much of the natural oil that has been brought out by the shampoo.

Have long, wavy length of natural hair strung on a piece of wovolen net. This is to be pinned across the front of the head and the hair combed in with it. Even if a parting occurs, showing the hair beneath, it does not matter, for it is as pretty as one's own and is so light a structure that there is no harm possible from its wearing.

Grand Army of the Republic.

George A. Custer post No. 7 will hold its next regular meeting Tuesday evening, August 13, in the Bohrlough building. The meetings of this post will hereafter be held at this place.

George Groat post will give its annual picnic at Hansom park Thursday afternoon, August 15. All members of the post and their families are invited to come and bring baskets.

Ladies of the Grand Army.

Garfield circle No. 11 held a largely attended meeting Friday night and considerable business was transacted. It was decided to give the annual picnic of Garfield circle at Krug park Friday afternoon, August 22. Officers of the circle for the regular meeting of the circle on that date has been postponed two weeks.

Gettysburg circle No. 48 will meet in Baright's hall Monday evening, August 12.

SEASONABLE LUNCHEON MENU

Things to Tempt Summer Appetite and How to Serve Them.

Clam Fritters—Cantaloupe. Spanish Salad. Cauliflower a la Francaise. Pineapple Pudding. Russian Tea. Cantaloupe—Place the cantaloupe on ice several hours before serving so that they may be thoroughly chilled. Just before luncheon is announced cut the melons in halves and place on small plates on cracked ice.

Clam Fritters—Chop one dozen clams very fine; season with salt and pepper and a little nutmeg. Add one tablespoonful of flour and a tablespoonful of bread crumbs. Beat one egg lightly and mix with the clams and bread crumbs; to this add a small teaspoonful of baking powder. Drop by spoonfuls into boiling lard and fry a golden brown. Serve with slices of lemon.

Cauliflower a la Francaise—Remove the green leaves and stalk and cut the cauliflower into quarters; place in a steamer in which a tablespoonful of salt has been placed and boil until tender. When done drain off the water, place the cauliflower in a dish and pour over it a half a cup of melted butter in which a tablespoonful of lemon juice has been stirred.

Spanish Salad—Shred a green pepper from which the seeds have been removed;

raise funds for the expenses of the state convention.

When done drain off the water, place the cauliflower in a dish and pour over it a half a cup of melted butter in which a tablespoonful of lemon juice has been stirred.

Spanish Salad—Shred a green pepper from which the seeds have been removed;

peel and slice four tomatoes and arrange the pepper and tomatoes on a platter, green lettuce leaves. Stone and chop fine two dozen olives; mix these through the salad; place on ice to become thoroughly cold. When ready to serve pour over the salad a French dressing to which a few drops of tart juice has been added.

Pineapple Pudding—Beat three eggs separately; to the yolks add one cup of sugar, a teaspoonful of butter, a half a cup of bread crumbs and a can of grated pineapple; stir until thoroughly mixed, then add the beaten whites of eggs and bake in a moderately heated oven until the pudding is solid; serve with whipped cream.

Russian Tea—Prepare tea in the usual way; serve in small tea cups with a slice of lemon and a candied cherry placed in the cups; sugar may be added if desired, but neither milk nor cream should be used; the tea may be served hot or cold.

JIM DIGGS MAKES HIS ESCAPE

Improvises Rope Out of Sheet and Leaves Second Story of City Jail.

Jim Diggs, the colored man who was accused in 1906 of the murder of Frank Wheeler, escaped from the Omaha city jail Saturday early in the afternoon. He was put in the matron's department to work and while alone is supposed to have torn a sheet into a rope and let himself down from the second story window. No trace of him has been found.

He was arrested Tuesday by Detective Devereux and put in jail to serve out an old sentence from which he had escaped by running away from the street gang. Diggs is considered an undesirable citizen by the Omaha authorities and has been arrested as a suspicious character whenever he shows himself in the city. His capture is not considered improbable, as he usually makes his home somewhere in the vicinity of Omaha, and probably will be seen and taken before long.

Shortest Line to Louisa, Ill.

Is the Pennsylvania—34 miles from Chicago. "The Louisville Special" with parlor and cafe library cars and through coaches leaves Chicago daily 10 a. m. and arrives Louisville 7:35 p. m. Night trains leave Chicago 10:35 p. m. with through sleeping cars; also at midnight with sleeping car to Indianapolis and Proctor parlor car to Louisville. Get particulars by writing or calling on Rowland, 25 U. S. Bank Bldg., Omaha.

### SCHOOL SELECTION

We will help you to select a school, by sending you, absolutely free, information regarding any particular school or state of schools: University, College, Schools for Women, Military, Boys, Girls, Business, Professional, Technical, Music, Art, Training or Trade School. Write us, giving full information about your desires.
