ITENS WILL ENLARGE PLANT

and Capacity.

CONFERRING WITH ARCHITECTS

Company Will Make the Plant Thoroughly an Omaha Institution, Employing Omaha Help in All the Departments.

Less than three weeks after deciding to ocate a large cracker factory in Omaha L. lien & Sons have announced that the outlook for securing business from Omaha justifies the enlargement of original plans and the capital stock will be increased from \$100,000 to \$150,000 and the number of workmen employed from sixty to at least

60 at the start. J. J. Iten, president of the Clinton com pany, is in Omaha working with Architects Fisher & Laurie on plans for remodeling the building at Twelfth and Jones streets, which the company has

bought for \$50,000. Within a short time articles of incorporation will be filed authorizing the company to do business under the name of the Omaha Biscuit company, with J. J. Iten as president. Mr. Iten will move to Omaha to make his home as soon as he can se-I cure a sultable residence.

The work of putting in the Iron and steel work to support the ovens will begin at once. The building is now occupied by the Creamery Package Manufacturing company, but the two top stories, where the cracker company will need to do the first work, have been vacated that the ovens may be placed in the building. Mr. Iten said the building was in excellent condition and would need but little repair work. It is the plan of the new company to make the factory thoroughly an Omaha institution. Though Iten crackers are well known to the trade, the biscuit made in Omaha will be known as "Omaha" brand and every cracker will bear the imprint, as well as all the fancy biscuit on which it is possible to place a brand.

Want to Buy Better Water. "We are already figuring with local boxmakers to manufacture our packages,' said Mr. Iten. "We will be glad if Omaha millers can make our flour. We want to buy everything we use in Omaha, though we would like to be able to buy better water than we can get here.

"As for our factory help, we will employ nearly thirty-five of the workmen who were working in the factory of the National Biscuit company which was closed down here. I held conferences Wednesday with almost all the workmen who were thrown out of employment by the National people. They are as good a class of workers as I ever met and will all be given

"Our factory will be one of the most modern in the United States and we are making preparations to give our employes every convenience. We will install a laundry and furnish our workers with white suits and jackets.

"One of the first things which will be installed in the factory will be a complete ventilating system which will wash all the air admitted to the building, keeping it cool and comfortable even in the summer time. Every room where the help is hanin such a way that they will not suffer on the boards that night." from perspiration."

Speaking of the possibility of complying with the pure food laws of Nebraska, bepany shut down the factory in Omaha, Mr. Iten said:

food laws are good laws and any honorable manufacturer can comply with them ! Every package we sell will comply with the laws carton."

UPDIKE TO MAKE CRACKER FLOUR lumbus Tribune. Omaha Millers Propose to Turn Out

is made from a soft Illinois or Missouri wheat. It is necessary to bake all the moisture from the crackers and the hard wheat can never be baked out, according to cracker manufacturers. While the flour. made in Omaha, at present, is of the highest grade for bread and bakery purposes,

Clarence and Pearl Hester, clairvoyants morning on a charge of securing \$2,000 on false pretenses from Mrs. Anna offerman, a boarding house keeper of South Omaha, as to his plans for the coming year. Pa has not as yet tried to stir up to Heaters are said by the city detectives who handled the case to have worked the old trick of shifting boxes. Mrs. Offerman placed \$2,000 cash in a tin box and on top of the money placed a compass. Then the box was locked up in a safe in her home. When she opened the oox two weeks later to see the direction in which the hand of the compass pointed, which was to be the direction where \$30,000 treasure lay hidden, the money was not there, but in its place a chunk of lead. The clairvoyants had left the city. They were arrested in Buffalo, whither Mrs. Offerman went and identified them, after which they were brought back.

Senders is still holding forth in his Ten-nessee home and sending no word to Omaha as to his plans for the coming year. Pa has not as yet tried to stir up the little southpaw, as it is well understoom the lead. Heat the little southpaw as it is well unders were arraigned in county court Thursday
