features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, April 12.—Excellent weather for seeding in the northwest caused a weak inish in the local wheat market today, the May option closing at a net loss of Lc. Corn was a shade lower. Oats were keep cower. Provisions were 24se to 10c lower. The wheat market opened strong because of dry weather in parts of Kansas and Nebrasks and small receipts in the aorthwest. After the first hour the volume of trade became small, but the attength was well maintained, a decrease of 1035,000 bu., in the visible supply tending to sustain prices at a moderate advance. In the final hour, however, sentiment became bearish because of reports from the porthwest that seeding operations are in the swing all over the spring wheat tountry. The market closed weak. May opened to the provide the poper valleys and west over the upper valleys and west over the upper valleys and west over the upper valleys and scattered precipitation occurred in the eastern states within the last twenty-four hours and rains are falling in the west guif states this morning. The weather is generally within the last twenty-four hours and rains are falling in the west guif states this morning. The weather is generally within the last twenty-four hours and rains are falling in the west guif states this morning. The weather is generally weather the supper valleys and west over the upper valleys and would be an occurred in the east and south. Light and scattered precipitation occurred in the east and south. Light and scattered precipitation occurred in the east and south. Light and scattered precipitation occurred in the upper valleys and west. It is slightly cooler.

In the east and south. Light and scattered precipitation occurred in the upper valleys and west. It is slightly could be upper valleys and would state twenty-four hours and south. Light and scattered precipitation occurred in the upper valleys and west. It is slightly couldness within the last twenty-four hours and south. Light and scattered precipitation occurred in the up Prices on Board of Trade. 1.283.009 bu. on the same day last year. Minneapolis. Duluth and Chicago reported receipts of 345 cars, against 601 cars last week and 851 a year ago.

Corn was strong for the greater part of the day, the May delivery selling at 854c, which was a new high mark for the season. Light receipts and the strength of wheat were the principal bullish influences. Some weakness developed during the final hour because of increased country acceptances. The close was easy. May opened unchanged at 674c, advanced to 154c, and then declined to 674c. The close was at 674c. Local receipts were 77 cars with 11 cars of contract grade.

Trading in oats was quiet. The market opened firm along with wheat and corn, but weakened on favorable weather for seed. The close was easy. May opened 4c higher at 534c, sold to 54c and then declined to 54cc, where it closed. Local receipts were 147 cars.

Provinions opened firm because of the strength of grain, but later weakened on a 10c decline in live hogs, and the easier tone of wheat and corn. At the close May pork was off 24c at 51240. Lard was down 10c at 25.274. Ribs were 50 The leading futures ranged as follows:

OMAHA, April 13, 1808.

Optional market did not act responsive with the outside markets, heading firm without showing any additional advance without showing any additional advances showed no rainfail over Sunday in any localities and sentiment favored the built side, but the necessary support failed to come out in spite of the lapter Chicago and Minneapolis markets.

Wheat opened firm on cortinued reports of no rainfail throughout the growing sections. Values held steady with no advance owing to the lack of support from the buying side and a general tendency on the part of traders to wait for further advances. Trading was duil during the session and prices slumped off 16c toward the close. May wheat opened at 1816.

Corn was firm and advanced readily on good buying, and a decided decrease in the world's visible supply, some selling later eased values off and the advance at the close was reduced to Saturday's closed 1816.

Oats remained steady but duil, with a featureless market. Cash oats were firm and opened at 180c. closed 1816.

Orn receipts accepts were 18,000 bushels and shipments of 285,000 bushels, against receipts last year of 1,255,000 bushels and shipments of 285,000 bushels, against receipts last year of 1,255,000 bushels and shipments of 285,000 bushels of corn wheat and 4d higher on corn.

NEW YORK STOCKS AND BONDS

Market Gives Further Evidence of Limits to Professional Traders.

HEAVY AND DULL

Much of Stagnation is Due to Financial Situation Abroad and Disturbance in Metal Trados.

NEW YORK, April 13.—The stock market today gave further evidence of its restriction within professional limits and fell into a dull rut in which little significance attached to the sluggish fluctations in prices. The tone was heavy, which is almost inevitably the case in a profoundly dull market. Some of the heaviness was of foreign inspiration and London sold on balance in this market. Paris continued to withdraw gold from London and prices continued to harden at that center, while further rise in foreign exchange rates here brought conditions near to the level at which London could shift the Paris demand for gold shipments to New York. London remittances to Paris represent the completion of the repayment of advances made during the New York financial crisis and its reflected results in foreign markets. There seems to be same speculative troubles in Paris, due to disturbances in the diamond and copper trades, which induced liquidation by Paris in the London stock market. An official announcement was made in New York that the solling agency of the principal copper producers had marked down the selling price of copper, thus conforming to the last week's successive reductions in the London market and at the New York Metal exchange. For this reason Amalgamated Copper was a leader in the early downward movement of prices. The amount of subscriptions at Berlin to the new German and Prussian loans, although fully covering to issues, seemed to be considered disappointing, thus adding to the unfavorable influences from abroad. The imprevenent in investment issues in foreign markets was in consequence checked, Domestic events offered little to offect these foreign influences. Railroad traffic officials reported that there was no change in conditions and there was a disposition to post-ported that there was no change in conditions and there was a disposition to post-ported that there was no change in conditions and their was foreign from Thursday of this week until Monday of next.

McCreary & Carey
H. F. Hamilton
F. G. Inghram lackshire Kingan St. L. Ind. Pkg. Co.

CATTLE-Receipts of cattle were not very large at this point, but there was a liberal run at Chicago. The trade as a whole was in very unsatisfactory condition, being slow and weak from start to finish.

lower, and in some cases as much as 15c lower.

Cows and heifers were also slow throughout, buyers holding off for a 5 \$\tilde{\text{0}}\$ 10c decline. It was middsy before anything like a clearance was affected.

There were quite a good many feeders in the yards, some of them of very good quality. The market on the best grades was about steady and from that down to a little lower on others. As high as \$5.40 was paid for choice Idaho hay-feds.

Quotations on cattle: Good to choice corn-fed steers, \$5.566.55; fair to good corn-fed steers, \$5.566.55; fair to good cows and heifers, \$4.566.55; fair to good cows and heifers, \$3.7564.85; common to fair cows and heifers, \$3.7564.85; common to fair to good stockers and feeders, \$4.004.75; good to choice stockers and feeders, \$4.004.75; common to fair stockers and feeders, \$3.004.75; common to fair stockers and feeders, \$3.00.

mon to fair stockers and feeders, \$3.00
