

BRIEF CITY NEWS

Have Root print it. John A. Genthron for coroner. Douglas Printing Co., 214-16 S. 15th St. James C. Kinsler has removed his law office to suite 694, Brandeis Bldg. F. A. Kinsler, photographer, removed to Eighteenth and Farnam streets. Full Dress Suits and Prince Alberta, latest styles, at Vollmer's, 107 S. 16th St. Dr. E. A. Foster, dentist, office N. E. Cor. 16th and Douglas, over Fry Shoe Store, B. 1. We always have Rock Springs coal. Central Coal and Coke Co. of Omaha, 15th and Harney. If you are not already a depositor with the City Savings Bank, allow us to suggest that you become one. It will be of assistance to you. There was an error in reading proof on Thompson, Belden & Co.'s ad Sunday in which it said breadstuffs \$3, when the price should have read \$3.00 per yard. One week of fall and winter woollens is complete. An order placed now may be filled at your convenience. Glickert & McDonald, 317 South Fifteenth street. Children Over 14 Years of Age may do business with The Conservative, 1614 Harney street. An account with us may start a child on the way to thrift and financial independence. Southwest Improvers Elect—The annual election of the Southwest Improvement club will be held Wednesday evening at the club rooms, Twenty-fourth and Leavenworth streets. Divorce for Non-support—Sarah J. Smith has begun suit for divorce from Stuart D. Smith, charging him with non-support. She asks for the restoration of her maiden name, Hutchison. Mids on New Elevator—The Nebraska Hay and Grain Company is receiving bids for the construction of a new elevator in Council Bluffs. It is expected to have the building completed by cold weather. New Grain Business—W. J. Winston, formerly a ranch owner and grain buyer of central Nebraska, expects soon to open a grain brokerage office in the Brandeis building. He has applied for membership in the Omaha Grain exchange. Thief Steals Covers from Sleeper—While V. E. Duncan, 375 Burt street, was sleeping in his yard, under covers which consisted of his coat, a thief broke through the picket fence and stole the covers. Duncan has asked the police to recover the coat. Drunkenness and Non-support—Judge Day Monday granted a divorce to Elsie E. Davis from Harry F. Davis, a packing house employe at South Omaha, whom she charged with drunkenness and non-support. She was given permission to resume her maiden name, Hochmuth. Baby Palmer Loses Prize Fin—Baby Palmer, the little daughter of Mrs. M. Palmer, 207 North Twenty-fifth street, has complained to the police of losing a first prize pin, which the baby won at the territorial fair and baby show in Mexico. The officers will make an effort to find the pin. Alice B. Alden Released—Alice B. Alden, who is charged as an accomplice in the robbery of Edward F. Gates in South Omaha last summer, has been released from the county jail on a \$700 bond, signed by George T. Holmes of Cass county. Alden pleaded not guilty to the charge. He was represented by Matt Gering of Plattsmouth. Christian Endeavor Convention Chorus—Mrs. H. J. Kirshstein, chairman of the music committee for the state Christian Endeavor convention, announces that the rehearsal of the large chorus will be held Wednesday night at First Presbyterian church, Seventeenth and Dodge streets, instead of the First Methodist church. The time is 7:30. Egg-O-See Committee Still Works—The committee of business men which is evolving plans to get the Egg-O-See company to establish a large factory at Omaha met Monday morning at the office of G. W. Watters to talk over plans. What the committee did was not made public. The men who are to inspect the eastern plants of the company have not been named. Pure Food Exhibitors—Among the business concerns which have recently decided to exhibit their products at the pure food show at the Auditorium this fall are: The Worcester Soda company, the Updike Milling company, the Gladbrook German Mustard company, two oyster houses, a local candy factory and an eastern house which deals in perfumes, soaps and other toilet articles. Suit Against Street Car Company—Suit for \$5,000 has been started in district court against the Omaha and Council Bluffs Street Railway company, by Mrs. Gertrude Gray of Bloomfield, Neb., who was injured in a fall from a car near Thirty-fifth and Leavenworth streets July 27. Hugh Gray her husband, has also started suit for \$5,000 growing out of the same mishap. The two, according to the petitions, were about to step off the car, when it started, throwing them to the pavement. Mrs. Gray was injured about the head and declares she suffers from violent headaches as a result of her fall. Mr. Gray's thumb was dislocated and he demands damages for his own injuries and the loss of his wife's services during her illness following the accident. MARY TO REGISTER FOR LAND

DETERRENT EFFECT IS GOOD

Iowa Authorities Unite in Favor of Inebriate Hospital. HARD WORK TO EFFECT A CURE Books Good Medicine for Diseased Minds, According to Theory of Miss Miriam Carey of Des Moines. (From a Staff Correspondent.) DES MOINES, Oct. 7.—(Special.)—That one of the best effects of the inebriate hospital and the inebriate law is the deterrent effect on the drinkers of the state is the unanimous conclusion of the board of control, based on the letters from the county clerks. Of the sixty-nine replies received by Superintendent Osborn of the hospital, to the letters of inquiry he sent to the county clerks, forty-two replied that the chief effect of the law was to scare the drinkers into remaining sober. Fifteen of the sixty-nine failed to respond to that question. It is more than likely that as a result of the information gained by Superintendent Osborn in his investigation the State Board of Control will ask for some additional legislation of the next legislature. The statistics of cures by the institution announced some days ago is flattering to the state board, but it is discovered that an inebriate cannot be cured of the drink habit against his will. Of those who go to the institution voluntarily, a very large per cent, but fact almost all, are permanently cured. In fact of those sentenced, the per cent cured is much smaller and that only because they are afraid they will be sent back. The board has discovered that the last legislature made a failure of its attempt to stop the escapes. The legislature provided that an escapee could be punished by imprisonment in the county jail. The Board of Control has punished a number of inebriates sentenced to the hospital by having them imprisoned in the county jail for escaping. Almost to a man they like the jail sentence, the best, because in the jail they don't have to work, while in the hospital they have to work. At the penitentiaries the prisoners are kept from escaping by the guards who mount the walls with rifles. The inebriates cannot be shot and don't fear imprisonment. It is therefore up to the legislature to find some other method of detaining them. In putting them to work they are sent out onto the farm, and unless there is one guard with each inebriate they are pretty sure to get away. Books as Medicine. Books are medicine to the diseased minds in the state hospital for the insane, according to the experiences of the Board of Control, and Miss Miriam Carey is the doctor in charge. She has been in the employ of the Board of Control as the librarian of the state institutions for a little over a year, and she declares that the work is meeting with the best results. Miss Carey was the librarian at Burlington in the city library. She was engaged by the State Board of Control in March, 1906. In a report on the work that she has accomplished during that time she stated that fairy tales are not attractive to the insane and neither is the "latest novel" nor the "best seller." They pay no attention to those things and care little for what is popular. The insane, Miss Carey says, she finds from her year's experience, are peculiarly and somewhat mysteriously alert as to the good qualities of a book, if not as to the value of it. Properly selected, the books are a wonderful remedial agent in the treatment of the insane patients. They do not enjoy the imaginative, they want the realistic. As a rule they show good taste in their reading and any good book will satisfy. They care nothing for the sentimental. It has been discovered that even the violent patients can be interested in reading good books, and the reading of the books soothes the wrought up natures and assists the physicians in effecting cures. The first work of Miss Carey was to properly classify the books at the state institutions. The worthles were weeded out and the new purchases are being made with care and with the special purpose of meeting the requirements of the insane. The largest libraries are at the penitentiaries. There is also a substantial list at the boys' school at Eldora and the girls' school at Mitchellville. The selections of these books are different from those at the insane hospitals. The boys and girls like the imaginative and the heroic and the historical. Library Gets Rare Book. State Librarian Johnston Brigham has, on the authority of the trustees of the library, made the purchase of Pizarro's Religious Customs and Ceremonies. The work is in six volumes and was published in 1733. It is printed in two colors and is considered a very rare work and very valuable. Put Ban on Butter. The Iowa Health Bulletin, the publication of the State Board of Health, will be issued tomorrow, and an article in the Bulletin on butter, says, "Butter as ordinarily used is unquestionably one of the filthiest things that can come upon the table." This statement and claim is backed up by a lengthy discussion. It is claimed in the article that millions of germs are in every pint of milk and that these germs stay largely with the butter fat. When the milk is skimmed the bulk of the germs are with the cream and when the cream is made into butter the bulk of the germs again go into the butter. The unskimmed milk and the butter milk have but few of the germs. The article claims that the only way to make good butter is to pasteurize or sterilize the milk, then sterilize the cream and make the butter in a vessel where there will be little opportunity of the air to get to it. Finally it must be kept in a cool place and eaten up inside of a couple of days, as butter kept longer than that is not fit to eat. It is further claimed that much butter is not a good thing for most people for the reason that it destroys the acids of the stomach that are necessary to digestion. In short, butter is condemned and placed under suspicion generally. It is pictured as swarming with germs and bacteria of all kinds and descriptions and all the germs that are contained in milk are concentrated in the butter that is made from the cream. It is claimed that there are about two billion to eight billion germs in a pint of milk, and it takes twenty pints of milk to furnish enough cream to make a pound of butter. Hence, when a pound of butter is made, it contains billions upon billions of germs and bacteria. Cost per box—you save \$1.36 doctor's bill. Red Cross - Cough Drops. Writing a want ad for The Bee is only a moment's work, and incurs but a trifling expense, and does the work every time. If you mail a want ad to The Bee at midnight, enclosing price in stamps or coin, it will be printed the next afternoon and probably answered the same evening. If you would try this new and simple method once you would probably find frequent use for it afterwards. That's the case with other The Bee want ads never disappear. They always fill your want.

JAPANESE SITUATION ACUTE

French Observer Finds the Sentiment in Canada Most Bitter. NEW YORK, Oct. 7.—Abbe Felix Kline, one of the prominent members of the clerical element in France, who is making a study of American social economic conditions, has returned from an extensive tour of the west. Speaking of his observations, Abbe Kline said: "I was much impressed while on the Pacific coast with the anti-Japanese feeling existing at Vancouver and throughout British Columbia, which, far more intense than the feeling on the American side of the border. At San Francisco the anti-Japanese element is comparatively small and one hears little of active agitation against the Japanese. On the other hand, I visited Vancouver shortly after the anti-Japanese riots, meeting the Japanese consul and going through the Japanese quarters. Everywhere evidence of intense hostility. It was not a question of labor, but of race. The people have taken up the shibboleth of Canada for the Canadians and they feel that the exclusion of the yellow race is essential for their safe preservation. They are very determined in this feeling and are pressing their views forcibly on the authorities in Ottawa and London. "Before coming to America I shared the view of a considerable element in France and throughout Europe that the Japanese question might lead the United States into war. But personal observation throughout the middle west and the far west has completely changed my views. The people of the west are not thinking of such a thing, and scout the very idea of war. Even in San Francisco, which is supposed in Europe to be the center of anti-Japanese hostility, there was much less feeling than I found to exist in the British colonies to the north. It is quite evident, also, in witnessing the splendid development of the Pacific coast, that a war would be little short of criminal, and disastrous to Japan and the United States, neither of which are gaining to gain by such a recourse to barbarism. "The Canadian branch of the Japanese question is really of much importance to the United States, as Japan can hardly expect more from the United States than it exacts of Canada, where the opposition to the Japanese is far more acute." BRITAIN TREATS WITH RAISULI Arranges for Payment of Ransom to the Moorish Bandit Chief. TANGIER, Oct. 7.—The release of Said Sir Harry MacLean, who for some time has been held captive by the bandit Raisuli, at the very idea of war. Even in San Francisco, which is supposed in Europe to be the center of anti-Japanese hostility, there was much less feeling than I found to exist in the British colonies to the north. It is quite evident, also, in witnessing the splendid development of the Pacific coast, that a war would be little short of criminal, and disastrous to Japan and the United States, neither of which are gaining to gain by such a recourse to barbarism. "The Canadian branch of the Japanese question is really of much importance to the United States, as Japan can hardly expect more from the United States than it exacts of Canada, where the opposition to the Japanese is far more acute." JAPANESE RAISED TO PEERAGE Men in the Diplomatic and Civil Service Among Those to Be Honored. TOKIO, Oct. 7.—A number of additional promotions to the peerage are expected to be made shortly and to include Gonzaiku Hayashi, minister to China, M. Ichida, minister to Austria-Hungary, and the governors of Tokio, Osaka and Kioto. The crown prince of Japan will leave for Korea October 10, unless the epidemic of cholera in that country increases. At present the disease is spreading seriously. A case is reported inside the compound of the resident general. American missionaries in Japan to the number of 100 have signed a memorial in which, while disclaiming any desire to mix in politics, they assert that their sole desire is to remove misunderstandings and to testify to the sense of international justice, the faith of the friendship of the United States, and their belief that the reports of the belligerent attitude of the Japanese do not represent the true feeling of the nation. The signatories of the memorial say they desire to record their appreciation of the universal courtesy and helpfulness of the people and the government of Japan. The memorial was unanimously signed by missionaries of all sects. The Texas Wonder Cures all Kidney, Bladder and Rheumatic troubles; sold by Sherman & McConnell Drug Co. and Owl Drug Co., or two months' treatment by mail, for \$1. Dr. E. W. Hall, 2835 Olive St., St. Louis, Mo. Send for testimonials. ROWLAND ACQUITTED OF CRIME He and Wife Declared Not to Have Killed Her Former Husband. RALEIGH, N. C., Oct. 7.—The jury in the Rowland murder trial this morning returned a verdict of acquittal. Dr. and Mrs. David Rowland were charged with poisoning the woman's former husband, Charles R. Strange.

WORKMEN BURN TO DEATH

Four Instantly Killed and Twenty Are Fatally Injured. EXPLOSION OF MOLTEN METAL Fire Which Follows Explosion Destroys Car Wheel Shop and Entire Plant is Endangered. BUTLER, Pa., Oct. 7.—An explosion, caused by the upsetting of the metal pot in the No. 1 cupola of the Standard Steel company last night, caused the death of four men, fatally injured twenty and seriously injured ten others. Nearly all the men were foreigners. The large wheel plant was demolished, causing a loss estimated at \$300,000. The dead: NICK DORNA, NICHOLAS BLOTAR, JOHN VERECI, UNIDENTIFIED MAN. The condition of the thirty men injured is pitiable. Although still alive, the features of a majority are mutilated beyond recognition. The hot metal was showered over them, causing horrible injuries. Arms, fingers and ears were torn off, while a number of the men lost eyes, burned out. Several men are in the hospital with their legs burned to a crisp. The explosion was caused by the upsetting of a metal pot in the cupola which contained 5000 pounds of molten metal, and about the very idea of war. Even in San Francisco, which is supposed in Europe to be the center of anti-Japanese hostility, there was much less feeling than I found to exist in the British colonies to the north. It is quite evident, also, in witnessing the splendid development of the Pacific coast, that a war would be little short of criminal, and disastrous to Japan and the United States, neither of which are gaining to gain by such a recourse to barbarism. "The Canadian branch of the Japanese question is really of much importance to the United States, as Japan can hardly expect more from the United States than it exacts of Canada, where the opposition to the Japanese is far more acute." ENVELOPES BELOW GRADE Money Due Hartford Manufacturing Company Held Up by Postal Department. WASHINGTON, Oct. 7.—Postmaster General Meyer has suspended the payment of moneys due from his department to the Hartford Manufacturing company of Hartford, Conn., and has submitted the matter to the attorney general for such further action as may be deemed proper. The Hartford Manufacturing company up to July, last, supplied the stamped envelopes and newspaper wrappers sold at postoffices. Chemical analyses of wrappers have disclosed the fact that the composition of the envelope paper has been below the requirements of the contract, and, according to the computations of the experts of the Postoffice department, the company has in the last four years wrongfully benefited to the extent of about \$425,000. Man wanted. It doesn't matter what you want a man for. It doesn't matter whether you want a white man or a black man, a large man, or a small man, there's a man in Omaha who wants to serve you. He's just the man you want, and if you insert an ad in The Bee's want columns today that man will call upon you tomorrow.

PLANS TO BALK MOFFAT ROAD

Union Pacific and Rio Grande Surveyors Are Active in Northwest Colorado. PORTLAND, Ore., Oct. 7.—The Oregonian today says that three surveying parties of the Harriman system have recently been rushed into southeastern Oregon. The paper says that surveying parties from both the Union Pacific and Denver & Rio Grande lines are being poured into northwestern Colorado, locating routes parallel to that of the Moffat road, which is building through that country into eastern Utah. The Oregonian deduces from that that the Harriman system and the Gould road purposes to put up a stubborn fight against the Moffat road in northwestern Colorado and by appropriating all available routes that the Harriman system is endeavoring to keep competitive roads out of southeastern Oregon. The Mount Hood railway, now constructing an electric line between Portland and Mount Hood is, so the paper recently declared, the western terminus of a new transcontinental line, to be composed of the Salt Lake, Moffat and Rock Island systems. RIOTING RESUMED IN ODESSA Jews the Principal Object of Attack and Many Are Brutally Beaten. ODESSA, Oct. 7.—Despite the precautionary measures taken by Governor General Novitski, the unionists today, after the funeral of M. Daidnaki, assistant chief of the secret police, who was killed in an attempt to break up an anarchist meeting several days ago, renewed their anti-Semitic outrages. Several Jewish tea rooms were ransacked and numerous Jews were brutally beaten, it being necessary to send fifteen to hospitals. The police dispersed the mob, but made no arrests. Extreme nervousness is felt by the Jews and the streets have been practically deserted by them. As an indication of the methods employed by the mob to catch unwary Jews, the correspondent of the Associated Press, while on his way to file this dispatch, was stopped in a dark street by six unionists, each wearing a different uniform. Subsequently the correspondent was permitted to proceed, one of the men remarking: "We are not anarchists and only beat Jews and revolutionists."

Our New Style Books For the Fall and Winter of 1907-8 are fresh from the press and ready to mail to our out-of-town customers. The book for Men contains many handsome illustrations of Fall and Winter Suits and numerous samples of the goods from which the Suits are made. With these books in hand you can buy Clothing and Furnishings as easily and cheaply as you could if you were in our Big Store. When you write state which book you want. THEY ARE FREE. Nebraska Clothing Co. OMAHA. BIG SMELTER TO CLOSE DOWN Master in Chancery Holds Fumes from Its Stacks Damage Nearby Residents. BUTTE, Mont., Oct. 7.—Oliver Crane, master in chancery, who heard the testimony in the famous smoke case, wherein it is sought to close the Washoe smelter of the Amalgamated Copper company, yesterday announced a draft of his findings of fact to counsel and set October 20 as the date on which he will hear objections to them and make final settlement. In all except one of the issues the findings favor the defendant companies. The master finds that the complainants, land owners in the Deer Lodge valley, have been damaged by arsenic emanating from the stack of the arsenic smelter and that such damage will continue so long as the plant is operated. Judge Junt will be asked to grant an injunction closing down the Washoe works. Upon the operation of the plant depends the running of all the mines of Butte, with the exception of several Clark properties. SUPPORT FOR NAVAL PROGRAM Passage of Government Bill Through German Reichstag Practically Assured. WEISBADEN, Oct. 7.—The annual conference of the national liberals today adopted Count Oriola's resolution committing the party to the support of the proposals to strengthen and develop the navy, especially by the building of new vessels equal in size and efficiency to those of other powers and reducing the age limit of battleships. The latter proposal refers to the general demand that battleships be replaced when they have been twenty instead of twenty-five years afloat. The centrists and radicals being practically committed to support the government's naval program its passage is expected at the next session of the Reichstag.

W. B. CORSETS ERECT FORM 744 IS an excellent model for well developed figures. Its closely stitched front subdues abdominal prominence and rounds the figure into graceful lines. Made of white imported coutil. Trimmed across top with lace and ribbon. Hose supporters at front and hips. Sizes 19 to 36. Price \$2.00 ERECT FORM 720 IS a corset for average figures. Has medium bust and long hip. Made of white and drab coutil. Hose supporters front and sides. Trimmed across top with lace and ribbon. Sizes 18 to 30.
