Wood Market.

BOSTON, Mass., July 17.—WOOL—Market is active and firm and the tendency is more in favor of sellers than for a long time. Advances on last week have been obtained on transactions in certain grades of fleeces. There is a brisk demand for fine delaine on the part of the few mills using it, while half-blood and three-eighths unwashed fleeces are also in demand. The higher prices quoted are not general, but the market is firm, and the feeling throughout the trade is cheerful. The competition between eastern merchants has been keen for the best clips in the various sections of the west. Further large transactions are reported in Ohio and Pennsylvania fleeces in the nature of contracts for wool to arrive. The demand for the finer grades of territory wool is good and the volume of business is large. Staple wools are still in the strongest position, meeting with an excellent inquiry from worsted manufacturers. CATTLE—There was a very decent run of cattle this morning and the receipts consisted principally of beef steers, with a small sprinkling of cows and feeders. In spite of the fact that early advances from Cincago were discouraging, the mar-ket at this point opened early and active, with desirable kinds of cattle selling very readily at steady to strong prices. The general market, though, was Fig. lower, with heavy hogs about oc lower. Instead of improving the market eased off and closed slow and duli and as much as 5c lower all round. SHEEP—The receipts this morning were quite liberal, although about half of the number reported did not arrive until late. The market did not show very much day. The demand was sufficiently brisk to effect an early clearance. Fair western ewes sold at \$4.85, with six cars of Idaho wethers at \$5.65. It was, in fact, a steady market and prices paid were satisfactory to all concerned.

The South Omaha sheep market has been in a good healthy condition for a long time back and the moderate receipts have met ready sale each day.
