close to 50c higher than the low time ten days ago. Grass cows as usual this season cays ago. Grass cows as usual this season of the year, have been weak and the feeling is that with more liberal receipts of rangers, the market on that kind is liable to sell off most any day. As has been the case with beef steers, the trade in cows and heifers has been very satisfactory all the week, the buying demand being active and the trade in a good healthy condition from day to day.

from day to day.

The receipts of stockers and feeders have The receipts of stockers and feeders have been very moderate every day this week, but it is still early to expect very many cattle of that description and the demand as usual, has not been very heavy. Still, such good feeders as have been coming have met with very ready saie all the week and are generally a little stronger than a week ago. Common inferior grades have been a little sticky, the inquiry for that kind being rather limited.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, July 20.—The marked improved report in the crop situation in the northern part of this country caused a weak marked in wheat today, and prices declined sharpiy. At the close September wheat was 1% 11% tower. Corn was down % 2% c. Oats were off 16% c. Provisions were 1% to the lower.

Oats were off 167 to Provisions were 2% to 100 lower.

The wheat market save for a slight firmness at the immediate opening, due to firm cables, was weak all day. Throughout the session tired and disguised longs dumped lines of wheat on the market. At no time during the session was the support able to meet the selling pressure. So many reports were received from the northwest telling of the improved and improving condition of the crop that many holders were fearful of carrying their wheat over Sunday. From the southwest came reports of clear weather, and a preligion of a renewal of offerings of cash wheat. This added to the weakness and the strike at the ore shipping ports was also a weakening factor, it being thought in some quarters that it portended a tie up in the lake shipping. The close found the market weak. September wheat opened he lower weak. September wheat opened hic lower is to hic higher, at \$25, to \$3c, sold between \$15 and \$5c and closed at \$14,5911.c. (Clearances of wheat and flour were equal to \$25,000 bushels. Primary receipts were

rear.

The weakness of the wheat market and the continued fine weather for the growing crop produced weakness in the corn market, which lasted throughout the day. September corn opened a shade to 160% colower at 52% to 52%, sold between 52 and 52% and closed weak at 52%. Local receipts were 234 cars with 22 of contract grade.
