The State Labor bureau is receiving reports from county assessors on the acreage of corn and wheat and other products, but so few reports have come in so far that it is impossible to make any kind of an estimate on the acreage. The reports of shipments of surplus products from the railroad and express companies show a heavier shipment of wheat and oats and a lower shipment of corn last year than the year before. My doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, "Try them if you like, but I do not think they will do any good." At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Pills. After the first two treatments the welling went down, and in two months my leg was cured and the new skin came on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use it for his own patients. I used two cakes of Cuticura Soap, three boxes of Ointment, and five bottles of Resolvent, and I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life.
