### FIT THE GROCER

Wife Made the Suggestion.

A grocer has excellent opportunity to know the effects of special foods on his customers. A Cleveland grocer has a long list of customers that have been helped in health by leaving off coffee and using Postum Food Coffee.

He says, regarding his own experience: "Two years ago I had been drinking coffee and must say that I was almost wrecked in my nerves."

"Particularly in the morning I was so irritable and upset that I could hardly wait until the coffee was served, and then I had no appetite for breakfast and did not feel like attending to my store duties."

"One day my wife suggested that inasmuch as I was selling so much Postum there must be some merit in it and suggested that we try it. I took home a package and she prepared it according to directions. The result was a very happy one. My nervousness gradually disappeared and today I am all right. I would advise anyone affected in any way with nervousness or stomach troubles, to leave off coffee and use Postum Food Coffee."

leave the service. This rule, however, was universal, it prevailed in all countries. The Germans in fact were the first to break it. So far as can now be recalled there is only one case where marriage with a foreigner really did harm to a diplomatist of the modern school. This undoubtedly was the case with Herr von Radowitz. He and M. De Neldoff were both in Constantinople together. As they were married to sisters there was naturally great intimacy between the families of the German and the Russian embassies. At that time, however, there was considerable opposition in German and Russian interests at Constantinople and the wife's transgressions were alluded to in the papers. It is still held in opinion that Herr von Radowitz did not show sufficient energy in defending them against his brother-in-law. This is what led to Herr von Radowitz' transfer to Madrid. The transfer was carried out greatly against his will, and he does not like the Spanish capital. Frau von Radowitz likes it still less. In fact she was the only one of the year on the estates of her husband in Germany and only makes a minimum stay in Madrid to dispense the hospitality of the German embassy in the season.

#### The Mad King Otto.

The newspapers here have been printing many incidents in connection with the mad King Otto of Greece, the mad king who is incarcerated in the castle of Fuerstenfeld, and whose birthday was celebrated by the inhabitants of Bavaria in the same loyal manner as if he was still upon the throne of Munich.

The report that King Otto has wanted a mass parade in Munich, the morning and day talking dreamily through the halls and the gardens of the castle, starting blankly into space—"looking for the past," as he once said, and often not speaking for weeks to a time. Fuerstenfeld, which was once the favorite summer palace of the Bavarian kings, is now hidden behind a screen of trees and its gates are guarded by armed soldiers.

The imprisoned entourage consists of his court chamberlain, two courtiers and two physicians from an insane asylum. The latter, who are relieved monthly, are charged with the watching of the movements of the king. The king's condition is observed as punctiliously as his majesty permits.

Once a year an official of the royal household in Munich visits the king and makes a formal report on his condition to the Bavarian Parliament. Prince Leopold, the king's nephew, is the present monarch, because the right of his relatives has heretofore always thrown his majesty into a towering rage.

King Otto is said to be enjoying fair bodily health, his occasional illnesses being caused by his passion for cold food, which is the only form of nourishment which he can be induced to take.

### TROUBLE OVER TEMPERANCE

Presbyterian General Assembly Divided in Regard to Methods.

#### REPORT FAVORS NEW FEDERATION

Opposition Wishes Church to Continue to Support the Anti-Saloon League—Action Is Deferred.

COLUMBUS, O., May 18.—Whether the general assembly of the Presbyterian church shall endorse the effort of the temperance committee to organize a church temperance federation or shall give its undivided support to the Anti-Saloon league is a question which will be pressed for settlement before the assembly meets on Monday next.

The controversy, which started when the inter-church federation in Pennsylvania and the Anti-Saloon league disputed over temperance legislation in that state, cropped out in the general assembly today when Dr. David Willis of Oswego, N. Y., who had been appointed chairman of the temperance committee, resigned and Dr. Henry E. Dosker of Louisville was appointed to succeed him.

Dr. Willis refused to discuss his reasons for resigning, but it was said that he did not care to be in the thick of the fray.

The question as to which movement the assembly shall endorse may not be allowed to go to the temperance committee, however, although the matter is discussed in the report of that committee. The present plan is to bring the matter up in the assembly Wednesday on overtures from the Presbyteries of Indiana, Chicago, Minnesota and Wisconsin.

The effort to organize a church temperance federation is unwise. That these overtures will receive strong support is conceded, but none can be found who is willing to predict the outcome.

The assembly held but one session today, which was given over to the report of the committee on ministerial relief. Tonight there was an evangelistic rally at Memorial hall.

Tomorrow the pulpits of most of the local churches will be occupied by visiting ministers.

**D. Willis Resigns from Committee.**  
At the action of the assembly today Moderator Roberts took the vexed temperance question by the horns by appointing Rev. Henry E. Dosker of Louisville as successor to Rev. David Willis, Jr., of Oswego, N. Y., who created somewhat of a sensation today by announcing that he would not accept the appointment as chairman because of the fight in the committee over the temperance question. The controversy is involving nearly all the commissioners now in attendance at the assembly, but it did not get to the floor of the assembly today because of its adjournment to Monday afternoon.

Moderator Roberts, according to a statement he made after adjournment, is determined that the temperance question shall be settled at this meeting. He said:

"I appointed Rev. Dr. Dosker because I know him to be a man of the highest caliber and therefore I hope for some definite action by the committee through him as chairman. I am determined, if possible, to have the committee come to some definite action on this question today."

The committee adopted the reports on ministerial relief and Presbyterianism and brotherhood.

### MEMBERS OF COMMITTEE

The old committee upon temperance is: W. W. Cole, John M. Davies, R. Lorenzo Clark, E. B. Clarkson, Charles L. Smoyer, C. B. Stark, Donald C. Miller, C. A. Gault, M. M. Crow, James H. Tate, D. M. Gandler.

Elders—George W. Stone, Charles Dunlop, George Clelland R. M. Cunningham, S. M. Scott, E. Dresser, D. G. Junkin, John Adams, Henry C. Stuckey, James A. Lawrence.

William R. Bekman, chairman of the finance committee, for reasons not stated, has resigned from his position.

The report of the Board of Ministerial Relief showed that there were on its roll last year 1,027 names—41 ministers, 547 churches, 2,194 members, 12,014 members of a medical missionary, eight women missionaries and nineteen guests in the Merriam home at Newton, N. J. This is the largest number ever upon the roll.

### NEW TRANSPORTATION IDEA

Des Moines Men Propose Automobile Line to Operate on Cement Road.

#### AGITATION AGAINST CONVICT LABOR

Woman Leaves Children in Depot While She Goes in Search of Work and Des Moines Police Take Care of Little Ones.

(From a Staff Correspondent.)

DES MOINES, May 18.—(Special.)—Arrangements have been completed for the building and equipment of an automobile line in Iowa, and it is given out that within a short time an announcement will be made of the building of one of the lines in Iowa, arrangements to that end being now all but completed.

During the last session of the legislature a bill was enacted putting automobile railroads on a par with interurbans and other lines and authorizing them to do business in Iowa.

Since then the idea of the system has spread, and according to present indications Des Moines will be a center for manufacturing the automobile cars. The Automobile Railway and Car company has been organized and has filed articles of incorporation with W. S. Goodell of this city as president and H. G. Gore, the inventor of the idea, as secretary and manager.

The idea of the inventor is to provide cheap transportation. The railroads will be built with a cement track and the automobile cars will be so constructed as to provide quick, cheap service. There will be no expensive power plants or rolling wires and poles. Arrangements are being carried forward to put the line in operation between Des Moines and some of the cities surrounding it. The system appears because of its cheap construction, since it can be built for about one-third what it costs to build an ordinary interurban line.

### GOVERNOR FOLK SURPRISED

Kansas City Police Force Will Be Reorganized as Result of Graft Revelations.

KANSAS CITY, Mo., May 18.—There will be a complete reorganization of the police department of Kansas City as a result of the investigation that is to be begun here next Tuesday by the local Board of Public Commissioners.

The shake-up will include several of those higher up. This statement was made late today by an official high in authority and coming up of two days' personal investigation of the situation by Governor Joseph W. Folk, is taken to mean that sensational results may be expected to follow closely after the meeting of the board next week.

Governor Folk departed for Jefferson City tonight, after probing thoroughly into the charges of police corruption. He declined to state what action toward a reorganization of the force, if any, would likely be taken, or to give any intimation of the nature of the graft that was presented to him in his two days' visit here.

He is quoted as having expressed surprise at some of the evidence laid before him by Mayor H. M. Boardley and Commissioners Gallagher and Rozelle.

Mayor Folk spent the greater part of today in personal visits to the various police stations in the city. He was busy later up to the time he left for the capital in discussing conditions with the police commissioners and others.

Because of alleged sensational developments late tonight, Governor Folk decided to remain in Kansas City until Monday and possibly longer, and continue to personally aid in the police investigation. The governor would make no statement as to what the developments were that kept him here, but it was stated from other sources that unless present plans miscarried at least two prominent police officials, John Halpin, chief detective, and Dr. G. B. Longan, police surgeon, both of whom have been on the force for years, would be removed on Tuesday immediately after the convening of the Board of Police Commissioners.

Governor Folk was still in conference with the police commissioners at midnight. Governor Folk had intended to leave the city late tonight, but in the light of the developments changed his plans quickly at the last moment.

BIRMINGHAM, Ala., May 18.—At the opening of the third day's session of the general assembly of the Presbyterian church in the United States today devotional exercises were conducted by Rev. H. W. Hoon of San Antonio, Tex., assisted by Dr. J. P. McMillen of Centronelle, Ala., and Rev. J. P. Robertson of Sherman, Tex.

The general assembly of the Presbyterian church sends fraternal greetings to the general assembly of the Presbyterian church in the United States. Read Ephesians, fourth chapter and thirteenth verse.

The telegram was signed by William Henry Roberts, moderator. The scriptural reference referred to Paul's exhortation of unity.

The judiciary committee reported an appeal of the Lafayette presbytery from a ruling of the synod of Missouri and recommended that the matter have a special hearing before the assembly. The question involved the weight to be given by lower courts to recommendations of the general assembly. The assembly resolved itself into a court and proceeded with the hearing. The appeal was based upon the refusal of the Lafayette presbytery to com-

After listening to a few speeches the society adjourned.
