BRANDEIS—3rd Floor—New Store**

NEW BANK IN SOUTH OMAHA

Institution Will Be Opened by L. M. Lord
of Glenwood, Ia.

SITE AT TWENTY-FOURTH AND N STREETS

President of Mills County Bank Se-
cures Ten-Year Lease on Prop-
erty Owned by Sir Horace
Plunkett.

The McDonald block, a three-story brick
store and office building at the northwest
corner of Twenty-fourth and N streets,
South Omaha, has been leased by L. M.
Lord, president of the Mills County bank,
at Glenwood, Ia., who will establish a new
bank in the corner store after extensive
improvements have been made to the build-
ing.

The building is situated on the most
prominent corner in South Omaha and is
now occupied by Schaefer's drug store
and the offices of many physicians and
lawyers. It is owned by Sir Horace Plunk-
ett of London, whose real estate interests
in Omaha and South Omaha are extensive
and are under the care of Conrad Young,
who executed the lease on behalf of Sir
Horace.

Howard Badgley and Conrad Young, rep-
resenting the property owners, leased the
building for ten years to Mr. Lord,
who will install a steam heating plant
in the building and put in an entire
new front to the building after the store
on the first floor has been completely re-
modeled for banking purposes.
It is not definitely decided whether the
new bank will be a state, savings or national
bank, but it will be established as
soon as possession is given of the corner
store by the proprietor of the drug store.

Excavating for Warehouse.
Excavating for the new warehouse for
the Paxton & Gallagher company, Monday
and Jones streets on the site of the building
which collapsed about two weeks ago
will be begun Monday morning by the con-
tractors, the Capital City Brick and Pipe
company, and the work of raising the old
four-story building adjoining the lot on
the west will also be begun at that time.
The five-story brick building which was
practically ruined by the collapse has been
entirely removed from the site, but the type
of the foundations for the new warehouse
has not been determined. The site is on
marshy, boggy ground and it may prove
necessary to build the new eight-story
warehouse on piles.

Plans for the new warehouse, which will
be of mill construction similar to that of
the new building of the Byrne-Hammer
company, are being prepared by Thomas
R. Kimball, architect.

The Capital City Brick and Pipe com-
pany also will begin excavating Monday
morning for the new five-story addition to
the Henshaw hotel on the site at 151 Farnam
street, from which the old frame
buildings have been removed. The new
hotel addition will be five stories of solid
concrete construction, and a one-story ad-
dition will be added to the present hotel
building. The new building will be con-
structed as to admit of the later addition
of three more stories.

Four Blocks Sold in Dundee.

Four blocks of vacant property in West
Dundee have been placed on the market
by the Dundee Realty company through
George & Co. for immediate sale. The
tract contains about fifty full size lots from
Cass to Burt streets, between Fifty-first
and Fifty-second streets, and is only one
or two blocks from the West Farnam
street car line. The lots have all been
graded to the established grade, cement
sidewalks have been laid, many shade trees
planted and sewer, water and gas pipes
are now being installed. The lots are to
be sold on the easy payment plan after
one-fourth of the purchase price has been
paid, and many inquiries for the new tract
have been received already.

Many improvements are being made on
the West Dodge street road and a number
of fine country residences are projected for
immediate construction. E. M. Gibson has
let contracts for the construction of a
\$25,000 residence; contractors have laid the
foundations and drilled the well for a fine
residence for C. S. Hayward, and other
homes will be built in the vicinity this
summer by L. O. Farley and others. A
winding boulevard from the Dodge street
road to Benson is being completed.

Contract for New Plant.
Contracts have been let by the Omaha
Electric Light & Power company to
Thomas Hurd, contractor, for the erection
of a small building for a transformation
plant near Benson. The new building will
cost about \$100,000, being constructed one
story in height of pressed brick, and a
basement of cement, on a site near the
northeast corner of the grounds of the
Omaha Country club. The new plant will
be used to supply lighting current to the
citizens of Benson and vicinity.

The contract for the erection of a new
car barn at Twenty-seventh and LeBo
streets for the Omaha & Council Bluffs
Street Railway company has been let to

the Capital City Brick and Pipe company
on a percentage basis, and construction
will be begun within the next week. The
new car barn will be two stories in height,
of pressed brick exterior and supported
by beams of reinforced concrete, which
will be installed under the Kahn system
of reinforcement.

REBUKE TO EVENING PINKLET

John R. Webster Denounces Its Per-
version of Words Uttered by
Dr. Miller.

"It is an outrage that so estimable a citi-
zen as Dr. George L. Miller should be ex-
posed to the poisoned arrows of a publi-
cation called a newspaper," declared John
R. Webster, general manager of the Omaha
Bridge & Terminal railway.
He referred to an article published in
the Evening Pinklet Tuesday evening re-
garding the doctor's speech before the city
council Monday afternoon. The Pinklet
said: "Dr. Miller told the city council
he wouldn't give one self-respecting dog
for a thousand children reared in poverty
and hardship."
"Of course, any one with an ounce of
intellect would know that a man like Dr.
Miller wouldn't think of making such a
statement," said Mr. Webster. "I heard
the speech myself. What he did say was
that a St. Bernard dog, for example, was
of more advantage to us than any
number of degenerate children born in
the midst of crime and doomed to grow
up a burden to themselves and to the com-
munity. When he made the statement he
referred to such degenerates as the man
in the Douglas county jail now who mur-
dered Mr. and Mrs. Copley; such men as
murdered the street car conductor in
Omaha, and such wretches as are lynched
in the south from time to time for the
crimes to which their degenerate natures
have driven them.

"The damage which may have been done
to a leading citizen by the silly publication
in the paper referred to is tempered by
the fact that everything in that paper is
taken with several ounces of salt by any
intelligent reader who might see it."

Chamberlain's Colic, Cholera and Diar-
rhea Remedy is sure to be needed soon.

Can You Afford

To invite your clients into an office which is not space with
the present times? You know your own feelings when
obliged to go in an office building where you have to wait
for the elevator and then crowd in with more people than the
elevator car can accommodate, to be left off in a dark, unkempt
hallway and have to hunt around in the dark for the party
wanted.

The Bee Building

Offers you space which is in every way desirable. The halls
are endless and well lighted, and the rooms are all plainly
numbered, the even numbers outside and odd numbers on the
court. The elevators are roomy and run with regularity.

If you are considering locating a new office or contem-
plate a move we would be pleased to have you call and let us
show you around the building. We make no extra charge for
electric light nor janitor service.
