The Stozzel Stove Co.

New improved hot blast, burns the fire from the side of the tube at the bottom. That the blast can be kept turned on all the time while on the old style the blast must be turned off to keep the stoves from over-heating.

Until December 1st we are going to sell our best 4-hole with high closet steel range for \$15.00 as a business stimulator. We have sold this range in Omaha fifteen times. It has given such supreme satisfaction that we are selling no other kind. It will last from twenty years to a lifetime, and takes so little fuel that it will bake biscuits in three minutes with news papers. It will bake bread with two small ash shovels full of coal. It needs no stove polish. Top will not discolor from heat. Top needs no grease to keep it from rusting like polished top ranges do. It is the nearest made and finest the tube does not blow the fire. The air steel range sold in Omaha.
