16th and Douglas Streets.

The extreme hot weather is now on and will last several months.

Cold Storage

Is the thing necessary to keep the housewife good humored.

No more tainted milk, soft butter and nice cold meats going to waste. Ice is cheap and never was of finer quality. The Cold Storage keeps it cheap. The walls are lined with asbestos on both sides and a solid packing of mineral wool between. Mr. Hurd's patented glass trap is only used in the Cold Storage. The white enamel will not chip nor scale, get soft, nor carry an odor. The system of refrigeration is a natural one; cold dry air continuously circulating. The result, the air is never dead, but is sweet and will not carry taint. No other is made like it.

We sell them on easy monthly payments at a cut price for cash.

HOPS WE USE in Storz BLUE RIBBON BOTTLED BEER

are imported by us direct from Saaz, Bohemia. We get the choicest pickings of these, the world's most famous hops. Our European representative, Mr. J. K. Storz, personally selects our requirements each season, right at the hop vineyards.

It is the use of such excellent hops that imparts to STORZ BEER an exquisite aroma and tonic strength that distinctly marks it as a superior brew. It costs you no more than ordinary beer. Be sure you order STORZ.
