HARRISON FOR SEDGWICK

Otoe County Representative Declares Himself on Judgeship.

JUNKIN RULES ON PRIMARY LAW

Man of One Party Who Votes for Candidate on Another Ticket Cannot Have It Counted for His Choice.

(From a Staff Correspondent.) LINCOLN, Aug. 19.—(Special.)—I have been into York county and I have looked up the record of Chief Justice Sedgwick. Until something is brought forward against him showing that he is not worthy of a second term, I am for him," said Representative Marshall Harrison at the Leland hotel this noon. "So far as I could learn Judge Sedgwick has made a clean, conscientious official, worthy of the confidence of the people. His opinion holding valid the constitutional amendment providing for the State Railway commission, was clear out and to the point. Were Judge Sedgwick a railroad tool, as charged by some of his traducers, he would have shown it then. It is bad for the party that so much mud slinging has been indulged in. I believe Judge Sedgwick will be renominated and elected, for the kind of a campaign that is being waged against him is bound to react in his favor."

Warm Campaign for Judge.

The fight for places on the republican judicial ticket here in Lancaster county has reached such an acute stage that Frank Waters is accused of losing money to the county by being away from his office and not being ready when called upon to perform marriage ceremonies. The last legislature enacted a law putting the marriage ceremony fees into the county treasury. Now that Waters is campaigning and necessarily out of his office a portion of the time, a justice of the peace has had to be called in several times to tie a knot. The justice naturally keeps the fees. The friends of the lawyer-named ticket claim Judge Waters should stay in his office and let them do all the campaigning.

Rolling on Primary Law.

Secretary of State Junkin has received numerous inquiries whether a vote should be counted for a republican who has been voted for in the democratic or some other column, the name being written in by the voter. Mr. Junkin holds this will not count as a republican vote, but may be counted for the party in whose column the name is written—that is, if John Jones is running for a republican nomination and some democrat writes his name on the democratic ticket, the democrat vote will not count for John Jones, republican.

Doctors Fight for Place.

The fight for a place on the board of secretaries of the State Board of Health goes on apace. Lately the name of Dr. Ashby, a Burlington surgeon from Fairmont, has been prominently mentioned for the place. Dr. Bailey's time has expired and there are several applicants for his shoes, including the doctor himself. The board is to meet at the call of the governor.

Loans Stolen.

Ellis borrowed from Mrs. W. T. Irons confessed today to stealing a diamond ring valued at \$150 from her employer. She lost the ring after being accused of the theft and it was found by a policeman and returned to its owner. When the ring was missed Mrs. Irons suspected the girl and went to her house to see about it. Miss Irons had denied knowledge of the ring and agreed to go to the Irons home and help search for it. On the way there she secreted the ring in her belt and it was found. After arriving at the Irons home she confessed to taking the ring and said she had lost it. As she and Mrs. Irons returned to look for it they met a policeman who had found it. The girl is at the police station though no complaint has yet been filed against her.

Big List of Live Stock Entries.

Secretary Mellor of the State Fair board declares that the live stock exhibits at this year's exposition, September 2 to 6, will be the largest ever shown in all departments. Entries made up to the present time are as follows: Draft horses, 175; race horses, 200; cattle, 450; swine, 2,000; sheep, 200.

Enough poultry exhibits have been secured to fill a building sixty-six to 110 feet in size.

There will be twenty-two county collective exhibits, 200 separate manufacturing displays and large departments of educational, mercantile, industrial and art collections. Among the special attractions offered, Secretary Mellor lists these: Fifteen harness races and one derby, with a total of 201 entries; seven running races; exhibitions and race between gelding horses; the air ship; Liberator's grand military band and opera concert company of New York; first regiment military band of Nebraska; Western league championship base ball; amateur athletic meet and county relay races.

The ship scheduled to make daily flights at the state fair will consume three tons of iron filings during the five days.

Every visitor will have an opportunity to see this twentieth century invention at close range on the fair grounds.

J. W. Dewese, Critically Ill.

J. W. Dewese, Burlington attorney here, is in a serious condition at Rochester, Minn., and members of his family have gone to his bedside. The report reached Lincoln that he was suffering with a cancer of the stomach and liver, but so far no operation has been performed. Mr. Dewese has been suffering for some time and about ten days ago went to Minnesota to be examined.

Death from Peculiar Cause.

Peculiar circumstances surround the death of Cadoline Weyant. She expired at 2:30 a. m. Sunday at her home, fifteen miles west of Lincoln.

Some weeks ago she was resting on a lounge in her room, when she tumbled on the floor. In some manner the big toe of her left foot was injured. No particular attention was given the matter at

the time. In fact, the injury did not cause the patient any anxiety until a few days ago.

Blood poisoning set in last week, and the patient grew worse rapidly. Several physicians were in attendance, but were unable to give the elderly woman any aid. The deceased was 72 years of age. She is survived by a husband, W. T. Weyant. Funeral services will be conducted from the family residence tomorrow at 10 a. m.; interment in Wyuka.

Capital City Briefs.

C. B. Anderson of Crest and George Coupland of Elgin, candidates for the republican nomination for regents of the State university, were in Lincoln today meeting some of the voters and calling upon the state officers.

Former State Treasurer Peter Mortenson of Ord was in Lincoln last night and this morning attending to private business. Mortenson said the people out in his county were not talking politics at all, but so far as he is personally concerned he felt very favorable to the candidacy of Judge Reese for supreme judge, though he circulated a petition for Judge Sedgwick.

Inasmuch as the appropriation set apart by the legislature of 1905 for prosecutions under the Junkin act lapses the last day of this month, Attorney General Thompson has requested the payment of vouchers filed for witnesses in the lumber trust case, mileage and court fees. The total amount is \$117.50. Should the state eventually win the suit the lumber association will have to refund the money to the state, but the attorney general thought best to pay this out of the old appropriation rather than out of the new, should the city lose. The vouchers will shortly go to the auditor.

HERMIT DECLARED INSANE

Norfolk Man Who Lived Alone Forty-One Years Sent to Asylum.

NORFOLK, Neb., Aug. 19.—(Special.)—For forty-one years a hermit living alone in a cave on a farm near Norfolk, was reported to be insane. He was taken to the state hospital at Norfolk. The man is wealthy, owning \$40 acres of land. He came from Illinois forty-one years ago and was the first treasurer of Dodge county, Nebraska, of which Fremont is the county seat. He was one of the pioneers at the time of the famous Pawnee outbreak and took part in the battle of Battle Creek, west of Norfolk.

Uncle Johnny

"Uncle Johnny" has of late been wandering among the cattle. He would stray away and remain out in the pasture for three or four days at a time, and would finally be found by his sister, with whom he has been living for a few months, would act bewildered. He would lie in a comatose condition for days and seldom knows anything rational.

VALENTINE, Neb., Aug. 19.—(Special.)—The stock shipping season is at hand and train after train loaded with cattle are going to the Omaha market. Two extra engines are stationed here to help the trains over the big grade east of town. Valentine is the principal shipping point in northwest Nebraska and it will be several weeks before the season is over.

AUBURN—The Auburn chautauqua closed last evening. The crowds in attendance yesterday and last evening were the largest of any time during the week. It is reported that he had been subject to apoplexy, and is supposed to have had a seizure which caused him to fall. The team ran away, which caused the search to be made for Shindler. He was

about 30 years old and had been married one year.

Army Officer Will Sue Wife, Who is Daughter of General John A. Logan.

CHICAGO, Aug. 19.—Lieutenant Colonel William F. Tucker, chief paymaster of the Department of the Lakes, with headquarters at Chicago, is said to be preparing to bring suit for divorce in the courts of Cook county against Mrs. Dolly Logan Tucker, daughter of the late General John A. Logan.

This was the semi-official announcement made by friends of Colonel Tucker yesterday. The suit will be filed, it is believed, within ten days.

The grounds upon which Colonel Tucker will base his suit are a matter of conjecture. Mrs. Tucker's action in bringing charges against her husband to the attention of the War department, which resulted in a rigid investigation of his conduct during his residence in the Philippines, it is believed, may be construed as constituting what is known legally as "crucial and inhuman treatment." If Mrs. Tucker's conduct is so held by a court it will be sufficient grounds for a divorce. The time for the filing of the divorce suit is figured upon the length of Colonel Tucker's present vacation. He has been in Elmhurst visiting his sister, Mrs. Thomas E. Wilder, with whom he said he proposed resting ten days, but he went during in northern Wisconsin two days ago. It is thought his suit will be filed as soon as he returns to the city. Then it will be filed only in the event that the official report of the military court of inquiry which investigated the charges brought by his wife has been made public. An unofficial statement that Colonel Tucker has been exonerated already has been published in the Army and Navy Journal.

According to gossip, Mrs. Tucker possibly may anticipate her husband's action and bring suit for divorce herself. Her friends know her character and the influence upon her mother, Mrs. John A. Logan, whose feeling toward Colonel Tucker is said to be bitter, say she will fight any charges Colonel Tucker may bring. Undoubtedly, they say she will file a cross-bill, setting forth all the charges against her husband which she made to the War department, besides others, which, while not "conduct unbecoming an officer," may furnish technical legal grounds for divorce.

Upon the heels of the announcement that Colonel Tucker would institute divorce proceedings, word came from Washington yesterday that Secretary of War Taft had recently declined to see Mrs. Logan and Mrs. Tucker when they called at his office to challenge the finding of the court of in-

quiry in Colonel Tucker's favor. The two women sat in the reception room of the War department for two hours waiting for an audience.

PAWNEE BILL'S SHOW PLEASURES

Mayor Jim Could Beat Rope Throwing, but Really Truly Indians Were There.

Pawnee Bill's "wild west and great east" show entertained big crowds yesterday afternoon and evening at the circus grounds at Twenty-first and Paul streets. There was lots of riding and lots of shooting and lots of dust, and that seemed to please the people. Every time a dead Indian or a dead Mexican or a dead train robber was dragged out, the multitude sent up loud shouts of applause and their enthusiasm reached its climax when a horse thief was strung up to a pole by a rope fastened to a hook in the back of his shirt.

The riding of the Coosacks, the yelling of the Indians and the dancing of the Cingalese were good, but less could be said for many of the performances. As for the rope throwing, Major Jim could have done better himself. But there were real Indians, and real bronchos, and real entrant wagons, and all these were worth going miles to see.

How Advertisers Are Started Towards Success

The new advertiser who desires to utilize the tremendous power of advertising as a sales force is often at a loss how to proceed. He sees the advertisements of others— attractive, pertinently illustrated, strong, forceful and convincing in text. He needs similar advertisements, designed for his own product, but is in the dark as to how to secure them.

SUCH prospective advertisers should know that Lord & Thomas of Chicago make a business of co-operating with manufacturers or others needing general or mail-order advertising, and are perfectly equipped to prepare and supply everything necessary to carry on an advertising plan.

This concern, Lord & Thomas, employs 160 persons. It is the largest advertising company in America. Lord & Thomas advises with the advertiser, works with him in formulating a plan of advertising consistent with his business, then writes the advertisements, illustrating them, puts them in type, makes plates, takes care of all negotiations with the publisher, pays the publisher, bills the advertiser, and gives the advertiser experienced help at every stage of his advertising campaign.

Lord & Thomas have had signal success in merging advertising and sales departments into a smoothly working unit. This results in the complete utilization of advertising in lining up the retail trade, and in having the entire sales plan progress smoothly. They are so markedly successful in this important respect by reason of their knowledge of trade conditions and their grasp of manufacturers' requirements, in having the advertising plan consistent with the manufacturers' profits, territory, etc.

Lord & Thomas have planned and executed many of the most successful mail-order advertising undertakings. This ripe experience enables their clients to avoid mistakes of copy and media and the shoals of faulty office method. This is a great work in itself, and the expert counsel needed

by the mail-order advertiser is supplied by Lord & Thomas. The fact that Lord & Thomas' operations are so large and that they use space in wholesale quantities in all paying publications and other media—(newspapers, farm papers, magazines, mail-order papers, billboards and street cars) enables them to secure the best prices for the advertiser on the space used. The facilities and knowledge of advertising possessed by Lord & Thomas simplifies the whole detail of publicity materially and assures prompt and permanent success so far as advertising can effect it. A fact important to remember is that it costs no more for the advertiser to deal with this house than to deal with the publisher direct, because the publishers pay Lord & Thomas for making the users of space in their publication successful.
