MONEY TO RESUME WORK *********** Loans Sought by Harriman to Take

Up Improvements. SUCH ARE REPORTS FROM EAST

Union Pacific, They Say, Has Excellent Opportunities for Investment, but Cannot Be Forced Into the Market.

advices from New York are that the "Union Pacific and Southern Pacific are making no secret of the fact that they are in the market for money with which to continue improvements, many of which were started some time ago and on which work was stopped last fall when the financial stringency came. In commenting on

clai stringency came. In commenting on the situation the Wall Street Journal says: The position of the Union Pacific is such that it cannot be forced into the money market to borrow capital on unfavorable and it is a question merely of awaiting the proper psychological opportunity for bring-ing forth a capital plun. Everybody who speaks anthoritatively on Union Pacific ai-them adds that here is an indefinite leeway of time in which to raise it. Another homaker infamately interested in the situa-tion says. The opportunity afforded by union Pacific for the investment of new capital are very attractive. The company is in a position to borrow capital on any reasonable terms and make fit earn three or four times its cost. So far as I know, a plan has yet to be agreed upon for rais-unit conditions are favorable.

Local representatives of the Harriman lines profess anxiety to resume work and Julius Kruttschnitt, director of maintenance and ways of the Harriman lines while in Omaha a short time ago said that the Union Pacific had a vast amount of work it wants to do as soon as the money ran be raised. The Topeks & Northwestern In nearly completed and waiting for the order to resume work. The Lane Cut-Off is being completed.

Live Stock Industry in West. The passenger department of the Union Pacific has issued a live stock bulletin to show the growth of the live stock indus-* try of the western country, since the completion of the Union Pacific road in 1869 to the present. In January, 1868, there were \$9,729,309 farm animals in the United States, with a farm value of \$1,527,704,029 in depreciated money, the resumption of specie payments not taking effect until January 1, 1879. The report shows that in 1907 in the states and territories tributary to the Union Pacific there were 107,333,000 animals at a farm value of \$1,830,702.000 in gold. The total number in the United States in 1907 had risen to 205,843,000, with a farm value of \$4,321,330,000. A comparison of four of the leading west-

ern states at the present time with ten years ago shows:

Increase in Increase *sebranka* The report shows that in most states mules are most valuable of all farm animals. In Nebraska mules are worth \$102, horses \$\$7, milch cows \$28.50 and cattle \$20. IF a so-called "\$300 piano" is offered for sale at \$148 is it not very probable that the special sale price represents its retail value?

IF \$148 is then its retail value, why should it be sold at that price say for ten days only, and \$300 the balance of the time. This, if so, would represent a tremendous loss; then, again, how would the fellow feel who was compelled to pay \$300?

IF you are offered for \$148 a piano not worth more than \$148, where is the special inducement?

Our regular price on the so-called \$300 piano is \$150.00. Our regular price on the so-called \$350 piano is \$175.00.

The following list are some of the well-known makes that can be seen on our floors:

-	Chickering &	Sons,	Boston,	Ivers &	Pond,	Everett,
i) s	Starr,	Packard,		Sterling,	Kurtzman,	
	Kohle	r & (Campbell,	Harvard,	Richmond	

Each piano has gained a favorable verdict in the Court of Last Resort.

PUBLIC OPINION

Every make can be absolutely relied upon. No greater array of fine pianos can be seen on any floor, and our prices are made consistent with the quality they represent. Sold on Payments if desired.
