Going to Move Your Office?

If you are thinking of moving, now is the time to make your selection of offices. Most people wait until May or June and then find very few, from which to choose. We have one or two large offices and several handsome small offices.

THE BEE BUILDING

has an organization built upon many years of experience. It has its own electric lighting plant and maintains a corps of competent engineers and mechanics to keep the mechanical and electrical service of the building in good order. The building is in perfect repair. It has all the advantages of a brand new building, and has none of its disadvantages. The janitors and elevator men are well trained, courteous and accommodating. In charge of the whole building is a superintendent, whose office it is to keep this organization constantly at the service of tenants.

Now is a good time to see if we have what you want in the way of office accommodations. For office space apply to

R. W. BAKER, Supt. Room 105, Bee Building.
