Jolts by Governor Sheldon.

APPOINTMENTS DISTASTEFUL TO LEADERS

Martin Demery, the Governor's New Secretary, Has a Good Anti-Monopoly Record in the Legislature.

(From a Staff Correspondent.) LINCOLN, May 19.-(Special.)-Four or tive would-be leaders of the Lancaster county republicans have been holding frequent indignation meetings lately over the two most recent of Governor Sheldon's ap- JURY pointments, while the great bulk of the rank and file of the Lancaster county resublicans are sitting back and enjoying the discomfort of the alleged leaders. Someone started the report that Martin Dimery, the new secretary to the governor, be-Aonged to the railroad element of the party and was therefore antagonistic to the goyernor's policy. It happens, however, that Mr. Dimery has a record made in the senate of 1905, and the records show he voted for the anti-pass bill then, he voted against the Bell Telephone company and on all important matters raised by Governor Sheldon he voted with the executive. For Grand Island Man Accidentally Killed his stand on these questions at a time when such a stand was not immensely popular is due Mr. Dimery's appointment, which so disappointed some Lancaster county people who are trying to perpetuate a machine in state politics.

The greater disappointment, however, to the Lancaster ple eaters came in the appointment of A. B. Allen as oil inspector Allen hails from Johnson county which, incidentally, was the first county outside of Cass, to instruct for the governor, previous to the convention. To please the Lancaster politicians Mr. Sheldon offered the place to T. F. A. Williams, who refused it, and while the Lancaster fellows were fighting over the place Mr. Sheldon appointed the man he wanted for the place regardless of the Lancaster county ma-

Within a few days there will be some more appointments and it is more than likely a few more politicians down here will think salt is being rubbed in the sore places. In the meantime, however, the governor is taking things easy, working away on the assessment of railroad prop erty, and if he knows what a wreck he has made of the new Lancaster county machine he doesn't exhibit any concern.

County Officers Criticised. In addition to the indictments it returned, the Lancaster grand jury took a shot at nearly all of the county officers. It said evidence showed Sheriff Ress had been negligent in reporting the collection of fees and especially in fees collected for transporting prisoners to the asylum. In one instance, the report said, the sheriff had charged up a fee for an attendant when no attendant had been employed. The jury also criticised the county commissioners for not properly checking up the officers. Regarding the county elerk the report said:

garding the county elerk the report said:

We have examined the report of the county clerk, and find that he files a quarterly report, as required by law. While the amount of fees received by the county clerk is classified according to the different sources of revenue, there is no itemized statement of the fees received, "showing the different items of fees received, from whom, at what time, and for what service," the above being the provision of section 13, chapter 28, previously referred to.

We also find that the county clerk has not sworn to the correctness of his report. We find that the county treasurer does not make quarterly reports as required by not make quarterly reports as required by law, but makes a report at the end of the year, which shows the fees of his office recapituisted by quarters. We find that the treasurer does not make any detailed report of the expenses or disbursements of the fees of his office. The report for the year 1906 shows fees collected, \$5.375.90: year 1006 shows fees collected, \$5,375.90: commission on collections, \$9,547.36; total fees and commissions received, \$14,912.26. We recommend that the county treasurer we recommend that the county freasurer should be required to show in detail the salaries paid to the various employes of his office and the amount he has retained for his own services. We find also that the report of the county treasurer is not sworn to as provided by law.

We were also directed by the court to inquire into the matter of charges publicly made of the existence of a combination among bridge contractors. We have to report that we have been unable to obtain sufficient evidence upon that point. Some witnesses have testified that they believed such a combination might exist, but have been unable to furnish satisfactors are heen unable to furnish satisfactory evi-dence to substantiate the charge.

Suicide Remains Mystery. FALLS CITY, Neb., May 19 .-- (Special.)-The identity of the young man who killed himself on the Burlington train near here a week ago is still a mystery. Nothing has been found to give any trace of him. A traveling man going through Palls City told Express Agent Basim that he was on the train with the young man and rode from Kansas City to St. Joe with him and that the young man told him that he lived in New York and had recently had trouble with his wife and was going to Denver. This is the first person who seems to have talked with him. Every effort is eing made to identify him, but without much success.

M. E. District Conference. RANDOLPH, Neb., May 19 .- (Special.)-The Norfolk district conference of the Methodist Episcopal church was held in the Methodist Episcopal church of Randolph May 16 and 17. About forty delegates were in attendance, and among the many excellent things of the program were a stereopticon lecture on Africa and India by Dr. Horn of Wayne; also an address by Dr. Jennings of Kansas City on the publishing interests. The session was profitable throughout, spiritually, intellectually and socially. The session was brought to a close by a very appropriate address by the presiding elder, Dr. Tindall.

Ragan's delivery was hit pretty hard, but not until Denver had taken a lead that could not be overcome. Both the Omaha runs were earned, the first on Ragan's homer and the second on Gonding's two-base hit, followed by Autrey's single. The fifth inning was the only one in which the Omaha men made more than one hit. Two of the Denver men were easily retired in the third, when Ragan gave Adams his base on balls. McHale followed with a single into center. Then Murphy knocked a long fly to Will Belden who dropped it, letting in two runs. Wheeler's single drove in another. Clark a Pussle to Pueblo.

PUEBLO, Colo., May 19.—Pueblo was unable to hit Clark when hits meant runs, and Des Moines took the final game of the series by a score of 4 to 1. Hatch had one bad inning, the first, after which the context became a pitchers' battle. In the first inning Schipke got a two-bagger, Hogriever sacrificed and Dexter scored. Schipke with a three-bagger, Corkhill singled, scoring Dexter. Andreas followed with a two-bagger, but Hatch steadled and there were no more runs. Both teams went out in almost one, two, three order until the eighth, when Des Moines got the best of two close decisions and gathered two runs. After Hogriever had been retired Dexter reached first on Corhan's error, Corkhill struck out, but Andreas singled. Both men advanced on a wiid pitch and scored when Davis threw a triffe wide to Tonneman on McLaughlin's grounder. Toneman's two-bagger, followed by Corhan's single, gave the locals one run in the ninth and prevented a shutout. The score:

Pilger Evens Up. PHAER, Neb., May 18.—(Special.)—The Pilger High school base bull team took the Stanton High school team into camp Saturday, 9 to 12. It was one of the most exciting games played on the Pilger diamond in years, owing to the great rivalry between

the two towns. The same teams played an S to 7 game at Stanton two weeks ago last Saturday, the score being in Stanton's favor, so the game yesterday was looked forward to with great interest.

Good Cause, Too-Bert Snyder, deputy in County Assessor Grant Zimmer's office, is mad. Not at anything or anybody in particular, but because he can't locate the sender of a box of flowers which he received yesterday through the mails. The address, written in a decidedly feminine hand, is mystifying, but the flowers, one dilapidated rose and one antiquated pink, are reposing in a bottle of water in a prominent place on his desk.-Nebrasks City Tribune.

Hurry Up, Boys-Boys, get a move on you and when you see a lady drive a horse up to the hitch rack, hustle up and tie it for her and then help her out of the buggy. We overheard a lady say Saturday as an elderly gentleman hitched her horse, "that is more than any young man would have done for me in Blue Springs." Boys, the ladies expect attention, brace up and get a wiggle on you and perchance if she has a daughter you are solid.-Blue Springs Sentinel.

Wow!-What a howl would go up, remarked an experienced editor, if newspapers were to criticise the individuals as freely as many people criticise the newspaper. Every issue of a live, reputable newspaper is a mantle of charity, and the matter left out-truth not gossipwould often more than equal in volume that published. If an editor would get out a cold fact edition of his paper some day, and then get up in the tree and watch the results wow! What a picture it would bei-Wakefield Republican.

(Continued from First Page.)

the coat tall of Secretary Corteiyou, breakfasted upon two or three newspaper reporters and otherwise misbehaved himself. The facts in the case are that "Pete" is a very well behaved buildeg and that the only onslaught he has made upon a White House visitor was on a recent occasion when he caught a police inspector climbing over the back fence in the line of duty and spoiled a portion of that officer's raiment.

But "Pete" is not the only White Housa dog who has been erroneously portrayed in the newspapers. Twenty years ago, soon after her marriage, Mrs. Cleveland was presented with a handsome black French poodle who bore the name of Hector. There were certain correspondents in Washington at that time who were compelled to fill a certain amount of space in their respective newspapers each night, and when they were short of other interesting incidents concerning life at the capital in the summertime they devoted themselves to Hector. The ingenious stories which were sent out concerning this poor poodle marked the writers of the accounts as worthy to rank with Jules Verne in the matter of inventive genius. Column after column was written about Hector; he was described as being the very acme of doggish devilishness, and yet he was as thoroughly well behaved a poodle as ever came out of France. And so it is with "Pete." He has a countenance that would stop a clock, and although thoroughly English, has never been guilty of chewing up French ambassadors, nor has he shown the slightest disposition to ruin the clothing of American cabinet officers. Still his alleged attacks upon White House visitors will continue to be exploited unless the president and Secretary Loeb turn up more news than they have been giving out lately.
