"Only 3½ of Alcohol"

Gund's Peerless Beer

is not enough to injure anyone, yet sufficient to naturally stimulate the regular flow of the gastric fluids within the stomach, so essential to the proper assimilation of solid foods. Professor Dr. E. Struve, Berlin, Germany, says: "Owing to the small amount of alcohol in beer the same cannot be called an alcoholic beverage in the usual sense of these words."

Peerless Beer is an effervescent wholesome and fully matured beer of commanding superiority. Because of this it received the Gold Medal at St. Louis Exposition in 1904 and at Paris in 1900. It is a sparkling amber beer with splendid fragrance, delightful, snappy flavor and creamy foam. It has been brewed for 50 years by the famous Gund Natural Process that preserves the life of the malt.

Peerless contains only the choicest ingredients—the essential tonic juices of fine Bohemian hops, special yeast of our own cultivation, water flowing from a well in granite rock and the malted extract of rich, plump and sound Northwestern barley. Bottled at the home plant only. Sold in all reputable hotels, cafes, restaurants, etc. Ask "the man behind the bar," or buy a case delivered at your home. For family use no beer excels Peerless. Little beyond collecting the money subscribed for the building has been done lately by the officers and committees in charge, and it is doubtful if any attempt will be made to acquire a site before Mr Curtis comes here.

Up to date the railroads, the heads of which were called upon by the committee in Chicago, have not signified any willingness to contribute, and the International Harvester company has written the committee that it cannot subscribe to the project. It is claimed that the official, unable to

The supposition is that the check when turned in by the agent is turned back to the official without ever being cashed.

There is no question but the subterfuge is a violation of the anti-pass law, which provides that no free pass or ticket shall puts the penalty alike on the persons accepting "free transportation" over the road. The check method, it is claimed, is certainly free transportation in every sense of the word.
