#### E. H. HARRIMAN IS IMMUNE

Cabinet Decides He Cannot Be Prosecuted Because of Testimony.

CONFERENCE AT WHITE HOUSE

It Was Decided to Begin Prosecutton of Anthractte Coal Roads in Philadelphia Next

Week.

WASHINGTON, June 7 .- That E. H. Harriman, the railroad magnate, is immune from criminal prosecution as the result of his testimony before the Interstate Commerce commission in New York recently, that the question of the prosecution of bituminous coal carrying railroads should be left in the hands of the attorney general and that prosecution of the anthracite coal roads will begin in Philadelphia probably next week, were conclusions reached at a notable conference held at the White House tonight. The Harriman case and the cases of the coal carrying roads were discussed for three hours by President Roosevelt, five members of the cabinet, two members of the Interstate

for the government. Following the general conference Attorney General Bonaparte remained with the president to discuss the so-called Harvester trust. It is thought not unlikely that the question of the prosecution of that organisation will be left in the attorney general's

Commerce commission and special counsel

Many Subjects Discussed. Those who participated were President Roosevelt, Secretary of State Root, Secretary of War Taft, Secretary of the Treasury Cortelyou, Secretary of the Interior Garfield, Attorney General Bonaparte, Interstate Commerce Commissioners Knappand Lane and Frank B. Kellogg of Minnesota, special counsel for the government. The conference began shortly after i o'clock. Features of the Harriman railroad merger care, the charges relating to the coal carrying railroads, the so-called Har-

formulate definite plans on the whole subjoct, preliminary to the president's departure for his summer vacation. The conference adjourned a few minutes before midnight. Secretary Taft on leaving announced that Secretary Loeb would issue a statement on the subject. Special Counsel Kellogg, who walked from the White House to his hotel, declined to state what had transpired at the meeting and referred all his questioners to the statement which Mr. Loeb was to promulgate.

Secretary Loeb at midnight issued this statement anent tonight's cabinet meeting: "The conference was held for the purpose of affording ample discussion conerning the matters which have been under investigation by the Interstate Commerce commission. The Interstate Commerce commission has not yet formulated its report and all of the discussion was of a purely preliminary kind.- After a report has been made the attorney general will.

of course, carefully consider it." Conference During the Day. Milton D. Purdy, an assistant to the attorney general, to whom has been turned over all the evidence in the alleged discrimination by the anthracite coal-carrying roads against independent miners, was an early caller at the White House today. He would not discuss the interview with the president, Later Edwin W. Sims, United States district attorney at Chicago, was with the president. Mr. Sims is here for the purpose of conferring with officials regarding the charges to be brought before the federal grand jury which meets in Chl-cago next Tuesday. There are said to be several cases of rebates by railroads that may be brought to the attention of that body. There also has been some talk of proceedings against the so-called Harvester trust. Mr. Sims would not say just what

After leaving the White House, District Attorney Sims was in conference with Attorney General Bonaparte at the Department of Justice for more than an hour. He refused to discuss this conference and the only comment Mr. Bonaparte would make was: "The conference related to matters pending in Mr. Sims' office at Chicago.'

Reconsignment Charges Stand. Two decisions were announced by the Inrelating to through rates on grain, flour and feed in carloads from the west to east-

Commissioner Clark rendered the opinion

brought by the Board of Trade of Kansas City, Mo., against the Chicago, Burlington & Quincy, the Missouri Pacific, the Atchison, Topeka & Santa Fe and the Rock Island lines. The complaint was that the reconsignment charge of \$2 a car on grain shipped to Kansas City and thence to other markets was unjust, as compared with re-consigning practices at St. Louis and other points. The evidence disclosed the facts that the cars were held at Kansas City for forty-eight hours without demurrage charges-a valuable privilege to Kansas City dealers-and that the carriers were at additional expense in withholding the cars from other shipments. Upon the whole record the commission holds that the reconsignment privilege is apparently wholly in the interest of the grain dealers and of Kansas City as a market and that the reconsignment charge of \$2 per car as applied by the carriers is not excessive, unjust or discriminatory.

Administration of Land Laws. President Roosevelt had a conference today with Secretaries Wilson and Garfield, Attorney General Bonaparte and Mr. Ballinger, the commissioner of the general land office. It was explained that the meeting touched upon the administrative features of the land laws and did not affect the policy of the administration toward the public lands.

Later in the month Secretary Garfield. Mr. Ballinger, Gifford Pinchot, chief forester, and Engineer Newell of the reclamation service are going to Denver to attend the public land convention there from the 18th to the 20th of June.
