The second table d'hote dinner of the season was given Wednesday evening at the Field club and brought out a very small crowd, owing to the unsettled weather. The dinner that was to have been given by Mr. F. P. Pollard was postponed. Mr. W. Laier had six guests and Mr. W. F. Hillis three.

Former Omaha Girl's Fame. The following from the Daily Oklahoman progress that has been made along music lines by a former Omaha girl:

Mines by a former Omaha girl:

Among the many musicians of ability in this city, a leading position is accorded to Mine Helen Renstrom, whose singing voice is phonomenal in range and birdlike in purity of tone. Mine Renstrom, who is but 16 years of age, is of Swedish parentage and was born in Omaha, Neb. Two years ago, while attending the Lincoln school, the marvelous purity of her singing tones attracted the attention of her teacher. Who spoke to her friends about the child, among them N. H. Lingenfelter, city editor of the Oklahoman, who was instrumental in placing her under the tuition and guardiauship of Mrs. Raze W. Bruckman. Under this lady's tutelage Miss Renstrom's voice has been developed until there are few singers in the country who possess greater range and purity of voice. Miss Renstrom has appeared in concert several times in this city and a year ago had the honor of accompanying the statehood delegation to Washington, where she sang "Oklahoma" before the members of congress, who were captured by her voice. While she has had many flattering offers to sing professionally, her guardian has deemed it best to decline them owing offers to sing professionally, her guardian has deemed it best to decline them owing to her youth.

Prospective Events. The P. E. O. society will be entertained Saturday afternoon by Miss Clara Nason at the Millard hotel at 2 o'clock.

Invitations have been issued by Mr. and Mrs. John M. Rose for the marriage of their niece, Miss Rose Marie Coilins, to Mr. John Kelly. The wedding will take place Tuesday, May 21, at 10 o'clock, at St. Peter's church. A reception will follow the ceremony at the home of Mr. and Mrs. Rose, 2009 Harney street.

Mr. Elmer Cope will give one of the largest dinners at the Country club Saturday evening.

Personal Gosstp. Mrs. Welsh Kingsley of Stanton, Neb., formerly of Omaha, is the guest for two weeks of her mother, Mrs. A. L. Root. Mr. and Mrs. Harley G. Moorehead have

"Fashionable" Bridal Gifts. Cigarette cases are one of the popular gifts for spring brides. One recent bride had an even dozen in her collection of

They were in as many different styles of workmanship, some of gold with the owner's monogram or initials set with jewels, others in silver, chased and plain, and one of them, brought from Italy, was entirely set with mosaic. Of course, to make use of twelve or even six cigarette cases was out of the question, so that those not marked with the bride's initials were exchanged.

But jewelers do say that instead of presenting a bride with a silver berry spoon, a saind fork or some article similar the cigarette case is being largely given. And so far as the expense is concerned it is quite possible to spend as much as \$500 on one of these trifles.

Something About Trunks. Trunks are being shopped for just now by those looking forward to summer trips. According to one trunk dealer, a trunk of basswood will give the best satisfaction. Such a trunk, well braced and trimmed with brass mountings, should last ten or a

dozen years. If one can afford it, it is best to get a skirt length trunk, a hat box and a shirt waist box, for then one's various garments can be well distributed and easily packed. Those who like novelty and have the noney to spend can have trunks for their parasols, their golf sticks, their hats, their boots and shoes and their books. The last variety is an English affair, enamel cov-

Education of Public Opinion. CLUBS ENLISTED IN WORK FOR PROTECTION

Adequate Appropriation by Congress for Investigation Into Industrial Conditions of Women and

Children the Goal.

The Federation Bulletin, official organ of the General Federation of Women's Clubs, in its May number editorially calls upon the club women of the land to assist in an education of public opinion that will make it impossible for congress to longer ignore the carclesoness that annually results in such appalling loss of life or permanent maiming of men, women and chidren in our American industries. Attention is called to an exhibition of eafety appliances recently held in New York, which might be employed a great variety of other conventional fig- for the protection of life and limb in the industries and transportation. No amount of argument or smooth glossing can obscure the point of such a state of affairs. Everyone living in this year of grace can testify that, when these facts were presented to our congress last winter it was found to be impossible to secure their attention. All that vas asked was a small appropriation in order to obtain an investigation of the industrial condition of the 5,000,000 wage-earning women of the country. The bill was passed without an appropriation, with the intention of killing it; but a small sum was secured at the last moment through the Department of Commerce and Labor, and was secured by indirection and in spite

"The materials of which these exhibits are composed are very portable and nothing is easier than to convey them from city to city until the entire country has seen them and has been awakened. It is not necessary to explain to any one what happens when the American people become fully awakened to the fact that a needless, shameful and inhumanly cruel form of tyranny is safely enscenced and pro-

tected beneath the folds of our flag. "It is evident that the woman's clubs have never found a more fruitful field for their activity than is offered here. It is better than argument, it is better than appeals. It is the simple presentation of ered, and provides places for a couple of the cold facts, as they are marshalled by boards of health and experts whose testimony is founded upon actual investigation, and that, too, with the indorsement of state legislatures and state and city commissions of all kinds. If there is anything which an American respects it is fact, and ere are the facts in a form which it is impossible to parry or to evade."

The United Daughters of the Confederacy, the foremost organization of women in the south, has had an active part in soliciting the funds ness and attractiveness to be accomplished for the statue and will have a corresponding part in the exercises June 3.

Something New in Jewelry. One of the latest freaks of fashion in the way of ornamentation is the wearing of a cluster of enamelel butterfiles upon the corsage of a reception gown or a dressy street costume. These butterflies vary in size from three inches from tip to tip down to tiny ones not more than half an inch

It is the fancy to keep them all slike in coloring, and one pretty troop recently seen was enameled in blue and purple and six of them were worn upon the jumper waist of a duli blue voile, made up over purplish

red silk. The butterflies are made in the shape of clasp pins, and in this instance they reached from the center of the waist at the bust to the right shoulder, one apparently following the other in their merry flight toward some red and purple roses which formed the trimming of the mushroom hat.

The action was taken on Fitch's motion to transfer the case from Judge Sears' docket to one of the other judges.

At the last trial of the case before Judge Sears he dismissed the jury before the case had been submitted, alleging that the record had been changed. Under his direction a contempt case and a case for disbarment were filed against Fitch. The contempt case has been submitted to Judge Kennedy, but has not been decided. The disharment case has not been tried.

In dismissing the case Judge Sears re ferred to the contempt and the disbarment cases and the charges of tampering with the records upon which they are based. He said in view of the previous history of the case he would wipe it off the docket, Byron G. Burbank, attorney for Fitch. protested against this action. He declared it was contrary to the mandate of the supreme court after the first trial of the case which directed that the case should be tried to a jury. It had been tried three times but mistrials had resulted in each instance. At the first trial Fitch received a judgment for \$5,000, at the second the jury disagreed and at the third Judge Sears discharged the jury. Mr. Burbank contended the case now stands as it stood immediately after the mandate was issued. He maintained the position of the cour was without authority in law or fact. He pointed out that the charges against Fitch were as yet only charges and had not been proven. Eight of the eleven jurors he said had testified there was no change in the record and five other persons had said the same. He said Judge Sears differed from the other witnesses in what the change was. He contended that even if the charges had been proven neither the contempt nor the disbarment case could enter into the present one.

Judge Sears responded that under the circumstances he thought he would be justified in dismissing the case and ordered it stricken from the docket.
