### Men's Union Suits

If you have never worn a Union Suit, you don't know what a great summer comfort you are missing. No shirts to crawl up, no drawers to sag down, when you wear a union suit. We sell the "Superior" make, which is one of the best fitting garments made, and they are not high priced. At \$1.50 each, fine Egyptian lisle Union Suits, Superior make, long or quarter length sleeves, in colors blue or ecru, all sizes now in stock. At \$1.75 each, white lisle Union Suits, Superior make, long or quarter length sleeves; this quality is also made athletic style, sleeveless and knee length, all sizes now in stock. These are but two of the many different qualities we have. We have a good union suit at \$1.00. We also have them up to \$5.00. For summer comfort try a Superior Union Suit.

### Women's New Hosiery at Low Prices.

Black Gauze Lisle Hose with garter top, spliced heels and double soles, 35c and 50c per pair. Black Lace Lisle Hose, all over lace or lace foot patterns, many styles to select from, 40c per pair. Black Gauze Lisle Hose, hand embroidered, every shade and fine, at 35c, \$1.25, \$1.50 and \$1.75 per pair. Special in Economy Basement. Misses Fine Ribbed Cotton Hose, light weight, French foot, high spliced heels and double soles, regular 25c quality, at, per pair, 15c.

### Wash Materials for Summer Wear.

The all important factor in Wash Materials is the style. It designates the value, even more so than the quality does. See these. Arnold Swiss Appliques, 25c yard. Real Irish Dimities, 25c yard. Printed Madras, 12 1/2c, 15c, 20c yd. Tissue de Nile, 30c yard. Egyptian Tissues, 25c yard. Zephyr Ginghams, 10c, 12 1/2c, 15c, 18c, 20c, 25c, 30c, 40c, 45c yard. Silk Ginghams, 45c, 50c yard.

About one hundred dainty waists of which there is only one or two of a kind, on special sale at reduced prices for Saturday. These are bargains.

# THOMPSON BELDEN & CO

HOWARD, CORNER 16th ST. OPEN SATURDAY EVENINGS.

### MANY HAVE FIXED OPINIONS

Second Venue for Haywood Jury is Proving Almost Barren.

### ONE TALESMAN SUPPORTS ROOSEVELT

W. B. Teeter Believes Defendants Incited Riot and Are Undesirable Citizens—He is Excused for Cause.

BOISE, Idaho, May 24.—The second special venire of taxpayers in the Steuermann murder case is proving barren of men qualified to act as jurors, and unless the term is extended by the first half of them is completely reversed in the second half there must be another special venire summoned. The first half of this venire has yielded only one man who actually qualified and only one juror, who may qualify; the rest went down in succession of fixed opinion or bias of various forms. Only twenty-six of this venire remained to be summoned, and the assumption that all peremptory challenges will be used seven more jurors must be found. In the procession of the disqualified that passed through Judge Wood's court today came the first man since the trial began who qualified stands by President Roosevelt and his utterances as to Messrs. Meyer, Haywood and Pettibone. He is W. B. Teeter, a Brian, and long ago a member of the Knights of Labor. He came to the stand late in the afternoon and the state's examination barely qualified him because he had a certain amount of prejudice against labor unions or any

kind of combination designed to fix prices, was unfriendly to the Western Federation of Miners and against socialism. He made a distinction between the federation and members of the federation and between socialism and socialists, however, and finally the state passed him. Teeter agrees with Roosevelt. At several points of the examination by the defense there were indications that Teeter's answers would give cause for challenge, but he crossed all the thin ice down to the question of the letters of President Roosevelt. In answer to a question from E. F. Richardson he said that he endorsed the letter of President Roosevelt in which the prisoner was characterized as an undesirable citizen. Mr. Richardson asked a question about the czar of Russia approving the attitude of President Roosevelt, but the state excluded it with an objection. Mr. Richardson then asked the talesman directly, if he thought the prisoner had been guilty of inciting riot and was an undesirable citizen and got an affirmative answer. The court sustained the challenge of the defense, and Mr. Teeter walked the plank of bias. Juror Bedell Challenged. Early in the morning Talesman Henry Curtis qualified for the vacant seat of Juror John Orrie Cole and the defense examined and finally passed Juror John Whitlock. That opened the way for peremptory challenges. The state challenged Juror Isaac Bedell of seat No. 2, and after the proceedings halted for the day. Nineteen talesmen occupied the chair during the day and the only person who may occupy it is Finley McBean, the last man to reach it late this afternoon. He satisfied the state that he is qualified to act, and just as adjournment was ordered, passed to the hands of the defense. He is a Scotchman by birth and seems to be

open-minded on the guilt or innocence of William Haywood. The trial for the state today indicated a desire to limit the breadth of the defense's examination, but the court kept to its early purpose to allow all possible latitude and overruled all objections aimed at limitation. More women came into the court room than on any other day and at one time there were more than twenty of them in the room. But at no time was the court room crowded; the city of Boise still maintains its attitude of aloofness. The trial will be resumed at 9:30 tomorrow morning.

### RAIN GENERAL OVER STATE

(Continued from First Page.) April and the first half of this month, crops are looking fine and show but little effects from the dry spell. Wheat will probably be short in the straw, but is growing rapidly since it turned warm and wet. Oats and pastures show the worst effects from the drought and cold, but will come up here and there. HARVARD, Neb., May 24.—(Special.)—Another hard rain fell last night, making in the last three days close to 1 1/2 inches of rainfall. PHIMROSE, Neb., May 24.—(Special.)—The first rain of any consequence that has visited this section this spring fell last night. A steady downpour throughout the night, unaccompanied by wind or thunder, thoroughly soaked the ground. CAMBRIDGE, Neb., May 24.—(Special.)—Heavy showers of rain began falling here yesterday afternoon and continued until late in the night. Two inches of water fell a few miles northwest of Cambridge, while a little less than an inch fell in town. The wheat and rye, which already had an immense start, will now bring a good yield without any more moisture. Alfalfa crop will be ready to mow in a few days. NORTH LOUIS, Neb., May 24.—(Special.)—A 1,000,000 rain fell last night. While the ground was not dry, yet the rain was needed to soften the top and to give winter wheat a start. This is the second nice rain within a week. ST. PAUL, Neb., May 24.—(Special.)—Timely and copious rain fell last night and as far as can be learned was general throughout the county. The precipitation here was 1.60 inches, and in most of the other sections of the county it was as much. The south quarter of the county was covered by a pretty fair rain the night before, so the supply of precipitation has been promising condition and crops are now in. CAIRO, Neb., May 24.—(Special.)—During the last forty-eight hours this section of the country has been visited by the first real spring rainstorm. About three inches of water has fallen and the ground is thoroughly soaked. Many of the best farmers think this will insure a fair wheat crop, while others think the crop is too backward to make much of a showing at this time. About all the corn is planted and the ground is now in fine condition for a rapid growth. WAYNE, Neb., May 24.—(Special Telegram.)—A light rain fell yesterday and today a much heavier one soaked the earth in a manner that brought smiles to the faces of farmers and all citizens. Vegetation has made rapid strides as a result and crops are especially assured.

### CHILDREN'S HATS

### MORE BRIBERY INDICTMENTS

Trisco Grand Jury Returns Eighty-Nine Bills in Traction Franchise Deal.

### CALHOUN AND SCHMITZ ON THE LIST

Fifty-Six of the Bills Are Against Officials and Attorneys of the United Railroads Company.

SAN FRANCISCO, May 24.—The grand jury this evening returned bribery indictments as follows: Against President Patrick Calhoun of the United Railroads, fourteen; against assistant to the president, Thornwall Mullally, fourteen; against Attorney T. L. Ford and W. M. Abbott of the legal department, against the regular franchise each; against Mayor Eugene E. Schmitz, sixteen; against Abraham Huef, fourteen; against President Louis Glass of the Pacific States Telephone and Telegraph company, two; against Theodore V. Halsey, formerly an agent of that corporation, one. Ruef, Schmitz, Calhoun, Mullally, Ford and Abbott are charged with bribing fourteen supervisors to grant an overhead trolley franchise to the United Railroads. Schmitz is further charged with bribery in connection with the fixing of the gas company's rate and with receiving \$5,000 in the United Railroads franchise deal.

Many Previous Indictments. The indictments against Glass are additional to the eleven indictments already returned against him on the charge of bribing supervisors to grant a competitive telephone franchise. The indictment against Halsey is for the same offense. Superior Judge Coffey fixed bail in the sum of \$10,000 on each of the charges and gave the accused until 11 a. m. tomorrow to furnish bonds. It was after 6 o'clock when the grand jury adjourned from its regular meeting-place in Native Sons' hall, and went in automobiles to Judge Coffey's department of the superior court at California and Webster streets to enter the nineteen true bills. Only A. A. Moore of the United Railroads legal staff and Attorney Earl Rogers of Los Angeles, who has been especially engaged for the defense of President Calhoun and his associates, appeared for the railway corporation.

### Nearly Millions in Bonds.

The statement was made unofficially that all but \$140,000 of the entire amount of bonds, \$900,000, will be forthcoming at the appointed hour tomorrow. The United Railroads alone will have to put up for its president, assistant to the president and two attorneys, \$500,000 in securities, or \$200,000 in cash. Schmitz, in addition to \$50,000 security he has already given to secure his liberty pending the trial of the five counts of extortion brought against him and Ruef jointly, will have to put up \$100,000 in bonds. Ruef will have to put up \$100,000, but inasmuch as he now is and for more than two months has been a prisoner without any prospect of hope of release, it is understood that he will make no attempt to give bail. It is said, indeed, that under the circumstances, and in view of the fact that he turned states evidence, he prefers to remain the prisoner of Elisor Biggy. President Glass of the telephone company already has given bonds in the sum of \$50,000. He will have to put up \$20,000 more to retain his seat. Theodore Halsey has put up \$100,000 in bonds covering the eleven indictments previously found against him. He will have to put up \$10,000 additional tomorrow.

When Foreman Oliver of the grand jury filed the nineteen indictments in court he stated that these were "only a partial report from the grand jury. This is taken to mean that more indictments are to follow.

### ATTACK ON STANDARD

(Continued from First Page.) how the original Standard Oil combination was transformed into the present holding corporation. He asserted that the Standard people may have used means, but not the means intended, to take testimony to control prices of oil. He recommends that their charters be revoked and that they be ousted from the state. In his report he holds that the supreme court has the authority to make the ruling of ouster.

Attorney General Hadley filed the suit in the supreme court two years ago charging the Standard Oil company and the Republic Oil company with a conspiracy to control prices of oil and to limit and prevent competition in the oil business. Commissioner Anthony of Fredericton was appointed by the supreme court to take testimony and report his findings to the court. More than a year has been occupied in the taking of testimony. In his report to the court, Judge Anthony reviews in detail the testimony showing the organization and conduct of the companies.

### FAVORS REVOKING THE CHARTER

Commissioner Anthony Finds Oil Magnates Have Violated Missouri Law. JEFFERSON CITY, Mo., May 24.—Judge Robert A. Anthony, appointed by the supreme court of Missouri to take testimony on the suit instituted by Attorney General Hadley against the Standard Oil company, the Republic Oil company, and the Republic Oil company, charging conspiracy, today made his report to the court. His findings hold that the Standard, Waters-Pierce and Republic Oil companies entered into an agreement to control prices of oil. He recommends that their charters be revoked and that they be ousted from the state. In his report he holds that the supreme court has the authority to make the ruling of ouster.

Attorney General Hadley filed the suit in the supreme court two years ago charging the Standard Oil company and the Republic Oil company with a conspiracy to control prices of oil and to limit and prevent competition in the oil business. Commissioner Anthony of Fredericton was appointed by the supreme court to take testimony and report his findings to the court. More than a year has been occupied in the taking of testimony. In his report to the court, Judge Anthony reviews in detail the testimony showing the organization and conduct of the companies.

He reports to the court that the evidence shows that in 1901 the Standard, Waters-Pierce and Republic Oil companies entered into an agreement which continued to exist up to the time of the filing of the suit, for the purpose of fixing and controlling the prices to be paid by retail dealers for kerosene in Missouri for the products of petroleum and to limit and prevent competition in the business of buying and selling oil.

The commissioner further finds that three oil companies from 1901 up to the time of bringing the suit by the attorney general did:

"Fix and maintain the prices of refined products of petroleum sold in Missouri, consisting of coal oil, gasoline and naphtha."

"Control and limit the trade in such refined products of petroleum in the state."

"Prevent and bring about in Missouri the purchase and sale of such refined products of petroleum."

The report says that in pursuance of the agreement the oil companies prevented competition among themselves and others in Missouri, securing control of 90 per cent of the oil business, depriving the people of free, full and wholesome competition; that the oil companies misled the public into the belief that they were separate and distinct corporations, when in fact the agreement made them one corporation.

The findings of the commissioner sustain

ALL ARE OFFERED FOR CLEARANCE IN TWO LOTS  
\$25, \$27.50 and \$30 \$15.00 | \$32.50, \$37.50 and \$40 Suits at \$19.50

in toto the contents of Attorney General Hadley's petition filed with the court two years ago.

The report of Commissioner Anthony will now be reviewed by the supreme court. The court may affirm the findings of the commissioner, or it may remand the case to him with directions for further proceedings.

If the report should be affirmed and the findings of the commissioner adopted by the court, the court would have power to take from the Waters-Pierce Oil company, which is a Missouri corporation, its franchise rights as a corporation. With regard to the Standard and Republic companies, both of which are foreign corporations, the court would have power to cancel their right to do business in Missouri. The court may impose fines on the defendants.

The Waters-Pierce Oil company is a Missouri corporation, having been originally incorporated in this state in 1882. It was reorganized in 1901. The Standard Oil company of Indiana was organized in Indiana in 1889 and was licensed to do business in Missouri in 1897. The Republic Oil company is incorporated under the laws of New York. It was licensed in Missouri in 1901.

### NEBRASKA FROM DAY TO DAY

Quaint and Curious Features of Life in a Rapidly Growing State.

A good crowd turned out to the hughin' Saturday evening and the way that hughin' was indulged in by all present showed they all liked it and were experienced hands. The girls were there with their "jumpers" on and they and the boys all had a royal good time.—Wayne Herald.

Up-to-Date—In answer to an exchange's inquiry as to what has become of the old-fashioned boy whose boots used to "run over," the Alma Enterprise says he has a riding cultivator, a riding harrow, a riding hay fork; and now he wears patent leathers and the only walking he does is to his meals.—Craighton News.

Nebraska Zephyr—A curious thing happened at a farm near Thurman one day last week. The day was still, and all at once a whirlwind descended into the yard and picked up a sidewalk made of 212 plank 12 feet long and carried it for several feet, turning it end for end and upside down. The leaves in the trees standing near the walk were not ruffled by the breeze.—Randolph Enterprise.

More Work for the Editor—Miss Hazel Dimick and her grandfather, Mrs. Mary Trower, were eastbound passengers on the early train yesterday. As Hazel is the faithful compositor on the Advocate, her absence will mean a good deal about this shop, but she has earned a vacation and we trust she will enjoy it to the limit. In the meantime, the editor and wife will endeavor to do the work, alone—so please send "phone or bring in your news items.—Laurel Advocate.

Sam's Clever—Mr. Samuel Geppard has a field of corn which is up fine and it has been listed, too. He has been over it once with his listed corn tender. He says everyone laughed at him for planting so early, but the one who laughs last laughs heartiest; so now he can laugh at his neighbors who are trying to coax their corn through the dry dirt which the winds of the last few days have caused. Speaking of wind, it certainly has been blowing quite hard over around Sam's, for we saw his hired man the other day asked him what had become of his mustache, and he said the wind blew it off.—Holdrege Citizen.

Bachelors' Sorrowing Robs—Sunday morning at an early hour we observed an unusual stir about town, and at first thought, concluded it was owing to the unusual brilliancy of the sun, which broke forth from the laughing clouds in gorgeous splendor, but not feeling satisfied with this, we joined the throng and wended our way to the Methodist Episcopal church, which was already crowded. Noticing the walk from the carriage drive to the altar was newly carpeted, we entered and observed the altar covered with a profusion of bouquets artistically arranged, from choice and rare varieties of flowers. Sitting near by was Rev. M. Tingley, who was evidently intent in thoughts not altogether in the usual Sunday channels. We waited not long, for the sound of carriage wheels were heard at the doors, which few open, when

the bacheloristic form of Will D. Haller, accompanied by Miss Mary Scott, followed by John B. Herman and Miss Madge Eldridge, walked up the broad aisle escorting Chris B. Herman, and leaning heavily on his arm Miss Mary McLain, on whom all eyes were centered. A solemn stillness prevailed, broken only by the sobs of sorrowing bachelors, when the minister rose, and in the twinkling of an eye they were pronounced man and wife. The bridal party immediately took carriages and escorted the newly married couple to Omaha, where they next morning took the train for New York. The good wishes and congratulations of a host of friends of both Chris and his bride accompany them in their new found estate.—Blair Democrat.

Florida Has Anti-Bucket Shop Bill. TALLAHASSEE, Fla., May 23.—The anti-bucket shop bill, which originated in the house, was passed by the senate yesterday and will become a law upon receiving the signature of the governor.

If you have anything to trade advertise it in the For Exchange columns of The Bee. Want Ad page.
