ITALIANS FLEE FOR HELP

Four Men Say Americans Run Them Out of Bloomington.

ONE OF THEIR PARTY MISSING

Appeal to Burlington for Redress and May Take Up Matter with the State Authorities at Lincoln.

Bruno Sabiano, Charles Sabiano, Joseph Puerio and Tony Tucci, Italians, arrived in Omaha Thursday night from Bloomington, Neb., as fugitives from the wrath of a mob of railroad section hands who resented their employment on the railroad in that section. Another member of the party, Joseph Dodaro, who started in the flight from the mob with them, is missing, and they fear he has been foully dealt with. They were members of a party of twenty engaged by an employment agent of the Burlington railroad at Chicago on construction work in southwestern Nebraska. The entire party left Chicago Saturday and arrived at Oxford Monday and slept in the depot at Oxford that night. The next morning the Italians reported to a representative of the railroad company at that point, who told them to go to work Wednesday. The Italians engaged Simon Mancuso of Omaha as their agent and interpreter and

Mr. Mancuso says he has taken up the matter with the Burlington through G. W. Loomis, assistant to the general manager, and has received a promise of redress. He contemplated action with the state authorities.

Mr. Mancuso says the men are from Calabria, his section of Europe, and have been in this country about three years, that they are quiet and inoffensive.

Simon Mancuso relates this story for his countrymen: "They remained another night at Oxford, sleeping in the depot, and Wednesday morning went to Bloomington, under instructions of the railroad representatives to go to work. Two of the party were left at Oxford to work there. They arrived at Bloomington Wednesday morning and were assigned to a shanty car as their quarters, which they proceeded to fix up, intending to begin work Thursday morning.

Four Strangers After Them. "About 7 o'clock Wednesday evening four strangers appeared at the bunk car and asked the Italians what they had come there for and began to denounce them as an importation of foreigners coming out there to work for less wages than the regular sections hands were then receiving, which was \$1.35 per day.

"They were unable to speak English, but managed to make the men understand that they had contracted to work for \$1.40 per day. They were told to leave during the night and never came back. They were badly frightened and within fifteen or twenty minutes after the four men left the car, a crowd of forty or fifty men sur-

rounded the bunk car and began stoning it and shooting at it. The Italians were completely terrorized and broke pell mell out of the bunk car and dispersed in all directions. The two Sabiano brothers, Puerio, Tucci and Dodaro fled together. The last they saw of Dodaro he was running toward the station for protection. Considerable shooting was going on in the meanwhile, but they do not know that anyone was hurt. None of the Italians was armed in any manner. The four men ran down the track toward a long bridge, and crossing it in the darkness, hid in an adjacent hay stack for the night. While they were hid near the bridge they overheard some of their pursuers making threats which they understood meant that they would be severely treated if found.

"The next morning about 7 o'clock the quartet went back to the shanty and found that it had been looted. Two new trunks that the four had brought with them were gone, and in their place was a couple of dilapidated old trunks filled with old, dirty working clothes. Everything else was missing, even to their cooking utensils, razors, brushes."

EXPRESS RATES WILL BE CUT

(Continued from Third Page.)

Cleveland was unanimously chosen president and W. R. Wilson vice president. It was a three-cornered fight for chief and Harry Hauser was chosen on the first formal ballot, having a clear majority over Ed J. Yevell and George Howe. The report of the chief showed that the year had been a bad one for fires, the losses aggregating \$2,000, with \$4,000 insurance. There were no large fires except that at the Normal school.

CORN SHOW DAY AT BENSON

Big Meeting Will Be Held to Plan for Making an Exhibit.

Farmers and corn growers of Douglas county will meet at the city hall in Benson Saturday afternoon at 1:30 o'clock to plan for a county exhibit to be made at the National Corn Exposition, which is to be held in Omaha in December. Douglas county, Nebraska, and Pottawattamie county, Iowa, are to be the only counties at the big exhibition which will be given space for their corn and other grain. All other exhibits will be by states, but the two counties, which are just across the river from each other, and which are among the greatest corn growing counties in the United States, will be by states. The board of directors of the Douglas County Agricultural society will attend the meeting at Benson Saturday afternoon and co-operate with the corn growers of the county in planning the exhibit for the county.

Taft Speaks in Cincinnati

Secretary of War Makes Address at Phoenix Club Banquet on the Philippines.

CINCINNATI, O., April 10.—Secretary of War W. H. Taft was the guest of honor and solo speaker at a banquet in this city tonight, given by the Phoenix club, which was attended by more than 300 prominent citizens, nearly all of whom were old friends and neighbors of the speaker. He discussed the Philippines.

Water Works

Compromise.

OMAHA, Neb., April 10.—To the Editor of The Bee: My position on water works is well known to many. Two years ago I presented to the executive committee of the Commercial club a plan to avert the result which now confronts the people and seriously reflects on the municipal honor of Omaha. They never wanted and never intended to pay more than one-half of \$2,000,000 for the water works. A vote to buy them at either \$2,000,000 or \$4,000,000 would have been overwhelmingly defeated, and everybody knows it.

My proposition two years ago was to settle with the water company, discontinue dishonorable law suits, and release this great system of water works on fair and just terms to the water company and to the people for a period of twenty or twenty-five years. I coupled with it a pledge of the public credit to build the Platte canal at a cost not to exceed \$2,000,000. This latter part I now disown, but renew the suggestion that a powerful committee of new men be chosen by the Commercial club and Real Estate exchange, whose duty it shall be to confer with President Woodbury to find out if it is still possible to adjust the great matter in the way I have thus indicated. —GEORGE L. MILLER.

Not Very Sweet Medicine.

OMAHA, April 10.—To the Editor of The Bee: I see you ask for answers to the question, What shall we do about the water works decision? I don't see how we can do anything now but either to appeal or take our medicine. It doesn't taste good, however, after all the sweet promises made us by those high-priced lawyers and Water board wisecracks. —TAXPAYER.

Cut Out the Politics.

OMAHA, April 10.—To the Editor of The Bee: The Bee has been right all along in this water works matter, as proved by the present court decision. Every mistake made by the city was made against the advice of The Bee, that warned all of the likelihood of disaster in the end. I think that advice given by The Bee from time to time in the proceedings should be looked into now, and perhaps some way out can be found that will not be too burdensome on the city. There has been too much politics in this water works buying heretofore. I am only a clerk, but I think it is high time now to deal with it purely as a business proposition. —ALBERT CHENEY.

Y. M. C. A. BOYS TAKE A HIKE

Gymnasium Class Walks to Sarry Mills—Notes of Junior Department.

The intermediate gymnasium class of the boys' department of the Young Men's Christian association took a hike to Sarry Mills Friday morning. R. O. Babcock of the Nebraska Telephone company gave a practical telephony talk to boys at the association building last evening. Boys' Secretary E. F. Denton is planning a social for the entire junior depart-

ment. This will be held in the boys' rooms Friday, April 24.

WELL-WISHES FROM CHRISTIE

Hostile Member of School Board Speaks of Principal Waterhouse.

"No one has more sincere wishes for the success of Principal Waterhouse than I have, and I most sincerely hope he will like his work in Fremont and that due appreciation will be shown," says Dr. W. H. Christie, member of the Board of Edu-

cation, and who as chairman of the committee on high school matters has led the losing fight in the board against the retention of the principal.

"The one objection I have had to Mr. Waterhouse has been his seeming inability to draw the children to him and show them in a kindly spirit the way things should be done and not force them to do it, thereby driving them from him. I am glad he has secured this fine position and my well wishes will follow him wherever he goes." The statement is made that probably nothing will be done towards electing a

successor to Principal Waterhouse until later in the school year. The board has always had a number of applications on file.

A Pleasant Surprise follows the first dose of Dr. King's New Life Pills, the painless regulators that strengthen you. Guaranteed. 5c. For sale by Beaton Drug Co.

Daniel Sully Injured. KINGSTON, N. Y., April 10.—Daniel Sully, the actor, was quite badly injured yesterday. While driving home his team of horses ran away, throwing him out of a wagon.

Narrow Heels

No matter how well it fits the rest of your foot, if it slips at the heel your shoe is wrong. Narrow heels demand that the shoe fit snug, holding them in place at every step. The firm clasp you feel from a Crossett is its eloquent answer to that very demand.

HAYDEN BROTHERS OMAHA AGENTS

FLYING MACHINE INVENTOR

Kept Strong and Vigorous to the Age of 90 and Enabled to Live to See His Live's Work Crowned With Success.

Mr. Henry Clarke Moore, of Tama, Iowa, who is 90 years of age, has just completed his first flying machine, which will revolutionize the world. His brain has been kept clear and alert and the perfection of his invention made possible by his daily use of Duffy's Pure Malt Whiskey as his only invigorator and tonic-stimulant.

MR. HENRY CLARKE MOORE.

Inventor Moore firmly believed many years ago that a perfect flying machine could be constructed, and he has spent his entire life to perfect his invention. In an interview with our correspondent he said: "I know my machine is practical, and I hope with the help of God and the aid of Duffy's Pure Malt Whiskey to live long enough to see it in use commercially and in the army and navy." Speaking further Mr. Moore said: "For several years I had been greatly troubled with dormant and sluggish action of the lower bowels, which caused me intense suffering. No treatment seemed to benefit me until finally I was induced to try Duffy's Pure Malt Whiskey, which I took according to directions—a teaspoonful two or three times a day—and it gave me immediate relief. I steadily gained my health and strength, until now I am as vigorous and active as man of 60 years of age. My mind is as clear as it ever was, and I have done some of the best work on my invention the last few years, which proves my mental and physical condition. Please bear in mind that I am a temperance man and do not advise any one to use alcoholic beverages

except as a medicine, but I do firmly advise all old people and those who are run down to use Duffy's Pure Malt Whiskey as I have, as I believe it is the greatest support to those who are weakened by age. In my case it stimulated and built me up; it quickened my circulation and made me feel more alert and able to do things. I believe in being temperate in all things, eating as well as drinking. In my opinion more sickness and breaking down of health comes from over-eating than over-drinking, and if by some means the human being could be educated to strict temperance in all things, what a difference we should soon see in the human race. There is one thing certain—if every one would do as much to educate the people to temperance as the makers of Duffy's Pure Malt Whiskey do there would be no such thing as intemperance. I will be very glad if my interview will be the means of saving some of my poor sick sisters and brothers who before this have not heard of the great good they may receive from the use of Duffy's Pure Malt Whiskey." Thousands of letters like this one from Mr. Moore are received from men and women who have been restored to normal health by the use of the world's greatest tonic-stimulant and invigorator. Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach. If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as the great family medicine everywhere. Duffy Malt Whiskey Co., Rochester, N. Y.
