NEBRASKA FROM DAY TO DAY

Grand and Curious Features of Life in a Rapidly Growing State.

Fireworks at the drug store—Clarkson Herald.

Mr. Oscar Stairs has been staying down at William Hachow's the biggest part of his time, but he is boarding at home—Carlson Leader.

Do you know?—That the season of the year has arrived when all we drink red lemonade, swell up like a poisoned pup and go home and tell our wives that we overworked?—Plainview News.

J. H. Dundas, Philanthropist—Colonel Pete Brown, who has owned and edited the Nebraska City Press ever since the first of that historic period, when the morning stars sang from the same book, has disposed of the plant and thrown down the pen. Mr. Brown met with a great misfortune some months since. An uncle died and left to him property to the value of \$75,000. Too bad! The uncle should have known that \$75,000 would cause most any editor to drop his pen. However, it would take more than that to induce this editor to retire. If he should receive one tenth that amount of money he would not let it go. He has a few dollars worth of office fixtures and go on with the work of editing and publishing the Granger, pausing frequently to write a check for some one or more of his fortunate friends. He would not build a library, either. He would just step on a chair, he would just help them in need.—Auburn Granger.

This Should Land Them—We have bills made out all ready for over 300 people in and around Florence, who owe us \$1 each for the Horn for the coming year. We don't like to go out with a shotgun and hold a man up for a dollar, but we may have to do it yet, for dollars are getting scarce around our place. It has been said by us before that we can get every dollar we need except dollars and cents, and also we need nearly everything else but money. We would make that, too, if we were not afraid of what our "Uncle Sam" might do or say in regard to it. But all joking aside, we do wish some one we may succeed in getting from them which they now owe for the paper. If they don't want the paper, will they please stop reading it at our expense. We can't print a paper forever on wind; the wind don't blow enough, not enough to shake down enough dollars to buy a square meal with some things.—Florence Item.

Quite Old Middle-aged—Last Thursday Mayor Haller tendered George DeTemple the position of councilman in the Third ward made vacant by the resignation of John E. Schilling. Now, everybody knows that George wants the job—that he has been hungry for years for anything from assessor to police judge, and now holds the office of justice of the peace. He was a job, but is trying to impress people. Just how it should be done and they are not afraid to step out and tell even a councilman how he should act. Mr. DeTemple is small, but makes me think more of a wildcat than I am willing to admit, and his disposition is somewhat in line with his looks and the impression he gives. He is anxious to get into the fray. He hasn't as yet come out square-footed and said yes. Up to this writing he has acted very old maidish and has been gasping. "This is so sudden!"—Blair Pilot.

Higher Price for Telephones. NORTH PLATTE, Neb., June 27.—(Special.)—Yesterday the North Platte Telephone company, whose plant in this city was recently purchased by Mr. Warner

WATCH COFFEE

Any brain worker who depends on thought for his success in life, uses up energy, by brain work, a varying amount of the delicate particles of phosphate of potash and albumen of which the brain and nerve centers are composed. The fine microscopic particles of phosphate of potash are found in quantities in the pores of the skin after the brain has been used actively. This must be replaced from food, or brain fog and nervous prostration set in. This breaking down of the little cells each day, from brain work alone, is a natural process, and the cells can readily be rebuilt from the right sort of food, if the system is not interfered with by drugs, but if an increased amount of cells are broken down by the use of coffee, trouble then results. Frequently it first shows in dyspepsia, lack of power of the bowels to operate properly, palpitation of the heart, or some other lack of vitality and healthy vigor. There is but one thing for a sensible man or woman to do—quit coffee absolutely. "Hired to die," you say. Take up Postum Food Coffee, use it regularly, have it well made, so it tastes good. You will find a well defined, unmistakable change in your health, and there's a reason for it. You have become free from the breaking down force of coffee, and on the other hand, you are taking a powerful, nourishing, liquid food which quickly rebuilds the new cells. These are facts—ground facts, ready for any one to prove to their own satisfaction by actual use. Postum is used by brain workers all over the world. "Hired to die," you say. Take up Postum Food Coffee, use it regularly, have it well made, so it tastes good. You will find a well defined, unmistakable change in your health, and there's a reason for it.

BOOSTING RATE ON CREAM

Western Traffic Association Files Application with Commission.

HEARING SET FOR AUGUST SIX

Missouri Pacific Attacks Two-Cent Passenger Law on Ground Rate is Not Remunerative and Road Does Not Pay.

(From a Staff Correspondent.)

LINCOLN, June 27.—(Special Telegram.)—Representatives of the Western Traffic Association made application to the State Railway commission this afternoon for a permit to increase the rate on cream. A hearing was set for August 6, at which both the buyers and shippers of cream are invited to meet the representatives of the association before the commission. G. P. Stebbins, John Dewitt and B. W. Redfern represented the traffic association today and they argued that the present low rate on cream had a tendency to decrease the number of small creameries in Nebraska and to build up the large creameries at central points by reason of the fact that the rate on cream is so low it can be bought up by the Creamery trust. As proof of their argument they showed that in 1900 there were ninety-three creameries in the state and now there are only forty, while in Minnesota, where the rate is higher, there were 596 creameries in 1900 and 71 now.

J. G. Beaschin of Aurora, a chicken-buyer, complained to the commission that the St. Joseph Grand Island railway discriminated against him in the shipment of poultry in favor of Armour and Swift by allowing these firms to load a car in transit at the through rate, while if he did that, he had to pay the local rates. He formerly had the privilege, he said, for some months it had been denied him.

Missouri Pacific Makes Showing. The Missouri Pacific railroad went to the Union Pacific and Rock Island roads one better when it got into the federal court this afternoon with a cross-petition asking for an injunction against putting into effect the legislation enacted by the state legislature by showing that it is actually losing money and can not afford to cut down any charges. The financial statement submitted follows:

Table with financial data: Freight earnings, Mail earnings, Express, Miscellaneous earnings, Total, Operating expenses, Taxes, Rentals, Total, Loans, etc.

The company repeats the orders issued by the railway commission, and says to obey them is burdensome and too much trouble, especially that one ordering a report on cars and posting in every depot the rates from everywhere. Burlington to File Schedule. Another day has gone by and not a railroad has asked permission to reduce the rate on buttermilk or sand, but the Burlington came in with a request to make a special rate on clay from Emerald to Lincoln. Whether this rate is provided for the numerous candy kitchens in Lincoln or to immense building activity is not stated in the request.

The Burlington railroad also announced to the commission that it intended to file by July 4 a schedule of rates in conformity with the Interstate Commerce act as provided for by the Aldrich freight rate bill. Under the law the rates go into effect on July 5 and this concession on the part of the Burlington to follow the law, at least insofar as it relates to filing rate schedules, has encouraged the commission to believe that the railroad will not put any more lawless 1 1/2 mile road until after the federal court passes on the counter application for an injunction to prevent the state from putting into effect any of the railroad legislation enacted by the recent legislature.

Conditions of State Banks. According to the statement of the banks of Nebraska at the close of business May 25, the state was never in better financial condition than at that time. There were 60 banks reporting, an increase of thirty-five during the year. Since May 15, 1906 the capital has increased \$700,000, the deposits, \$1,400,000, and the loans, \$547,515.75. Since the last report was made, February 25, the capital invested has increased \$35,000; the deposits have increased \$1,700,131.39 and the loans have increased \$469,008.00. The reserve at this time is 34 per cent, while the legal requirement is only 16 per cent. Following is the statement in detail:

Table with financial data: Loans and discounts, Overdrafts, Bonds, Due from national, state and private banks and bankers, etc.

Frank L. Boyd, who gave as his address the Her Grand hotel, was arrested by Officers Patullo and Davis Wednesday afternoon as a forger suspect. It is believed by the police that Boyd is the real culprit in the case for which Jim McAvin, of Eighteenth and Center streets, was arrested by mistake. McAvin closely resembled a man who passed several checks on the Drexel shoe store and the Regent shoe store and he was held for the crime. Thursday morning, however, he was released. The five checks had been taken from the books of the Kimball Automobile company. One of them was for \$12 and payable to J. Mann. On the complaint of Hans P. Hansen, a saloon keeper at Twenty-sixth and Leavenworth streets, Henry Bertrand was arrested Wednesday for forgery. Hansen alleges that Bertrand attempted to pass a bogus check for \$75. In police court Thursday morning he waived preliminary examination and was bound over to the district court under bonds of \$50.
