You need not answer it, doctor, if you do not wish to, unless the prosecution insists." Without hesitation District Attorney Hency took up Deimas' question and put it to the witness: "Did you accept that money?" "The question is legal and pertinent and most of the offerings changed hands in very fair season in the morning. The develop-ment during the last day or two of a ship-ping demand has given the market a more healthy tone. It will be noted that the ad-vance today was largely on the heavy and medium weight hogs, which have suffered the most decline during the week, whereas the best light hogs have shown very little change at any time. Today's advance makes up for a good share of the week's decline, leaving the general market only about 5630c lower than it was at the close of last week. Representative sales:
